

SERVICE UPDATE

REQUIREMENT: Injuries and Fatalities Must be Reported to Department Within Three Business Days

Local Law 78 of 2017 requires the property owner, contractor, subcontractor, or person otherwise in control of a construction site to report specific information about any site incident that resulted in a fatality or injury to a construction worker or member of the public to the Department of Buildings within three (3) business days.

Owners and other responsible parties must use the [Department's online form](#) to report details of the incident within three business days. The Injury/Fatality Incident Information form is also available on the Department's [Notification Forms](#) page.

Failure to submit the Injury/Fatality Incident Information form within three business days of the incident may result in a \$2,500 civil penalty.
