Effective immediately, Professional Engineers and Registered Architects have been given access to request inspections on all permits associated with the job.

Permit records should display in the users record list. All inspections should be requested against "Permit Records" unless it is an inspection for a Job Withdrawal, which should be requested on the "Job Record."

Requests for permit withdrawal are requested against the "Permit Record".

In addition to Professional Engineers and Registered Architects, the Applicant/Contractor listed on the PW2 will also have access to the permits associated with their license.
