- The General Search page will default to search Records opened within the past 5 years. When searching for a Record opened more than 5 years ago, enter a different date in the in the Start Date field.
- Adding information to more than one field narrows the results.
 - When multiple fields are used to search, the results displayed match *all* criteria entered.
- Use the % sign as a wildcard.

4. Results will populate in the table below the search criteria fields. Click the **ID Number** of the Record you wish to view.
