

EXECUTIVE DIRECTOR'S REPORT TO THE BOARD

(Remarks as written for delivery)

July 20, 2016

(Statistics for June 2016)

Good evening. My name is Mina Malik and I am the Executive Director of the Civilian Complaint Review Board (CCRB).

I will discuss matters pertaining to the operations of our agency, and provide you with highlights from our monthly statistical report. For a full review of the Agency's monthly statistics, please visit our website.

Figure 1: In June 2016, the CCRB initiated 431 new complaints (#)

In June 2016, the CCRB initiated 431 new complaints, which reflects an increase from 378 in May. With regard to complaints received by type of allegation, comparing June 2015 to June 2016, complaints with a discourtesy allegation have decreased 24%, complaints with an offensive language allegation have increased 3%, complaints with an abuse of authority allegation have increased 14%, and complaints with a force allegation have decreased 20%.

Figure 2: Open Docket Analysis (#)

In June, the CCRB's total open docket was 1,002 cases. By the end of June, 655 of these cases were in the Investigations Division representing 65% of the total - up from 599 in May 2016. Of the total docket, 221 cases were pending Board and/or Executive Staff review representing 22% - down from 384 cases pending review in May. The Mediation Program handled 109 cases representing 11% of the open docket - up from 106 cases in May. There were an additional 17 cases on DA hold in June. The June 2016 docket includes 12 reopened cases: 9 of these cases are active investigations, and 3 are pending board review.

The CCRB continues to close its cases more efficiently. Of the cases that remain in the CCRB active docket, 97% have been open for four months or less, and 99% have been open for seven months or less. These docket numbers continue to represent the best docket numbers in the Agency's 23-year history.

Investigators closed 820 full investigations from January through June 2016. Year to date, the average days to close a full investigation has decreased 56% from 2014, before the reforms.

In June 2016, the CCRB fully investigated 34% of the cases it closed, and resolved (fully investigated, mediated or mediation attempted) 41% of the cases it closed. The truncation rate was 59% in June 2016. This is primarily driven by complainant/victim/witness uncooperative which the CCRB is focused on examining in order to decrease the number of truncations.

Now I would like to highlight other key statistics for the month of June:
