Home Improvement Contractor License Application Checklist

Who Must Have a Home Improvement Contractor License?

A person or business must have a Home Improvement Contractor license to do construction, repair, remodeling, or other home improvement work to any residential land or building in New York City. Other home improvement work includes, but is not limited to, the construction, replacement, or improvement of basements, driveways, fences, garages, landscaping, patios, porches, sidewalks, swimming pools, terraces, and other improvements to structures or upon land that is next to a home or apartment building.

This description is only a general explanation of who must have a Home Improvement Contractor license.
