STOOP LINE STAND TYPE AND PRODUCT CATEGORY FORM

Stoop Line Stands are generally four (4) feet wide by ten (10) feet long. However, if the sidewalk in front of a retail establishment is at least sixteen (16) feet wide, it is permissible to have a stand five (5) feet wide by ten (10) feet long as long as a straight, unobstructed pathway of at least nine and one half (9 1/2) feet is maintained at all times on the sidewalk in front of the entire length of the retail establishment where such a stand is located. All applicants requesting a stand five (5) feet in width will be inspected by the Department of Consumer Affairs (DCA) to verify measurements.

If your stoop line stands are all the same width size, you need to submit only ONE license application.

If your stoop line stands vary in width size, you must submit a separate license application for EACH differing set of stands. For example, you plan to sell fruits from two 4 feet wide stands and one 5 feet wide stand You must submit TWO license applications: #1 (4 feet stands for fruits); #2 (5 feet stand for fruits). Complete this form as part of your application for set #1. Complete a separate application, including this form, for set #2.

Note: If two (2) stoop line stands are separated by a door or other structure, they will be considered two (2) separate stands for licensing purposes.

STOOP LINE STAND TYPE

1. How many 4 Feet Wide stands do you plan to have? _____
2. How many 5 Feet Wide stands do you plan to have? _____

PRODUCT CATEGORY

3. Select the Product Category that describes what you plan to sell from your stoop line stand(s)? Check ONE only.
