

Sharing Via the Document Vault

The Document Vault provides your organization with a secure digital filing cabinet for important organizational documentation. The Document Vault also allows you to upload required documents necessary to obtain and maintain eligibility to conduct business with the City of New York. The Document Vault enables direct and secure transmission of documents to the HHS Accelerator Team, City Agencies, other funders and Client and Community-based Service Providers.

For detailed step-by-step instructions on how to upload and share documents, please review the “**Introduction to the Document Vault**” guide.
