Pursuant to Procurement Policy Board Rule Section 3-05, the New York City Department of Health and Mental Hygiene intends to enter into a sole source agreement with Lifeguard Digital Health, Inc., who will provide LifeguardLite, a medical alert device, to avert overdose deaths in New York City due to the fentanyl and xylazine crises, particularly among people that use alone, such as those in supportive housing, who often do not get naloxone administered until it is too late.

DOHMH has determined that LifeguardLite was identified as the only device available to link people using drugs directly with emergency services to deliver naloxone in time to prevent fatal overdose. Lifeguard Lite has been installed in supportive housing units in other jurisdictions and has proven to successfully avert overdose deaths by ensuring that this simple life-saving intervention can be delivered in a timely manner. Lifeguard Digital Health Inc. is the inventor and sole provider of LifeguardLite, and there are no authorized resellers of this product. Therefore, DOHMH seeks to enter into a sole source contract with Lifeguard Digital Health Inc.

Any vendor who believes they are qualified to provide such services is invited to indicate interest by responding to the RFI EPIN 81624Y0556 in PASSPort.

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established six (6) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting, Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis), Plumbing and Electrical.

All vendors interested in NYCHA's PQLs must follow two $\left(2\right)$ important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQL's and to obtain applications, please visit NYCHA's website at: https://www.nyc.gov/site/nycha/business/nycha-pql.page

Statement of Basis and Purpose of Proposed Rules

Introduction

The Landmarks Preservation Commission ("LPC" or "Commission") is proposing amendments to Chapter 2, Section 2-23 to:

- (1) make the work of the Commission more transparent and efficient;
- (2) address new and amended governmental codes and criteria for the installation of sidewalk and roadway cafes as required by the rules adopted by the Department of Transportation establishing the new permanent Outdoor Dining program; and
- (3) delegate to the LPC Staff the authority to approve work that has no effect on significant exterior architectural features of the buildings and streetscapes of districts regulated by the Commission, thereby ensuring that at future public hearings and meetings the Commission can review the increasing number of applications that do have significant impact.

Description of Proposed Changes

The proposed amendments to section 2-23 would codify the existing regulatory review procedure long utilized by the Commission for regulating the installation of sidewalk cafes and would expand this review to roadway cafes. This approach has ensured that sidewalk cafés approved by the Commission include only temporary or appropriate components and therefore have no impact on landmarked structures

Section 2-23 of the rules covers repetitive work that occurs on city property such as sidewalks. It currently includes provisions for

regulating the installation of public pay telephones and other public communication structures.

Sidewalk cafes associated with ground floor restaurants have been part of the city's streetscape since the mid-19th century, and legally so since 1929. These installations support ground floor restaurants and enliven the commercial streetscape. Due to their low-scale and lightweight components (e.g. dining furniture, umbrellas, and perimeter elements like ropes, stanchions and planters), sidewalk cafes have traditionally had a simple presence on the streetscape and did not detract from the buildings they are associated with and the streetscape in general. Because their components are generally moveable, the LPC has historically not regulated their presence except where components are not moveable.

During the COVID 19 pandemic, the city authorized ground floor restaurants to utilize the roadway in front of their establishments for roadway cafes, a practice that has been made permanent by local legislation in 2023. In the fall of 2023, the Department of Transportation proposed rules governing both sidewalk and roadway cafes to ensure such cafes had a modest and ephemeral presence and held a public hearing on such proposed rules.

LPC has reviewed the DOT rules for sidewalk and roadway cafes and finds that the requirements ensure that these installations will have a modest and ephemeral presence and will not detract from significant historic features of the buildings and streetscapes under LPC's jurisdiction. As a result, the proposed LPC rules would not require owners to submit applications for sidewalk or roadway cafes provided the installations comply with all relevant DOT rules and regulations.

The exception to this rule would be for components that are to be physically attached to a building or historic paving, such as an awning, overhead covering or electrical conduit. In such a case, the owner would have to submit an application to the LPC for that particular component only.

New material is underlined.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this Commission, unless otherwise specified or unless the context clearly indicates otherwise.

No advertising shall be permitted on a PPT, PPT Enclosure, or PCS that is not located at the curb.

- (4) Nothing in this rule shall be interpreted to obviate the need to obtain all necessary approvals from the Department of Information Technology and Telecommunications, or any other governmental agency, for all installations of a PPT Enclosure or a PCS.
- (c) Review of Roadway and Sidewalk Cafés and Components.
- (1) Introduction. Sidewalk cafes associated with ground floor restaurants have been part of the city's streetscape since the mid-19th century, and legally so since 1929. These installations support ground floor restaurants and enliven the commercial streetscape. Due to their low-scale and lightweight components (e.g. dining furniture, umbrellas, and perimeter elements like ropes, stanchions and planters), sidewalk cafes have traditionally had a simple presence on the streetscape and do not detract from the buildings they are associated with and the streetscape in general. Because their components are moveable, the LPC has historically not regulated their presence except where components are not moveable. In response to the COVID pandemic of 2020-2022, the City allowed, on an emergency basis, roadways adjacent to the curb to be used as additional outdoor dining spaces for ground floor restaurants. The provisions for roadway dining were made permanent through local legislation in 2023. Like sidewalk cafes, the regulations for the physical set-up of roadway cafes adopted by the Department of Transportation ("DOT") mandate easily removable components, including perimeter enclosures, tables and chairs. In addition, they can only operate between April 1 and November 29 and must be removed altogether when not permitted. The provisions set forth below are intended to ensure that roadway and sidewalk cafes installed in locations under the jurisdiction of the Landmarks <u>Preservation Commission have a modest and ephemeral presence</u> and are installed so as not to damage or destroy historic fabric, and that the components and overall composition of these installations do not call undue attention to themselves or detract from the significant architectural features of an improvement or a historic district.
- (2) Definitions. As used in this section 2-23, the following terms have the following meanings:

Components. The term "Components" means the physical objects used to define the area in which the roadway or sidewalk café seating area will be located, such as solid barriers, planters, stanchions and rope, and low partitions, as well as tables, chairs and umbrellas inside such area(s)

Enclosed Sidewalk Cafe. The term "Enclosed Sidewalk Cafe" means a structure housing a seating area that is entirely enclosed on the sides and top, creating an interior space that connects to the ground floor restaurant and is located on the sidewalk.

Physically Attached. The term "physically attached" means attached mechanically, for example by bolt, screw or nail, or chemically, for example, by glue or other adhesive.

Roadway Cafe. The term "Roadway Cafe" means an open-air portion of a ground floor restaurant containing readily removable tables, chairs, and other removable decorative items, which is located in the curb lane or parking lane of a roadway fronting the restaurant, and where the components comply with applicable DOT rules for such installations, including siting, design, signage and seasonal duration requirements.

Sidewalk Cafe. The term "Sidewalk Cafe" means an open-air portion of a ground floor restaurant containing only readily removable components, such as tables, chairs, stanchions and rope, planters and other removable and/or decorative items, that is located on a public sidewalk or sidewalk widening in front of the restaurant, and where the components comply with applicable DOT rules for such installations.

- (3) Installation and Design of Sidewalk Cafes. Except as indicated in subdivision (5) of this section, no application to the Commission, and no certificate, permit, report or approval is required for installation of a sidewalk cafe where the installation complies with all requirements of Chapter 5 of Title 34 of the Rules of the City of New York, governing Licenses and Revocable Consents for Sidewalk and Roadway Cafes, including but not limited to siting, design, and advertising requirements for such installations.
- (i) Enclosed sidewalk cafes, including alterations to or replacement of existing installations, are not covered by this rule.
- (4) Installation and Design of Roadway Cafes. Except as indicated in paragraph (5) of this subdivision, no application to the Commission, and no certificate, permit, report or approval is required for installation of a roadway cafe where the installation complies with all requirements of Chapter 5 of Title 34 of the Rules of the City of New York, governing Licenses and Revocable Consents for Sidewalk and Roadway Cafes, including but not limited to siting, design, advertising and seasonal duration requirements for such installations.
- $\underline{\hspace{0.3in}}(5)$ Notwithstanding the provisions of paragraphs (3) and (4) of this subdivision, if a sidewalk or roadway café includes the installation of a

component, including but not limited to an awning, overhead covering, heat lamp, light fixture or electrical or plumbing conduit, that is:

- (i) physically attached to a building, or
- (ii) penetrates through the exterior of a building (for example, through a façade or storefront), or
- (iii) through such attachment physically impacts an interior landmark, or
- (iv) attaches to or penetrates through a bluestone or granite paver,

the owner must submit an application for such component(s) to the LPC and must not install such component(s) until the LPC has issued a certificate, permit, report or other approval for such installation.

(6) Other Proposals.

- (i) All proposals to install a sidewalk or roadway cafe that do not satisfy the requirements of paragraphs (3) or (4) of this subdivision must be reviewed and approved by the Landmarks Preservation Commission by a certificate of appropriateness, certificate of no effect, permit for minor work or report, as appropriate, as set forth below.
- (ii) Application Procedures for Proposals to Install a Sidewalk or Roadway Cafe Requiring a Certificate, Permit or Report. An application form must be filed for each proposed sidewalk or roadway cafe. The application form must be signed by the owner of the real property which contains the ground floor restaurant in front of which the sidewalk or roadway café is to be installed.
- (iii) Nothing in this rule shall be interpreted to obviate the need to obtain all necessary approvals from the Department of Transportation, Department of Buildings or any other governmental agency, for installations of a sidewalk or roadway café or any component within such cafe.
