For such #developments# or #enlargements# that, pursuant to this Section, increase their permitted #floor area#, and provide a #public plaza#, the Commission may also increase the maximum height of such #development# or #enlargement# and may modify or waive the requirements for #public plazas# set forth in Section 37-70 (Public Plazas).

Applications for such #floor area# increases and modifications are subject to the requirements, conditions and findings set forth in this Section.

(a) Application Requirements

All applications for a special permit pursuant to this Section shall include the following:

- (1) site plans and elevations which shall establish distribution of #floor area#, height and #setback#, sidewalk widths, primary business entrances, including parking and loading, #yards# and #public plazas#, signage and lighting;
- (2) floor plans of all floors which shall establish the location, access plan and dimensions of freight elevators and loading areas and the location of #floor area# dedicated to #business-enhancing uses# and #incentive uses#;
- (3) drawings that show, within a 600 foot radius, the location and type of #uses#; the location, dimensions and elements of off-site open areas including #streets#, waterfront and #upland# parcels; elements of a Waterfront Access Plan, as applicable; and the location of #street# trees and #street# furniture and any other urban design elements. The plans shall demonstrate that any #public plaza# provided meets the requirements of paragraph (b)(5) of this Section; and
- (4) for #zoning lots# in #flood zones#, flood protection plans, which shall establish #base flood elevations# and advisory #base flood elevations#, location of mechanical equipment, storage of any hazardous materials and proposed structural or design elements intended to mitigate the impacts of flood and storm events.

(b) Conditions

- (1) Minimum amount of #business-enhancing uses#
#Business-enhancing uses# shall occupy a minimum of 5,000 square feet of horizontally contiguous #floor area# and shall be served by loading areas and freight elevators with sufficient capacity.
- (2) Minimum sidewalk width
All #developments# and horizontal #enlargements# that front upon a #street line# shall provide a sidewalk with a minimum width of 15 feet along the entire frontage of the #zoning lot#. Such sidewalk, and any open area on the #zoning lot# required to meet such minimum width shall be improved as a sidewalk to Department of Transportation standards; shall be at the same level as the adjoining public sidewalk; and shall be accessible to the public at all times. For the purposes of applying the #street wall# location requirements and the height and setback regulations of paragraph (b)(3) of this Section, any sidewalk widening line shall be considered to be the #street line#.
- (3) Height and setback

The height and setback regulations of the applicable zoning district shall apply as modified by the provisions of this paragraph.

- (i) The #street wall# of any #building# shall be located on the #street line# and shall extend to a height not lower than a minimum base height of 40 feet and not higher than a maximum base height of 75 feet or the height of the #building#, whichever is less. At least 70 percent of the aggregate width of such #street wall# below 12 feet shall be located at the #street line# and no less than 70 percent of the aggregate area of the #street wall# up to the base height shall be located at the #street line#. However, up to a width of 130 feet of such #street wall# located on the short end of the #block# may be set back from the #street line# to accommodate a #public plaza#.
- (ii) The height of a #building or other structure#, or portion thereof, located within ten feet of a #wide street# or within 15 feet of a #narrow street# shall not exceed a maximum base height of 75 feet. Permitted obstructions as set forth in Section 43-42 shall be modified to include dormers above the maximum base height within the front setback area, provided that on any #street# frontage, the aggregate width of all dormers at the maximum base height does not exceed 50 percent of the #street wall# and a maximum height of 110 feet. Beyond ten feet of a #wide street# and 15 feet of a #narrow street#, the height of a #building or other structure# shall not exceed a maximum #building# height of 110 feet. All heights shall be measured from the #base plane#. Where a #public plaza# is provided pursuant to paragraph (b)(5) of this Section, such maximum #building# height may be increased to 135 feet.
- (iii) Along the short dimension of a #block#, up to 130 feet of such #street wall# may be set back from the #street line# to accommodate a #public plaza#, and a #street wall# located at the #street line# that occupies not more than 40 percent of the short end of the #block# may rise without setback to the maximum #building# height.

(4) Ground floor design

- (i) The ground floor level #street walls# and ground floor level walls fronting on a #public plaza# of a

#development# or horizontal #enlargement# shall be glazed with transparent materials which may include #show windows#, transom windows or glazed portions of doors. Such transparent materials shall occupy at least 50 percent of the surface area of such #street wall#, measured between a height of two feet above the level of the adjoining sidewalk or #public plaza# and a height of 12 feet above the level of the first finished floor above #curb level#. The floor level behind such transparent materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the #street wall#. The ground floor transparency requirements of this paragraph (b)(4)(i) shall not apply to #uses# listed in Use Groups 11, 16, 17 and 18, or to #accessory# loading berths, or garage entrances#; or

(ii) For #zoning lots# within flood hazard areas, in lieu of the requirements of paragraph (b) (4)(i) of this Section, the provisions of Section 64-22 (Transparency Requirements) shall apply; and

(iii) For any #street wall# widths greater than 40 feet in length that do not require glazing as specified in paragraphs (b)(4)(i) or (b)(4)(ii), as applicable, the facade, measured between a height of two feet above the level of the adjoining sidewalk and a height of 12 feet above the level of the first finished floor above #curb level#, shall incorporate design elements, including lighting and wall art, or physical articulation.

(5) #Public plazas#

A #public plaza# shall contain an area of not less than 12 percent of the #lot area# of the #zoning lot# and minimum of at least 2,000 square feet in area. All #public plazas# shall comply with the provisions set forth in Section 37-70, inclusive, except certification requirements of Sections 37-73 (Kiosks and Open Air Cafes) and 37-78 (Compliance) shall not apply.

(6) Signs

In all Enhanced Business Areas #signs# are subject to the regulations applicable in C6-4 Districts as set forth in Section 32-60, inclusive.

(c) Findings

In order to grant an increase of the maximum permitted #floor area ratio# and modification of #public plaza# regulations, the Commission shall find that such increase or modification:

- (1) will promote a beneficial mix of #business-enhancing# and #incentive uses#;
- (2) will result in superior site planning, harmonious urban design relationships and a safe and enjoyable streetscape;
- (3) will result in a #building# that has a better design relationship with surrounding #streets# and adjacent open areas;
- (4) will result in a #development# or #enlargement# that will not have an adverse effect on the surrounding neighborhood; and
- (5) any modification of the #public plaza# requirements will result in a #public plaza# of equivalent or greater value as a public amenity.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(d) Recordation

A Notice of Restrictions, the form and content of which shall be satisfactory to the City Planning Commission, for a #building# containing #use# restrictions or #public plaza# requirements, as applicable, pursuant to this Section, shall be recorded against the subject tax lot in the Office of the City Register or, where applicable, in the County Clerk's office in the county where the lot is located.

The filing and recordation of such Notice of Restrictions shall be a precondition to the issuance of any building permit utilizing the provisions set forth in this Section. The recording information shall be referenced on the first certificate of occupancy to be issued after such notice is recorded, as well as all subsequent certificates of occupancy, for as long as the restrictions remain in effect.

74-963

Parking and loading modifications in Enhanced Business Areas

In association with an application for a special permit for #developments# or #enlargements# pursuant to Section 74-962 (Floor area increase and public plaza modifications in Enhanced Business Areas), the Commission may reduce or waive the off-street parking requirements set forth in Section 44-20 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES FOR MANUFACTURING, COMMERCIAL OR COMMUNITY FACILITY USES), INCLUSIVE, NOT INCLUDING BICYCLE PARKING, AND MAY ALSO REDUCE

OR WAIVE THE LOADING BERTH REQUIREMENTS AS SET FORTH IN SECTION 44-50 (GENERAL PURPOSES), inclusive, provided that the Commission finds that:

- (a) such reduction or waiver will not create or contribute to serious traffic congestion and will not unduly inhibit vehicular and pedestrian movement;
- (b) the number of curb cuts provided are the minimum required for adequate access to off-street parking and loading berths, and such curb cuts are located so as to cause minimum disruption to traffic, including vehicular, bicycle and pedestrian circulation patterns;
- (c) the #streets# providing access to the #development# or #enlargement# are adequate to handle the traffic generated thereby, or provision has been made to handle such traffic; and
- (d) the reduction or waiver of loading berths will not create or contribute to serious traffic congestion or unduly inhibit vehicular and pedestrian movement.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)
- Office of the Criminal Justice Coordinator (CJC)

Statement of Basis and Purpose of Proposed Rule

The Landmarks Preservation Commission's (LPC) rules currently provide standards for the approval of the installation of public pay telephones ("PPT") on LPC-designated property. The City of New York has awarded a franchise agreement for the installation, operation and maintenance of public communications structures ("PCS"), which includes the replacement of public pay telephones with PCS that will provide free Wi-Fi and phone service. The proposed amendments to Section 2-21 of the LPC's rules will provide standards for the approval of the installation of PCS in a similar manner as the existing approval for PPTs.

The amendments to Section 2-21 set forth the standards to permit for the installation of PCS without review and approval by the LPC staff:

- The PCS must be a design approved by the Public Design Commission;
- The location of the PCS must meet siting criteria established by the Department of Information Technology and Telecommunication; and
- The installation of the PCS must meet standards to preserve historic paving materials.

The Commission's authority for these rules is found in Sections 1043 and 3020 of the New York City Charter and Sections 25-303, 25-305, 25-306, 25-307, 25-308, 25-310, 25-313 and 25-319 of the New York City Administrative Code.

New material is underlined.

[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this Commission, unless otherwise specified or unless the context clearly indicates otherwise.

§2-21 Rules Relating to Installation of Public Pay Telephones and Public Communications Structures.

- (a) Introduction. Public pay telephones have been part of the City's [street scape] streetscape for half a century. First introduced in the 1950s pursuant to a franchise agreement with the City, legally permitted public pay telephones contribute to the urban experience as well as provide an important communication link for business, pleasure and public health and safety. [These] public Public pay telephones have traditionally had a quiet presence on the [street scape] streetscape that allowed for their identification without calling undue attention to themselves. The provisions set forth below are intended to ensure that public pay telephones and public communications structures installed in areas under the jurisdiction of the Landmarks Preservation Commission are installed in a manner that does not damage or destroy historic fabric and that the design and placement of such phones and structures shall not call undue attention to themselves or detract from the significant architectural features of an improvement or a historic district or adversely affect a historic district's distinct sense of place.
- (b) Definitions. As used in this section, the following terms [shall] have the following meanings:
- (1) ["Curbfront"[]. The term "curbfront"] [shall mean] means the sidewalk curb that divides the sidewalk from the roadway.
 - (2) "Public pay telephone" or PPT" shall be defined by Section 23-401(f) of the Administrative Code of the City of New York.]

 - (4) ["PPT Franchise Agreement"[]. The term "PPT Franchise Agreement"] [shall mean] means a franchise granted by the City pursuant to the revised solicitation issued by the Department of Information Technology and Telecommunications ("DoITT") on June 9, 1997 pursuant to Resolution No. 2248 or any subsequent solicitation with a similar purpose whether or not such subsequent solicitation includes all or part of the components of the June 9, 1997 solicitation.
 - (5) Public communications structure or PCS. The term "public communications structure" or "PCS" means a structure installed on public property pursuant to a valid PCS Franchise Agreement.
 - (6) Public pay telephone or PPT. The term "public pay telephone" or "PPT" is defined by Section 23-401(f) of the Administrative Code of the City of New York.
- (c) Approval of Installation and Design of PPT Enclosure [Design] and of PCS Installation.
- (1) PPT Enclosure and Installation. No application to the Commission, and no certificate, approval, permit or report shall be required for a proposal to install a PPT Enclosure if such proposal meets the following criteria:

 - (ii) Each PPT Enclosure shall be designed to be inconspicuous and to not call undue attention to itself, and shall have an exterior dimension no greater than 35" wide x 44" long x 90" high. A maximum of two PPTs may be installed in-line together, but in such instance the enclosure shall be no greater than 35" wide x 88" long x 90" high. The height limitation shall include the height of a mast if one is installed. The PPT Enclosure may have clear glazing panels and shall be rectilinear if the PPT Enclosure is designed to have advertising panels;

- (v) The telephone and power lines to and from such PPT Enclosure, or any conduit containing such lines, shall not be visible;
- (vi) The nonglazed portion of the PPT Enclosure shall be a dark brown, dark green, black or dark grey color, or is uncolored stainless steel or clear-finished aluminum. If the PPT Enclosure is less than 15 inches by 36 inches, all portions of the PPT Enclosure shall be stainless steel or clear-finished aluminum;
- (vii) If the PPT Enclosure has advertising panels, the advertising panels shall be limited to two side panels, each of which is not larger than 27" wide x 57" high. - (vii) The telephone and power lines to and from such PCS, or any conduit containing such lines, are not visible.

(3) Other Proposals.

- (2)(i) All [other] proposals to install a PPT Enclosure or a PCS that does not satisfy the requirements of subsections (1) or (2) of this section shall be reviewed and approved by the Landmarks Preservation Commission by a certificate of appropriateness public hearing, report,

The fee collections began January 1, 2015. All other terms and conditions of these awards remain the same. Please contact this office if you have any questions.

The Bio-Diesel Blender Tax Credit was reinstated for 2014. As of January 1, 2015, the Bio- Diesel Blender Tax Credit has been rescinded for \$1.00 per gallon on B100. Therefore, for deliveries after January 1, 2015, the contractor will be collecting additional fees which will be shown as a separate line item on the invoice. The additional fee for items will range from \$0.05 for B5 to \$0.20 for B20 per gallon, varying on the percentage of biodiesel to be used. Should the tax credit be extended, this additional fee will be discontinued and removed from the invoice.

This fuel excise tax does not include Leaking Underground Storage Tank (LUST) tax. LUST tax applies to motor fuels for both diesel and gasoline invoices. Going forward, LUST Tax will appear as an additional fee at the rate of \$0.001 per gallon and will be shown as a separate line item on your invoice.

CONSUMER AFFAIRS

■ NOTICE

As is required by Local Law 34 of 2011, the Department of Consumer Affairs (DCA) conducted a review of pedicab registration plates. Based on its review, the number of issued plates is fewer than 840, so DCA is requesting applications for pedicab registration plates to fill vacancies up to the legal limit of 850.

Applications for a pedicab registration plate will be accepted beginning immediately and must be received by DCA no later than April 29th, 2016 at 5:00 P.M.

DCA will accept only one application for a registration plate from each applicant. Current licensees who already have been assigned the legal limit of 30 registration plates are ineligible to apply. Upon the close of the application period, DCA will assign each accepted application a priority number based on a computer-generated random number selection program. If the number of accepted applications exceeds the number of available registration plates, DCA will make offers to issue registration plates to applicants in the order of the priority numbers randomly assigned. Once DCA makes an offer to issue a plate, the applicant has 45 calendar days from the date of the offer to demonstrate that the pedicab complies with all registration requirements, including passing Departmental inspection. If the applicant fails to comply fully, the offer of the plate will be void, the applicant will be removed from the pool, and DCA will offer the registration plate to the applicant with the next priority number remaining on the list, if any.

Note: While an applicant for a pedicab registration plate need not have a pedicab business license to apply for that plate, he/she must secure a pedicab business license before the Department can issue a registration plate.

Please visit nyc.gov/consumers for more information and to obtain an application for a pedicab registration plate and a pedicab business license, if needed. Applications for a pedicab business license and a pedicab registration plate may also be obtained by calling 311 or by visiting DCA's Licensing Center in Manhattan at 42 Broadway, Lobby.

TRANSPORTATION

■ NOTICE

The Department of Transportation intends to enter into negotiations with a firm to provide title sponsorship (the "Title Sponsor") for the Summer Streets Program (the "Program"). NYCDOT has conducted sponsorship outreach but was directly approached by the Title Sponsor to provide such funding and activations for the Program. NYCDOT has concluded that it is most advantageous to negotiate with the Title Sponsor due to the fact that there are a limited number of firms willing to commit such resources to the Program. Furthermore, NYCDOT arrived at this conclusion through market outreach, research and a lack of current and past responses. The term of the proposed contract is from one (1) year up to a maximum three (3) years with one (1) two (2) year renewal. If your firm is interested in the title sponsorship of the Program, please contact, Andrew Burdessa at aburdessa@dot.nyc.gov by the Due Date of April 4, 2016 at 3:00 P.M.
