With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

● **Win More Contracts at nyc.gov/competetowin**

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)
- Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator

This Negotiated Acquisition is a response to a court stipulation (Brooklyn Center for Independence of the Disabled v. City of New York) as part of a remedial plan to provide accessible transportation during evacuations. AGENCY RULES

BUILDINGS

■ NOTICE

NOTICE IS HEREBY GIVEN, pursuant to the authority vested in the Commissioner of the Department of Buildings by Section 643 of the New York City Charter and in accordance with Section 1043 of the Charter, that the Department of Buildings hereby adopts the amendments to Section 3606-01 of Subchapter G of Chapter 3600 of Title 1 of the Official Compilation of the Rules of the City of New York, regarding the determination of market value of alteration applications for buildings in special flood hazard areas to increase the threshold for submitting calculations.

This set of rule amendments was first published on May 12, 2015 and a public hearing thereon was held on June 12, 2015. No comments were submitted either prior to or during the hearing.

Dated: 6/22/15 /s/
New York, NY Rick D. Chandler, P.E.
Commissioner

Statement of Basis and Purpose of Rule

Prior to the revisions that have been adopted, this rule set out methods for calculating the market value of a structure to determine if a structure has been or will be substantially damaged or substantially improved as such term is defined in Appendix G of the New York City Building Code. This rule also mandated that when the cost of an alteration exceeds \$40,000, calculations must be submitted to the Department to verify that a building will not be substantially improved as a result of such alteration.

Subdivision (e) of this rule has been amended to clarify that signed-off work is not counted as part of the cost calculation.

Subdivision (g) of this rule has been amended to alter the trigger for which calculations are required to be submitted. The amendment allows the Department to effectively enforce the requirement of Appendix G both for structures of low and high market value. Applying the \$40,000 trigger universally over the entire stock of buildings in New York City is not the most effective use of either the City's or the building owner's resources, as buildings of substantial market value can perform alterations of significant scope without being deemed substantially improved.

For buildings of significant value this rule amendment allows smaller alterations that exceed \$40,000 dollars to proceed without presenting calculations to the Department, which will result in faster plan review and approval without compromising effective enforcement of the Department's regulations.

The Department of Buildings' authority for promulgating this rule and amendments thereto is found in sections 643 and 1043 of the New York City Charter, section 28-104.7.11 of the New York City Administrative Code and section G 201.2 of the New York City Building Code.

New material is underlined.
[Deleted material is in brackets.]

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Paragraph (1) of subdivision (e) of Section 3606-01 of Subchapter G of Chapter 3600 of Title 1 of the Rules of the City of New York is amended to read as follows:

- (e) Calculation of cost. To determine the cost of repairs, reconstructions, rehabilitations, additions or improvements of a building or structure, the applicant shall add together:
 - (1) The costs for the given application, regardless of the time it takes to complete [and sign-off] the work, plus
 - (2) The cost of all other work to be performed during the same period, including work filed under separate application(s) and including any minor alterations and ordinary repairs.

§2. Subdivision (g) of Section 3606-01 of Subchapter G of Chapter 3600 of Title 1 of the Rules of the City of New York is amended to read as follows:

(g) Application for construction document approval. For an alteration [exceeding \$40,000] that is not a substantial improvement with a cost exceeding the greater of (1) \$40,000 or (2) 25% of the market value of the structure as calculated in subdivision (d) of this section, the applicant shall include calculations of the market value of the structure and costs as outlined in this rule, and shall include any relevant backup documentation including either the online printout of the Department of Finance Final Assessment Roll or a copy of the real estate appraisal.

Re: June 30, 2012 (Lag) Actuarial Valuation

Dear Members:

This Report presents the results of the June 30, 2012 (Lag) actuarial valuation of the New York City Police Pension Fund ("POLICE") and Group Life Insurance Plan (the "Plan"). These results form the basis for determining the Statutorily-Required Contribution ("Statutory Contribution") for Fiscal Year 2014 (i.e., for the period beginning July 1, 2013 and ending June 30, 2014).

Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of POLICE are conducted every two years. The independent actuarial auditors, The Segal Company ("Segal") and The Hay Group ("Hay") issued actuarial experience studies dated November 2006 and December 2011, respectively.

After reviewing the results of those studies, the Actuary issued a February 10, 2012 Report entitled "Proposed Changes in Actuarial Assumptions and Methods for Determining Employer Contributions for Fiscal Years Beginning on and After July 1, 2011 for the New York City Police Pension Fund" ("February 2012 Report").

These Proposed Actuarial Assumptions and Methods ("2012 A&M") were adopted by the Board of Trustees during Fiscal Year 2012. The 2012 A&M became effective with enabling State Legislation enacted as Chapter 3 of the Laws of 2013 ("Chapter 3/13"). Actuarial Assumptions and Methods employed prior to the 2012 A&M are referred to as the "2006 A&M".

Results of the June 30, 2011 (Lag) actuarial valuation are shown in this Report for comparative purposes.

Also included in this Report are certain items of information used for financial reporting purposes, for filing with the New York State Department of Financial Services and other historical information that the Actuary believes useful.

The June 30, 2012 (Lag) and June 30, 2011 (Lag) actuarial valuations are based upon census data as of those dates submitted by the Plan's administrative staff and by the employer's payroll facilities and on the June 30, 2012 and June 30, 2011 financial information provided by the Office of the Comptroller. Census data and financial information are reviewed by the Office of the Actuary for consistency and reasonability.

A summary of the benefits available under the terms of the Plan is shown in Section VIII. The benefits valued are unchanged from the prior valuation, except for the enactment of Tier 6. However, as of June 30, 2012, there are no Tier 6 members included in the Plan.

The actuarial assumptions and methods are unchanged from the June 30, 2011 (Lag) valuation to the June 30, 2012 (Lag) valuation and are summarized in Section IX.

The actuarial information herein that is to be used for financial accounting reporting purposes is being presented in a manner believed to be consistent with the requirements of Governmental Accounting Standards Board ("GASB") Statements No. 25 ("GASB25") and No. 27 ("GASB27").

The Table of Contents, which immediately follows, outlines in more detail the contents of this Report.

Note: GASB25 and GASB27 have been amended by GASB Statement No. 67 ("GASB67") and No. 68 ("GASB68"), respectively. It is the understanding of the Actuary that the City of New York will prepare their Fiscal Year 2014 financial statements in accordance with GASB68. POLICE is required to prepare its Fiscal Year 2014 Comprehensive Annual Financial Report ("CAFR") in accordance with GASB67. The Office of the Actuary has not published GASB67 or GASB68 results as of the date of publication of this Report.

I, Robert C. North, Jr., am the Chief Actuary for the New York City Retirement Systems. I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Respectfully Submitted,

The June 30, 2012 (Lag) actuarial valuation results reflect the following Chapter amendments:

- Chapter 489 of the Laws of 2013 ("Chapter 489/13"), addressed limitations in existing disability provisions intended to protect public employees who suffered injuries or illnesses in WTC rescue, recovery and cleanup operations.
- Chapter 3 of the Laws of 2013 ("Chapter 3/13"), effective retroactive to July 1, 2011, enacted those 2012 A&M that require State legislation.
- Chapter 18 of the Laws of 2012 ("Chapter 18/12"), placed certain limitations on the Tier 3 and Tier 4 benefits available to participants hired on and after April 1, 2012 in most New York State Public Employee Retirement Systems, including POLICE, and is generally referred to as Tier VI (Tier 6).
- Tier III (Tier 3) – During June 2009 the Governor vetoed legislation that would have extended Tier II (Tier 2) to members hired after June 30, 2009. As a result of the Governor's veto, POLICE members hired on and after July 1, 2009 are covered under Tier III (Tier 3).
- Chapter 489 of the Laws of 2008 ("Chapter 489/08") expanded and redefined the eligibility provisions of Accidental Disability and Accidental Death benefits that arose in connection with the World Trade Center ("WTC") Attack on September 11, 2001.
- Chapter 445 of the Laws of 2006 ("Chapter 445/06") as amended by Chapter 5 of the Laws of 2007 ("Chapter 5/07") provides Accidental Death benefits to certain members of POLICE who participated in the rescue, recovery or clean-up operations at the WTC site. Collectively, these laws are referred to as the "WTC Death Benefits Law".
- Chapter 93 of the Laws of 2005 ("Chapter 93/05"), which amended Chapter 104 of the Laws of 2005 ("Chapter 104/05"), established that certain members of POLICE, who participated in the rescue, recovery or clean-up operations at the WTC site and who become partially or totally disabled due to certain diseases, are presumed to have become disabled in the performance of duty. Collectively, these laws are referred to as the "WTC Disability Law."
- Chapter 623 of the Laws of 2004 ("Chapter 623/04") provided for an Excess Benefit Plan to be established which would provide benefits to those pensioners whose annual retirement benefits are limited by Internal Revenue Code ("IRC") Section 415(b). This law is retroactive to July 1, 2000.

2. Section II provides details of the demographic data used to prepare the June 30, 2012 (Lag) and June 30, 2011 (Lag) actuarial valuations and includes the following tables:

- Table II-1: Active Members
- Table II-2: Pensioners and Beneficiaries

- Table II-3: Changes in the Number of Members and Pensioners During the Year
- Table II-4: Schedule of Active Member Data
- Table II-5: Schedule of Pensioners and Beneficiaries Added to and Removed from the Rolls

The annualized covered payrolls reflect the impact of recent labor contract settlements and certain non-union salary increases with retroactive effective dates, if any. These figures exclude all members not on the payroll as of the valuation date. In addition, salaries were increased by a Baseline Overtime assumption under the 2012 A&M.

3. Section III provides details of the assets used to prepare the June 30, 2012 (Lag) and June 30, 2011 (Lag) actuarial valuations including the following tables:
 - Table III-1: Statement of Plan Net Assets as of June 30, 2012 and June 30, 2011

Table IV-2 develops the Employer Normal Contributions. Table IV-3 shows the Schedule of Unfunded Actuarial Accrued Liability Bases.
5. Section V presents the Solvency Test. This Schedule is required for the Comprehensive Annual Financial Report ("CAFR") and is a means of checking the Plan's progress under its funding program.
6. Section VI presents the Funded Status of the Plan, which is expressed in various relationships of assets to liabilities.
7. Section VII presents a Schedule of Funding Progress. This schedule is required under Governmental Accounting Standards Board Statement No. 25 ("GASB25") and shows for the current year and for each of the last ten fiscal years, certain amounts determined as of the respective valuation dates and their ratios.
8. Section VIII summarizes the benefit provisions of the Plan and the related Variable Supplements Funds. For the June 30, 2012 (Lag) actuarial valuation, except for Tier 6, the provisions are unchanged from the previous valuation.
9. Section IX summarizes the actuarial assumptions and methods used in the June 30, 2012 (Lag) and June 30, 2011 (Lag) actuarial valuations (i.e., the 2012 A&M), including the use of the Liability Valuation Method to address the obligations of POLICE to the Police Officers' Variable Supplements Fund ("POVSF") and the Police Superior Officers' Variable Supplements Fund ("PSOVSF"). The actuarial assumptions and methods for the June 30, 2012 (Lag) valuation are unchanged from the previous valuation.
10. Section X contains a Statement of Actuarial Opinion acknowledging the qualification of the Actuary to render the actuarial opinion contained herein.

13. Appendix C shows the number and salary of active members, by

Tier, for Fiscal Years 1981 through 2014 in tabular form and graphically.

SECTION III - MARKET VALUES AND ACTUARIAL VALUES OF ASSETS

Information on the Market Value of Assets ("MVA") of the Plan is provided by the Office of the Comptroller.

An Actuarial Asset Valuation Method ("AAVM") is used to determine the Actuarial Asset Value ("AAV") of the Plan, the POVSF and the PSOVSF.

The AAVM in use for actuarial valuations after the June 30, 2011 (Lag) actuarial valuation is unchanged from the AAVM in use for the June 30, 2009 (Lag) actuarial valuation.

In accordance with this AAVM, actual Unexpected Investment Returns ("UIR") for Fiscal Years 2012, 2013, etc. are phased into the Actuarial Asset Value ("AAV") beginning June 30, 2012, 2013, etc. at rates of 15%, 15%, 15%, 15%, 20% and 20% per year (i.e., cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

UIR is defined as the excess/(deficit) of Net Investment Return over/ (under) the Expected Investment Return ("EIR") based on the Actuarial Interest Rate ("AIR") and the AAV.

EIR equals the sum of Beginning-of-Fiscal-Year AAV plus one-half of Net Cash Flow, multiplied by the AIR.

The Actuary reset the Actuarial Asset Value to Market Value (i.e., "Market Value Restart") as of June 30, 2011.

For the June 30, 2010 (Lag) actuarial valuation, the AAV was defined to recognize Fiscal Year 2011 investment performance. The June 30, 2010 AAV was derived as equal to the June 30, 2011 MVA, discounted by the AIR assumption (adjusted for cash flow) to June 30, 2010.

The following Table III-1 compares the Market Value of Assets ("MVA") of the Plan as of June 30, 2012 and June 30, 2011.

Table III-2 sets forth a comparison of the changes in the Market Value of Assets of the Plan for the Fiscal Years ended June 30, 2012 and June 30, 2011.

Table III-3 sets forth the development of the Actuarial Asset Value ("AAV") of the Plan as of June 30, 2012 and as of June 30, 2011.

Table III-4 shows the MVA and the AAV for the Police Officers' Variable Supplements Fund ("POVSF") and the Police Superior Officers' Variable Supplements Fund ("PSOVSF"), respectively, as of June 30, 2012 and June 30, 2011.

The following Table IV-3 shows the Schedule of Unfunded Actuarial Accrued Liability Bases as of June 30, 2012.

The Initial UAAL is being amortized over a closed 22-year period using Increasing Dollar Payments ("IDP"). Under IDP, amortization payments increase by 3.0% per year, consistent with the assumed rate of General Wage Increases.

UAALs established post-June 30, 2010 are generally amortized using Level Dollar Payments ("LDP") as follows:

- Benefit Changes – Over the remaining working lifetimes of those impacted, unless the amortization period is determined by statute.
- Assumption and/or Method Changes – Over a closed 20-year period.
- Actuarial Gains and Losses – Over a closed 15-year period.

Note: Under the One-Year Lag methodology, the number of payments is one less than the number of years in the amortization period (e.g., 14 payments over a closed 15-year amortization period).

Notes to Solvency Test

The ultimate test of financial soundness in a retirement system is its ability to pay all of its promised benefits when due. The retirement system's progress in accumulating assets to pay all promised benefits can be measured by comparing the Actuarial Value of Assets for the retirement system with the Aggregate Accrued Liabilities for:

- a. Accumulated Member Contributions,
- b. Current Pensioners and Beneficiaries, and
- c. Active Members' Employer-Financed Benefits.

The Aggregate Accrued Liabilities are the Actuarial Present Value of projected benefits produced by the projected benefit attribution approach prorated on service. The Aggregate Accrued Liabilities were calculated in accordance with previously issued Governmental Accounting Standards Board Statement No. 5 ("GASB5").

This comparative summary allocates assets as if they were priority groups, somewhat similar to (but not identical with) the priority categories of Section 4044 of the Employee Retirement Income Security Act of 1974.

The values in Table V-1 are dependent upon census data, benefit levels (which have changed on occasion over the past years), and the actuarial assumptions and methods employed at each valuation date. These underlying bases can be found within the Comprehensive Annual Financial Report ("CAFR") for each respective year.

To fully evaluate trends in financial soundness, changes in assumptions need to be evaluated. For the valuation dates shown in the table, the Actuarial Interest Rate and General Wage Increase assumptions were equal to 8.0% per annum, gross of expenses, and 3.0% per annum, respectively, through the June 30, 2009 (Lag) actuarial valuation. Beginning with the June 30, 2010 (Lag) actuarial valuation, the Actuarial Interest Rate assumption equals 7.0% per annum, net of investment expenses, and the General Wage Increase assumption equals 3.0% per annum.

SECTION VI – FUNDED STATUS

The Funded Status of the Plan is usually expressed in various relationships of Assets to Liabilities. Different measures are developed and utilized for different purposes and reporting entities.

This Section presents in Table VI-1 the following measures of Funded Status:

- AAV as a percentage of Total Actuarial Present Value of Benefits ("APVB") based on the actuarial assumptions used in the actuarial valuation.
- AAV as a percentage of Projected Benefit Obligation ("PBO") based on the actuarial assumptions used in the actuarial valuation. This ratio is presented annually in the CAFR.

- AAV as a percentage of Accumulated Benefit Obligation (“ABO”) based on the actuarial assumptions used in the actuarial valuation. This ratio is also presented annually in the CAFR.
- The Market Value of Assets (“MVA”) as a percentage of the Market Value Accumulated Benefit Obligation (“MVABO”). MVABO is calculated under the same actuarial assumptions used in the actuarial valuations except for an investment rate of return assumption which is equal to the yield on U.S. Treasury securities based on durations consistent with those of the expected payments from the Plan.

The ratio of MVA to MVABO provides a measure of funded status that is (1) independent of the asset allocation of the Plan, (2) exclusive of any advance recognition of expected asset risk premia (e.g., equity risk premium) and (3) absent any smoothing of asset values.

This ratio has been presented annually in the POLICE CAFR beginning with the June 30, 2003 CAFR.

Note that all Funded Status measures prior to June 30, 2010 are exclusive of the assets and the liabilities of the Variable Supplements Funds (“VSFs”).

Notes to Schedule of Funding Progress

As of June 30, 1999, the economic and noneconomic assumptions were revised following experience reviews.

AAVM was changed as of June 30, 1999 to reflect a market basis for investments held by the Plan and was made as one component of an overall revision of actuarial assumptions and methods as of June 30, 1999.

Under the AAVM used as of June 30, 1999, any UIR for Fiscal

Years 2000 or later are phased into AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25% and 30% per year (or a cumulative rate of 10%, 25%, 45%, 70% and 100% over a period of five years).

Beginning with the June 30, 2004 (Lag) actuarial valuation the economic and non-economic assumptions were again revised in connection with an experience review. The AAVM was changed to a method which also resets the AAV to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.

Under this revised AAVM, any UIR for Fiscal Years 2000 and later are phased into the AAV beginning the following June 30 at a rate of 15%, 15%, 15%, 15%, 20% and 20% per year (or cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

Effective with the June 30, 2010 (Lag) actuarial valuation, the economic and non-economic assumptions were revised in connection with an experience review.

For the June 30, 2010 (Lag) actuarial valuation, the AAV is defined to recognize Fiscal Year 2011 investment performance. The June 30, 2010 AAV is derived as equal to the June 30, 2011 MVA, discounted by the AIR assumption (adjusted for cash flow) to June 30, 2010.

For the June 30, 2011 (Lag) actuarial valuation, the AAV was reset to the MVA (i.e., "Market Value Restart").

The Actuarial Asset Valuation Method ("AAVM") in use for actuarial valuations after the June 30, 2011 (Lag) actuarial valuation is unchanged from the AAVM in use for the June 30, 2009 (Lag) actuarial valuation.

To effectively assess the funding progress of the Plan, it is necessary to compare the Actuarial Asset Value ("AAV") and the Actuarial Accrued Liability ("AAL") calculated in a manner consistent with the Plan's funding method over a period of time. The AAL is the portion of the APV of pension plan benefits and expenses which is not provided for by future normal costs and future member contributions.

The Unfunded Actuarial Accrued Liability ("UAAL") is the excess of the AAL over the AAV. Under the EAACM, actuarial gains (losses), as they occur, reduce (increase) the UAAL and are explicitly identified and amortized. Increases (decreases) in obligations due to benefit changes, actuarial assumption changes and/or actuarial method changes are also explicitly identified and amortized.

Tier 1: Final Salary ("FS"). The contract rate of base pay and holiday pay on the last day paid plus any overtime, night differential and worked vacation earned in the previous 12 months plus applicable longevity pay.

Note: For members appointed on or after June 17, 1971, the pensionable compensation for the final year of service is limited to 120% of the pensionable compensation for the year immediately preceding the final year (the "Kingston Law").

Tier 2: Final Average Salary ("FAS"). Total pensionable compensation (wages, overtime, night differential, worked vacation, etc.) a member earned during the twelve (12) months preceding the date of retirement not in excess of 120% of the immediate previous twelve months' pensionable compensation.

Note: If greater, FAS will equal the greatest average three consecutive years' pensionable compensation, where each year's salary cannot exceed 120% of the average of the two previous years.

Tier 3: Members Appointed Between July 1, 2009 and March 31, 2012

Final Average Salary (FAS) is the average total pensionable compensation earned by a member during any consecutive three (3) year period based on the month and day of retirement that provides the highest average wages. If the wages earned during any year included in the period exceed the average of the prior two years by more than 10%, the amount in excess of 10% shall be excluded.

Tier 6: Members Appointed on or After April 1, 2012

FAS is the average total pensionable compensation earned by a member during any 5 consecutive years based on the month and day of retirement that provides the highest average wages. If the wages earned during any year included in the period exceed the average of the prior four (4) years by more than 10%, the amount in excess of 10% shall be excluded. Additionally, if the member was on a leave of absence without pay (e.g., suspension) at any time during the five year period, that time, not in excess of 12 months, will be excluded from the calculation and the same period of time immediately preceding the five-year period will be included for the final average salary.

Amount: Starting with benefits for September 2001, the COLA percentage is 50% of the increase in CPI-U based upon the 12 months ending March 31, rounded to the next highest 0.1%. Such percentage shall not be less than 1.0% nor greater than 3.0%. This percentage is applied to the first \$18,000 of the total retirement benefit (including all prior COLA) that is payable if no optional form of benefit is elected.

If a retiree dies and has chosen an optional form of payment which provides for benefits to be continued to the spouse, for life, one half of the COLA amount is paid to such spouse.

N. Escalation

Tier 3 and Tier 6

Service, vesting and disability retirement benefits, as well as survivor benefits, may be subject to annual escalation.

Full Escalation Date: The full escalation date is calculated as follows for different retirement types:

Vested and Service Pensions: The first day of the month following the date on which a member completes or would have completed 25 years of service.

Disability Pensions: The first day of the month following the day on which a disability retiree first becomes eligible for ODR/ADR.

Death Benefits: The first day of the month following the day on which a beneficiary first becomes eligible for a death benefit paid as other than a lump sum.

If a member first begins receiving benefits on the same date as the full escalation date, the Full Escalation will be calculated as a 3.0% increase of current annual pension, or the Cost-of-Living Index increase of current annual pension, whichever is less.

Partial Escalation: Partial escalation is calculated on benefits that commence prior to the member's full escalation date. A member will receive 1/36th of the full escalation rate for each month the benefit starts after the member would have completed 22 years of service.

O. WTC Disability Benefits: Certain active and retired members of the Plan, who participated in the rescue, recovery or clean-up operations at the WTC site and who become partially or totally disabled due to certain diseases, are presumed to have become disabled in the performance of duty.

P. WTC Death Benefits: Certain active and retired members of the Plan, who participated in the rescue, recovery or clean-up operations at the WTC site and who die due to certain diseases, are presumed to have died in the performance of duty.

Q. Variable Supplements Funds ("VSF"):

Eligibility: Service Retirement as a Police Officer or Police Superior Officer with at least 20 years (or 25 years depending on Plan) of allowable service. This benefit is not payable to Disability retirees or Vested retirees.

Benefit: Beginning Calendar Year 2007 (2008 for those who became members on or after July 1, 1988), the annual payment is \$12,000.

Increases in Supplementation or automatic COLA benefits payable from the Plan for retirees under legislation enacted after 1988 for Police Officers and 1993 for Police Superior Officers reduce VSF benefits. Subject to certain other conditions, in certain situations, these reductions in VSF benefits due to Supplementation and COLA cease for benefits payable for Calendar Year 2007 and after.

Form of payment: Life annuity payable annually on or about December 15. Benefit is prorated in year of retirement and in year of death.

Source of Payment: VSF benefits are payable from the Police Officers' Variable Supplements Fund ("POVSF") or the Police Superior Officers' Variable Supplements Fund ("PSOVSF") for eligible Police Officers and Police Superior Officers beneficiaries, respectively.

VSF DROP: Members who retire for service on or after January 1, 2002 with 20 years or more (or 25 years depending on Plan) of allowable service are entitled to a lump sum in the first year following retirement equal to the VSF benefits that would have been paid with respect to Calendar Year 2002 and later had the member retired upon completion of 20 years (or 25 years depending on Plan) of allowable service. This is referred to as the "VSF DROP."

Salaries are increased by Baseline Overtime assumptions of 15% for members with less than 23 years of service, grading to 6% at 31 years of service and by Dual Overtime assumptions that differ by Tier and retirement cause (i.e., Service or Disability).

9. **Marital Assumption:** All active members are assumed to be married and females are assumed to be three years younger than their male spouses.
10. **Credited Service:** Calculated in whole year increments for valuation purposes.
11. **Loans:** Except for Death Benefits, it is assumed that members take the maximum allowable loan at retirement.
12. **Actuarial Interest Rate:** 7.0% per annum, net of investment expenses.
13. **COLA:** 1.5% per year for Tier I and Tier II, 2.5% per year for Tier III and Tier VI, based on an assumed long-term Consumer Price Inflation rate of 2.5% per year.
14. **VSF Membership:** It is assumed that 50% of active members who retire for Service will be Police Superior Officers.
15. **Actuarial Asset Valuation Method:** The Actuarial Asset Valuation Method ("AAVM") in use for actuarial valuations after the June 30, 2011 (Lag) actuarial valuation is unchanged from the AAVM in use for the June 30, 2009 (Lag) actuarial valuation.
- In accordance with this AAVM, actual Unexpected Investment Returns ("UIR") for Fiscal Years 2012, 2013, etc. are phased into the Actuarial Asset Value ("AAV") beginning June 30, 2012, 2013, etc. at rates of 15%, 15%, 15%, 15%, 20% and 20% per year (i.e., cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).
- UIR is defined as the excess/(deficit) of Net Investment Return over/(under) the Expected Investment Return ("EIR") based on the AIR and the AAV.
- EIR equals the sum of Beginning-of-Fiscal-Year AAV plus one-half of Net Cash Flow, multiplied by the Actuarial Interest Rate.
- The Actuary reset the Actuarial Asset Value to Market Value (i.e., "Market Value Restart") as of June 30, 2011.
- For the June 30, 2010 (Lag) actuarial valuation, the AAV is defined to recognize Fiscal Year 2011 investment performance. The June 30, 2010 AAV is derived as equal to the June 30, 2011 MVA, discounted by the AIR assumption (adjusted for cash flow) to June 30, 2010.
16. **Actuarial Cost Method:** Beginning with the June 30, 2010 (Lag) actuarial valuation, the Entry Age ("EA") Actuarial Cost Method ("ACM") ("EAACM") of funding is utilized by the Plan's Actuary to calculate the contribution required of the employer under the 2012 A&M.

Under this method, the Actuarial Present Value ("APV") of Benefits ("APVB") of each individual included in the actuarial valuation is allocated on a level basis over the earnings (or service) of the individual between entry age and assumed exit age(s). The employer portion of this APV allocated to a valuation

year is the Normal Cost. The portion of this APV not provided for at a valuation date by the APV of Future Normal Costs or future member contributions is the Actuarial Accrued Liability ("AAL").

The excess, if any, of the AAL over the Actuarial Asset Value ("AAV") is the Unfunded Actuarial Accrued Liability ("UAAL").

Under this method, actuarial gains (losses), as they occur, reduce (increase) the UAAL and are explicitly identified and amortized.

Increases (decreases) in obligations due to benefit changes, actuarial assumption changes and/or actuarial method changes are also explicitly identified and amortized.

Under the EAACM, the explicit UAALs that are developed each year are generally financed over fixed periods. Ideally, these periods are reasonably consistent with the expected future working lifetimes of all active participants of the Plan.

The Initial UAAL is being amortized over a closed 22-year period beginning June 30, 2010 using Increasing Dollar Payments ("IDP"). Under IDP, amortization payments increase by 3.0% per year, consistent with the assumed rate of General Wage Increases.

The 2011 UAAL and 2012 UAAL are being amortized over a closed 15-year period.

Note: Under One-Year Lag methodology, the number of payments is one less than the number of years in the amortization period.

Under the EAACM, the Employer Normal Contribution Rate ("ENCR") remains constant by individual and changes gradually over time for the entire Plan as the characteristics of the group changes (e.g., more Tier 6 active members decrease the average ENCR).

The obligations of POLICE to the Police Officers' Variable Supplements Fund ("POVSF") and the Police Superior Officers' Variable Supplements Fund ("PSOVSF") are recognized through the Liability Valuation Method.

Under this methodology the APV of Future VSF Transfers from POLICE to the POVSF and PSOVSF is included directly as an actuarial liability of POLICE. This amount is computed as the excess, if any, of the APV of benefits of the POVSF and PSOVSF over the AAV of the POVSF and PSOVSF, respectively. Under the EAACM, a portion of the APV of Future VSF Transfers is reflected in the APV of Future Normal Costs and a portion is reflected in the UAAL.

17. **Lump Sum Death Benefits:** Liabilities for group life lump sum death benefits are calculated under the One-Year Term Cost method.
18. **Allowances for Administrative Expenses:** The Employer Contribution for a fiscal year is increased by the interest-adjusted amount of administrative expenses paid from the Fund during the second prior fiscal year.
19. **WTC Disability and Death Benefits:** To properly value the benefit provisions of the WTC Disability Law and the WTC Death Benefits Law, it is necessary to collect data on affected members to first identify eligible members and then to track their experience.
For actuarial valuations prior to June 30, 2010, WTC Disability Law liabilities were estimated as described in Fiscal Note 2005-06, dated June 3, 2005. WTC Death Benefits Law liabilities were estimated as described in Fiscal Note 2008-09, dated June 18, 2008.
For actuarial valuations beginning June 30, 2010, reflecting the 2012 A&M, obligations attributable to the WTC Disability Law and to the WTC Death Benefits Law are determined through the use of explicit assumptions in the 2012 A&M and through estimation techniques for post-retirement reclassifications.
20. **One-Year Lag Methodology:** One-Year Lag methodology uses a June 30, XX-2 valuation date to determine Fiscal Year XX employer contributions.

This methodology requires technical adjustments to certain components used to determine Fiscal Year XX employer contributions as follows:

- Present Value of Future Salary ("PVFS")
The PVFS at June 30, XX-2 is reduced by the value of salary projected to be paid during Fiscal Year XX-1.

- Salary for Determining Employer Normal Contributions
Salary used to determine the employer Normal Contribution is the salary projected to be paid during Fiscal Year XX to members on payroll at June 30, XX-2.
- UAAL Payments
For determining the UAAL payments for Fiscal Year XX, and to be consistent with the OYLM, the UAAL as of June 30, XX-2 is adjusted by the discounted value of employer normal contributions paid during Fiscal Year XX-1 and the discounted value of Administrative Expenses reimbursed during Fiscal Years XX-1 and XX.
