The Applicant, the New York Blood Center, is requesting a rezoning and other discretionary actions (the Proposed Actions) from the City Planning Commission (CPC) to facilitate the construction of the Proposed Project, an approximately 596,200 gross-square-foot (gsf) state-of-the-art laboratory building with related offices on the site of the Applicant's existing building at 310 East 67th Street, Block 1441 Lot 40 (the "Development Site"). The Development Site is located on the Upper East Side in Manhattan Community District 8. Block 1441 is bounded by East 66th and East 67th Streets and First and Second Avenues. The Development Site is part of a larger Rezoning Area, which also includes Block 1441, Lots 1001–1202, and Block 1421, p/o Lot 21.

The existing NYBC building on the Development Site would be demolished and replaced with a new building of approximately 596,200 gsf, split between 206,400 gsf of Use Group (UG)-4 community facility uses for the Applicant and 389,800 gsf of commercial laboratories and related uses for the Applicant's partners. The building would have 16 floors and rise to a height of approximately 334 feet to the top of the screen wall.

The design of the Proposed Project comprises a four-story base covering the entire lot and above that would be a laboratory tower providing floor plates of a minimum of 29,000 gsf with 16-foot floor-to-floor heights required to accommodate the robust mechanical systems needed in laboratory buildings. These building dimensions were established based on rigorous laboratory planning dimensions. Three curb cuts are proposed on East 66th Street to accommodate service access, including loading, waste removal, and the Applicant's fleet parking.

To facilitate the Proposed Project the Applicant is requesting several actions from the New York CPC: a zoning map amendment in order to rezone the Development Site from R8B to C2-7; designation of the Development Site for Mandatory Inclusionary Housing (MIH); and to rezone the remainder of the Rezoning Area (Block 1441, Lots 1001–1202 and the eastern 100 feet of Block 1421, p/o Lot 21) from C1-9 to C2-8. The Applicant is also requesting a zoning text amendment to Section 74-48 of the Zoning Resolution; and a special permit pursuant to the amended Section 74-48 to modify various sections of the Zoning Resolution, as detailed below. In addition, the Applicant may seek a revocable consent from the New York City Department of Transportation (DOT) to allow a Marquee projection over the building's entrance in accordance with the NYC Building Code.

In order to assess the possible effects of the Proposed Actions, a RWCDS was developed to compare the Future without the Proposed Actions (the No Action condition) and the Future with the Proposed Actions (the With Action condition) by the 2026 build year. The incremental difference between the future No Action condition and future With Action condition serves as the basis for identifying potential environmental impacts, as described below.

Absent the Proposed Actions, the Applicant would construct a new building as-of-right containing laboratory space (including a BSL-3 laboratory space and certified clean room facility space for NYBC) as well as other UG-4 community facility uses. The new building would be an approximately 229,092-gsf split between 40,161 gsf of medical offices and 188,931 gsf of space for the Applicant's operations. The cellar level of the structure would occupy the entire Development Site and six-story-wings would rise on both street frontages to a maximum base height of approximately 60 feet, a maximum roof height of approximately 75 feet. Six interior parking spaces would be provided for the Applicant's vehicle fleet. No development is anticipated in the remainder of the Rezoning Area.

Although there would be a small increase in floor area attributed to the Applicant's uses (less than 17,500 gsf) with the Proposed Project as compared with the No Action condition, the additional area is not expected to generate additional trips since the additional area allows the Applicant's facilities to be optimized and right-sized. According to the Applicant, their operations, visitation, and employment would not change between No Action building and the Proposed Project. The Applicant would have the same number of daily visitors for blood donations, the same private vehicle fleet size and operations for transporting blood samples and other related materials, the same daily incoming deliveries for supplies and outgoing waste, and would have the same number of employees (approximately 580) under the No Action and With Action conditions. Pedestrians and vehicles would approach and depart NYBC using the same travel patterns and use entrances on the same block faces under either condition.

Therefore, for the purposes of the environmental review, the net difference between the No Action and With Action conditions is the approximately 389,800 gsf of commercial research laboratory floor area in the With Action condition as compared with approximately 40,100 gsf of medical offices in the No Action condition.

The Proposed Actions would result in significant adverse impacts related to shadows and construction (noise). Mitigation measures being proposed to address those impacts, where feasible and/or practical, are discussed below. Between publication of this DEIS and the Final EIS, DCP will continue to explore measures that could reduce or mitigate the impacts in these areas. If no possible mitigation can be identified, an unavoidable significant adverse impact would result.

Shadows - The Proposed Project would result in a significant adverse shadow impact to St. Catherine's Park. An alternative to reduce the shadow impact has been considered in Chapter 17, "Alternatives," of the EIS. While the Applicant has stated that, at this time, there is no massing alternative to remove the impact and be financially feasible, potential mitigation measures are being explored by NYBC in consultation with DCP and NYC Parks. These measures may include replacing vegetation and additional maintenance of the Park features.

Construction (noise) - The Proposed Project would also result in significant adverse impacts related to construction noise. Mitigation measures have been identified to address the significant adverse impacts where feasible and practicable. Partial mitigation is proposed for some of the significant adverse impacts of the Proposed Project. Significant adverse impacts that cannot be fully mitigated through reasonably practicable measures are also identified. Construction of the Proposed Project would be required to follow the New York City Noise Control Code for construction noise control measures.

Additionally, as mitigation for the predicted impacts, the Applicant would incorporate measures to control construction noise that go beyond those required by Code. Specific noise control measures would be incorporated in noise mitigation plan(s) required under the New York City Noise Code, including a variety of source and path controls.

The Proposed Project would, where feasible, practicable, and effective to control construction noise, incorporate site-perimeter noise barriers during concrete operations least 12 feet tall with a cantilever towards the work area as described in the noise barrier performance requirements set forth in the DEP's "Rules for Citywide Construction Noise Mitigation."

Mitigation measures to control noise at the receptors predicted to experience impacts would be offered during construction of the Proposed Project. At building façades that are predicted to experience impact, the Applicant would offer to make available at no cost for purchase and installation storm windows for façades that do not already have insulated glass windows and/or one window air conditioner per living room and bedroom at residences that do not already have alternative means of ventilation. The mitigation measures would be implemented prior to the start of construction. Building façades with insulated glass windows or storm windows and alternative ventilation would provide sound attenuation; however, the most noise-intensive construction activity nearest the receptors experiencing significant adverse impacts would result in interior noise levels considered unacceptable according to CEQR Technical Manual noise exposure guidelines. Consequently, significant adverse noise impacts predicted to occur at the above-mentioned receptors would be only partially mitigated.

The DEIS considers two alternatives – a No-Action alternative and a No Significant Adverse Shadow Impact Alternative. The No Action Alternative is the Future without the Proposed Actions, as previously described, and as analyzed in this DEIS. The No Significant Adverse Shadow Impact Alternative would be approximately half the height of the Proposed Project. It would reduce—but not completely remove—the shadow impact.

Franklin Ave. Acquisition LLC ("the Applicant") is requesting several discretionary actions that would facilitate the development of two mixed-use buildings comprising approximately 1,369,314 gross square feet (gsf) (1,151,671 zsf) mixed-use commercial/residential development on the block bound by Montgomery Street, Franklin Avenue, Sullivan Place, and Washington Avenue, on the eastern side of the Franklin Avenue subway shuttle right-of-way, in the Crown Heights neighborhood of Brooklyn Community District (CD) 9. The site is comprised of Brooklyn Block 1192, Lots 41 (130 Montgomery Street), 46, 63 (124 Montgomery Street), and 66 (972 Franklin Avenue) (the "Development Site"), while the Proposed Rezoning Area also includes Lot 40 (122A Montgomery Street) and parts of Lot 1 (a portion of the MTA's Franklin Avenue subway shuttle right-of-way), Lot 77 (1015 Washington Avenue) and Lot 85 (1035 Washington Avenue) ("the Project Area").

The Proposed Actions, consisting of zoning map and text amendments, as well as a Large Scale General Development (LSGD) special permit, and special permit to waive parking are being requested as outlined below.

1. Zoning map amendment, which would rezone the Project Area from R6A to R9D and R9D/C2-4 (within 100 feet of Franklin Avenue).
2. Zoning text amendment to the Zoning Resolution (ZR) to designate the Project Area as a Mandatory Inclusionary Housing (MIH) area would require the construction of permanently affordable residential units on the Project Site.
3. Special Permit pursuant to ZR section 74-74, "Large-Scale General Development" would seek to modify location of buildings on the Development Site without regard to applicable height and setback regulations, the distance between buildings, and yard regulations. The LSGD special permit seeks to waive certain tower coverage requirements in R9D districts per the ZR.
4. Special Permit pursuant to ZR section 74-533, "Reduction of Parking Spaces to Facilitate Affordable Housing," to waive the parking requirements per ZR section 25-23, "Requirements Where Group Parking Facilities Are Provided." Per the site's proposed zoning, parking would be required for 40 percent of the non-income restricted units, with approximately 442 required parking spaces. Parking spaces for approximately 16 percent of all market-rate DUs are proposed. As such, approximately 314 parking spaces would be waived by the requested special permit.

The project approvals would also require recordation of a Restrictive Declaration (RD), Public Access Agreement (PAA) and (E) Designation. Although not known at this time, the Proposed Development may also involve the use of public financing for the development of permanently affordable housing from the New York City Department of Housing Preservation and Development (HPD), the New York State Housing Finance Agency (HFA), or other governmental or private sources.

The Proposed Actions would facilitate the development of the 120,209 sf (approximately 2.76-acre) Development Site with an approximately 1,369,314 gsf (1,151,671 zsf) mixed-use development (the "Proposed Development"). The Applicant anticipates that the Proposed Development would comprise 1,263,039 gsf of residential uses,

introducing a total of 1,578 dwelling units, including either 25 percent of the total units set aside pursuant to Option 1 of the City's MIH program (395 units of affordable housing with an average 60 percent AMI) or 30 percent of the total units set aside pursuant to Option 2 of the City's MIH program (473 units of affordable housing with an average of 80 percent AMI). In addition to the proposed residential component, approximately 21,183 gsf of local retail space and approximately 9,678 gsf of community facility space would be provided. Parking spaces for approximately 16 percent of market-rate DUs would be allocated in two separate parking garages on the ground- and cellar-levels of the Proposed Development. The accessory parking garages would be accessed via a curb cut on Franklin Avenue, and a curb cut located on Montgomery Street. Additionally, secondary access into the parking garages would be provided via the proposed internal roadway, which would have a driveway located between the two proposed buildings.

It is expected that the Proposed Development would be constructed over an approximately four-year period following project approval, with completion and occupancy expected to occur in 2024.

The DEIS assesses whether development resulting from the Proposed Actions could result in significant adverse environmental impacts. The DEIS identifies potential significant adverse impacts related to community facilities (child care), open space (direct shadow effects), shadows (on sunlight-sensitive open space), natural resources (direct shadows effects), transportation (traffic and pedestrian), and construction (transportation and noise). Mitigation measures, where feasible and/or practical, are identified in the DEIS. Between publication of this DEIS and the Final EIS, DCP will continue to explore measures that could reduce or mitigate the impacts in these areas. If no possible mitigation can be identified, an unavoidable significant adverse impact would result.

The DEIS considers two alternatives: the No Action Alternative and the No Unmitigated Impact Alternative. The No-Action Alternative examines future conditions within the Project Area, but assumes the absence of the Proposed Actions (i.e., none of the discretionary approvals proposed as part of the Proposed Actions would be adopted). The No-Action Alternative would avoid significant adverse impacts particularly related to transportation and construction, but would not meet the goals and objectives of the Proposed Development. The No Unmitigated Impacts Alternative examines a scenario in which the density and other components of the Proposed Development are changed specifically to avoid the unmitigated significant adverse impacts associated with the Proposed Development. Overall, in order to eliminate all unmitigated significant adverse impacts, the Proposed Development would have to be modified to a point where the principal goals and objectives would not be realized.

In addition, no curb cut shall be permitted within 40 feet of a #waterfront public access area#.

Curb cuts prohibited by this Section may be authorized by the City Planning Commission provided the Commission finds that a curb cut at such a location:

- (a) is not hazardous to traffic safety;
- (b) will not create or contribute to serious traffic congestion, or unduly inhibit vehicular movement;
- (c) will not adversely affect pedestrian movement;
- (d) will not interfere with the efficient functioning of bus lanes, specially designated streets or public transit facilities; and
- (e) will not be inconsistent with the character of the existing streetscape.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

139-40 DISTRICT PLAN ELEMENTS

In all Subdistricts, the provisions of this Section shall apply to all #zoning lots#, as specified below.

139-41 Ground Floor Level Requirements

For the purposes of applying the special #ground floor level# streetscape provisions set forth in Section 37-30 to this Chapter, the portion of a #ground floor level street# frontage considered a #primary street frontage# shall be as shown on Map 3 (Ground Floor Use Requirements) in Appendix A of this Chapter. A #ground floor level street# frontage along any other #street# shall be considered a #secondary street frontage#.

The provisions of this Section shall apply to #developments# or #ground floor level enlargements#.

- (a) Along #primary street frontages#
- (1) Type 1 #primary street frontages#

For #buildings#, or portions thereof, with Type 1 #primary street frontage#, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to #Gowanus retail and entertainment uses#, except for Type 1 lobbies and entrances and exits to #accessory# parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). Group parking facilities located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). #Ground floor level street walls# shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements).

- (2) Type 2 #primary street frontages#

For #buildings#, or portions thereof, with Type 2 #primary street frontage#, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32, shall be limited to non-#residential uses#, except for Type 1 lobbies and entrances and exits to #accessory# parking spaces provided in accordance with the applicable provisions of Section 37-33. Group parking facilities located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35. #Ground floor level street walls# shall be glazed in accordance with the provisions set forth in Section 37-34.

- (b) Along #secondary street frontages#

For #buildings#, or portions thereof, with #secondary street frontage#, all #uses# permitted by the underlying district shall be permitted on the #ground floor level#, provided that any off-street parking spaces on the #ground floor level# shall be wrapped or screened in accordance with Section 37-35. Entrances and exits to accessory parking facilities shall be subject to the provisions of paragraph (b) of Section 37-33.

- (c) For blank walls

In all districts, any #street wall# width exceeding 50 feet with no transparent elements on the #ground floor level# shall provide visual mitigation elements in accordance with the provisions of Section 37-36 (Special Requirements for Blank Walls).

139-42 Street Tree Requirements

In all districts, all #developments#, or #enlargements# that increase the #floor area# on a #zoning lot# by 20 percent or more, shall provide #street# trees in accordance with Section 26-41 (Street Tree Planting).

In addition, for #zoning lots# with over 100 feet of street frontage, wherever two required #street# tree pits will be separated by less than 25 feet, such tree pits shall be combined and designed as a single continuous tree pit.

139-43

Sidewalk Widening Requirements

For #developments# along the portions of #streets# designated on Map 4 (Sidewalk Widening Lines) in Appendix A of this Chapter, a sidewalk widening shall be required, providing a total sidewalk width of:

- (a) 17 feet along Third Avenue;
- (b) 15 feet along Nevins Street; and
- (c) 13 feet along Fifth Street.

The total sidewalk width shall be measured perpendicular from the #street line#. Such sidewalk shall be improved to Department of

Transportation standards and shall be provided at the same level as the adjoining public sidewalk and be accessible to the public at all times.

Awnings and canopies shall be considered permitted obstructions within a sidewalk widening provided that no structural posts or supports may be located within any portion of the sidewalk or such widening.

139-44 Bridge Connection Requirements

For all #zoning lots# abutting bridge structures supporting #streets# which cross the Gowanus Canal at Union Street, Carroll Street, and Third Street, and are subject to #waterfront public access area# requirements, such #waterfront public access area# shall be designed to provide pedestrian connection to the #street# adjacent to the terminus of the bridge structure.

The requirements of this Section may be waived where the New York City Department of Transportation determines that such a pedestrian connection to the #street# would result in a hazard to traffic safety.

139-45 Waterfront Public Access Area Requirements

For all #waterfront zoning lots#, the exemptions from #waterfront public access area# requirements listed in paragraph (a) of Section 62-52 shall not apply.

- (a) Reduced requirement for certain manufacturing uses

For #zoning lots# with #developments#, #enlargements#, or #conversions# comprised of #predominantly# Use Group 18 #uses#, as listed in Section 42-15, the reduced design requirements of Section 62-58 (Requirements for Water-Dependent Uses and Other Developments) shall apply to #waterfront public access areas#.

- (b) Authorization for incompatible uses

For #zoning lots# comprised #predominantly# of Use Group 16, 17, or 18 #uses#, the City Planning Commission may authorize the waiver of #waterfront public access area# requirements, provided the Commission finds that:

- (1) such #uses# produce objectionable effects on its surroundings such that the #uses# are incompatible with a waterfront public access requirement; or
- (2) such #uses# have demonstrable operational requirements which would be incompatible with waterfront public access requirements; and
- (3) such waiver is the least necessary to accommodate the proposed #uses#.

Such waivers shall be in effect for as long as the proposed #use# remains on the #zoning lot#. Upon #development# of the #zoning lot# following cessation of the #use# for a period of more than two years, full compliance with #waterfront public access area# requirements, as may be modified by future approvals, is required.

139-46 Transit Improvements

[Note: the provisions of Section 139-461 will be removed upon adoption of similar provisions in Elevate Transit – Zoning for Accessibility.]

139-461 Certification for transit easements

For all #developments#, or #enlargements# involving ground floor level construction, on a #zoning lot# with a #lot area# of 5,000 square feet or greater and wholly or partially located within 50 feet of a subway station, a transit easement volume may be needed on such #zoning lot# for public access between the #street# and the adjacent above- or below-grade subway station, pursuant to paragraph (a) of this Section.

- (a) Transit easement volume certification

Prior to filing any application with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit for a #development# or #enlargement#, the owner of the #zoning lot# shall file an application with the Metropolitan Transportation Authority (MTA) and the Chairperson of the City Planning Commission requesting a certification as to whether or not a transit easement volume is needed on the #zoning lot#.

Within 60 days of receipt of such application, the MTA and the Chairperson shall jointly certify whether or not a transit easement volume is needed on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the MTA and the Chairperson indicate that a transit easement volume is needed, the MTA shall, in consultation with

the owner of the #zoning lot# and the Chairperson, determine the location and appropriate type of transit easement and reasonable dimensions for such transit easement volume, as well as the mechanism for and the terms of the eventual conveyance.

The owner shall submit a site plan showing a proposed location of such transit easement volume that would provide access between the #street# and the adjacent subway station and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the MTA and the Chairperson. The MTA and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the transit easement volume is being finalized. Upon joint approval of a site plan by the MTA and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Department of Buildings.

Legally enforceable instruments, running with the land, creating a transit easement volume, and setting forth the obligations of either the MTA or the owner and developer, their successors and assigns, to design and construct the improvement, as well as other basic terms of the easement shall be executed and recorded in a form acceptable to the MTA and the Chairperson. The execution and recording of such instruments shall be a precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such #development# or #enlargement#.

(b) Construction and maintenance

Where a transit easement volume is needed pursuant to this Section, transit access improvements within such volume shall be constructed and maintained either by the MTA or the owner of the #zoning lot# with the #development# or #enlargement#.

- (1) Where such mass transit improvement is constructed and maintained by the owner of the #development# or #enlargement#
 - (i) a transit access improvement shall be provided in accordance with standards set forth by the MTA;
 - (ii) such improvement shall be accessible to the public at all times, except as otherwise approved by the MTA;
 - (iii) such improvement shall include #signs# to announce accessibility to the public. Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section 32-642 (Non-illuminated signs); and
 - (iv) no temporary certificate of occupancy shall be granted by the Department of Buildings for the #building# until the Chairperson of the City Planning Commission, acting in consultation with the MTA, has certified that the improvement is substantially complete and usable by the public.
- (2) Where such mass transit improvement is constructed and maintained by the MTA:
 - (i) Where the construction of the improvement is not contemporaneous with the construction of the #development# or #enlargement#, any underground walls constructed along the #front lot line# adjacent to a below-grade subway station shall include a knockout panel, not less than 12 feet wide, below #curb level# down to the bottom of the easement. The actual location and size of such knockout panel shall be determined through consultation with the MTA.
 - (ii) Temporary construction access shall be granted to the MTA on portions of the #zoning lot# outside of the transit easement volume, as necessary, to enable construction within and connection to the transit easement volume.
 - (iii) In the event that the MTA has approved of obstructions associated with the #development# or #enlargement# within the transit easement volume, such as building columns or footings, such construction and maintenance shall exclude any such obstructions within the transit easement volume.

(c) Additional modifications

Where a transit easement volume is needed pursuant to paragraph (a) of this Section, the Chairperson of the City Planning Commission shall certify the following modifications in conjunction with such transit easement volume certification:

- (1) the edge of the transit easement volume facing the #street# shall be considered a #street wall# for the purposes of applying the #street wall# location provisions set forth in

Section 139-23 (Special Height and Setback Regulations), inclusive, irrespective of whether such volume is incorporated into a #building#;

- (2) for #zoning lots# adjacent to a below-grade subway station, the maximum height for the #building# set forth in Section 139-23, inclusive, shall be increased by 10 feet;
 - (3) the floor space contained within any transit easement volume needed pursuant to this Section shall be excluded from the definition of #floor area#; and
 - (4) the street frontage of such transit easement volume shall be excluded for the purpose of applying the provisions of Section 139-41 (Ground Floor Level Requirements).
- (d) Temporary use

Any easement volume needed on a #zoning lot# pursuant to paragraph (a) of this Section may be temporarily used for any permitted #commercial# or #community facility uses# until such time as needed by the MTA for transit access improvements. The floor space allocated to such temporary #uses# within the transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating #accessory# off-street parking, bicycle parking, or loading berths.

Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #building# or portion of the #zoning lot# within which the easement volume is located prior to the time at which public #use# of the easement area is needed, except as otherwise specified by the MTA. A minimum notice of six months shall be given, in writing, by the MTA to the owner of the #building# or portion of the #zoning lot# to vacate the easement volume.

(e) Termination of an easement volume

In the event that the MTA and the City Planning Commission jointly notify the Department of Buildings and the owner in writing that a transit easement volume is not needed on a #zoning lot# in its final construction plans, the restrictions imposed on such #zoning lot# by the provisions of this Section shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the MTA to the extinguishment of the easement volume.

On any #zoning lot# which has been #developed# or #enlarged# in accordance with the provisions of this Section and on which termination of transit easement has been certified, pursuant to this paragraph, any floor space in a previously needed transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating requirements for #accessory# off-street parking, bicycle parking or loading berths. However, where such previously needed volume is located within a #building#, the ground floor space shall be subject to the provisions of Section 139-41 (Ground Floor Level Requirements).

139-462

Certification for transit improvements

In #Commercial Districts# with a residential equivalent of an R9 District, for #developments# on #zoning lots# that are located within 500 feet of the Union Street subway station, the Chairperson of the City Planning Commission may, by certification to the Commissioner of Buildings, allow a #development# to:

- (1) receive a #floor area# bonus not to exceed 20 percent of the maximum #floor area ratio# permitted by Section 139-211 (Basic floor area regulations); and
- (2) further modify additional height permitted pursuant to paragraph (c)(2) of Section 139-461, provided the total combined modification does not exceed 30 feet;

where a major improvement to the Union Street subway station consisting of one new off-street station entrance with an accessible route for persons with physical disabilities between two levels servicing the southbound platform is provided.

Prior to issuing such a certification, the Chairperson shall be provided with a letter and legal instrument as set forth in paragraph (e) of Section 139-463. The #development# shall also be subject to the recordation and completion procedures set forth in paragraph (f) of Section 139-463.

[Note: the provisions of Section 139-463 will be removed upon adoption of similar provisions in Elevate Transit – Zoning for Accessibility.]

139-463

Authorization for transit improvements

In #Commercial Districts# with a residential equivalent of an R9 District, for all #developments# or #enlargements# on a #zoning lot# that is wholly or partially located within 500 feet of a subway station, the City Planning Commission may authorize a #floor area# bonus not to exceed 20 percent of the basic maximum floor area ratio permitted by Section 139-21 (Floor Area Regulations), and may modify the maximum #building height# permitted by Section 139-23 (Special Height and Setback Regulations), provided the modification does not exceed 30 feet, and street wall location requirements of Section 139-23 (Special Height and Setback Regulations) and the street wall continuity provisions of Section 139-41 (Ground Floor Level Requirements) where major improvements to adjacent subway stations are provided in accordance with the provisions of this Section.

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority (MTA), and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of MTA.

(a) Pre-application requirements

Prior to submitting an application for an authorization pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the MTA and the Chairperson of the City Planning Commission.

(b) Requirements for application

An application for an authorization pursuant to this Section shall include a letter from MTA to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding MTA's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the City Planning Commission to:

- (1) evaluate the benefits to the City;
- (2) determine the appropriate amount of bonus #floor area#; and
- (3) where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c) Conditions

- (1) The additional #floor area# authorized shall not exceed 20 percent of the basic maximum #floor area ratio# established in Row G of the table in Section 139-211 (Basic floor area regulations).
- (2) The amount of modification to the maximum #building height# established in Section 139-23 (Special Height and Setback Regulations) shall not exceed 20 percent of the maximum #building height#.

(d) Findings

- (1) In determining the amount of #floor area# bonus, the City Planning Commission shall consider the degree to which:
 - (i) the general accessibility and security of the subway station will be improved by the provision of new connections, additions to or reconfigurations of circulation space, including provision of escalators or elevators; and
 - (ii) significant improvements to the station's environment by increasing direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level entryway into the #development# or #enlargement# will occur.
- (2) In determining #bulk# modifications, the City Planning Commission shall find that such modifications would not unduly obstruct the light and air of neighboring properties.
- (3) In determining modifications to ground floor level requirements, the City Planning Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.
- (4) In determining modifications to #street wall# provisions, the Commission shall find that the modification will permit the proposed design to provide for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(e) Procedural requirements

Prior to the granting of an authorization, the City Planning Commission shall be provided with the following:

- (1) a letter from MTA stating that the drawings and other documents submitted by the applicant have been determined by MTA to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasible; and
- (2) a legally enforceable instrument, acceptable of the Department of City Planning, running with the land and signed by the applicant and all parties in interest, other than parties in interest who have waived and subordinated their interests, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide capital maintenance for the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f) Recordation and completion procedures

Any instrument creating a transit easement on the #zoning lot# pursuant to paragraph (e)(2) of Section 139-462 shall be recorded against the #zoning lot# receiving the #floor area# bonus in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and MTA. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until MTA has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the public.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by MTA.

The Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

139-47

Authorization for sites containing schools

For #zoning lots# containing #schools# regulated by the provisions of Section 139-214 (Special provisions for zoning lots containing schools), the City Planning Commission may authorize the modification of any #bulk# regulation, including the amount of floor space exempted from the definition of #floor area# by Section 139-214, in order to better accommodate a #school# upon such #zoning lot#.

(a) Conditions

- (1) No modification to the maximum #building# height shall exceed 30 feet; and
- (2) No modification to the amount of floor space exempted from the definition of #floor area# shall exceed an additional 60,000 square feet of floor space.

(b) Findings

In determining such modifications, the Commission shall find:

- (1) such modification is the least modification required to achieve the purpose for which it is granted;
- (2) the proposed modification does not impair the essential character of the surrounding area; and
- (3) the proposed modification will not have adverse effects upon light, air, and privacy of adjacent properties and of any existing #buildings# on the #zoning lot#.

Applications for authorizations shall be referred to the affected Community Board for a period of at least 30 days for comment. The Commission shall grant in whole or in part or deny the application within 60 days of the completion of the Community Board review period.

139-48

Authorization for Large Mixed-use Sites

In Subdistrict B, for #developments# on #zoning lots# located in a #Mixed-Use District#, on a #zoning lot# greater than 40,000 square feet in #lot area#, the City Planning Commission may authorize the modification of the regulations set forth in paragraph (a) of this Section to facilitate a #development# that will result in a mix of #predominantly# non-#residential uses# on the #zoning lot#, provided that the findings set forth in paragraph (b) of this Section are met.

(a) Modifications

The Commission may modify the following regulations:

- (1) the #use# regulations of this Chapter, limited to ground floor #use# regulations and supplemental #use# regulations;
 - (2) the #bulk# regulations of this Chapter, except #floor area ratio# regulations, provided that any modifications to height and setback regulations do not exceed the heights permitted in an M1-4 District as set forth in Section 43-43; and
 - (3) the parking regulations related to the number of required #accessory# off-street parking spaces and the location and spacing of curb cuts.
- (b) Findings
- In order to grant such authorization, the Commission shall find that:
- (1) where modifying #bulk# regulations, such modifications shall result in a superior configuration of non-#residential uses# within the #building# than would be feasible by applying the #Special Gowanus Mixed Use District# regulations;
 - (3) where modifying ground floor #use# regulations, the advantages of an off-street loading and access outweigh the disadvantages incurred by the interruption of retail continuity; and
 - (4) where modifying supplemental #use# and parking regulations, that such modifications would present a limited interruption and would not create serious vehicular traffic congestion that would adversely affect the surrounding area.

Upon completion of the #development#, the #zoning lot# shall remain occupied by #predominantly# non-#residential use#. Such requirements shall be reflected in a notice of restrictions recorded against all tax lots comprising such #zoning lot#, and a copy of such notice shall be provided to the Department of Buildings.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

However, up to 40 percent of such required circulation path may be provided below such level when providing access to a "get-down" located no more than two feet above the level of the #shoreline#.
 - (3) Access to circulation paths
The provisions of paragraph (a)(1) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall apply, except that where a #shore public walkway# is on a #zoning lot# that is adjacent to a #zoning lot# which has not been improved with a #shore public walkway#, the portion of the circulation path that terminates at the common #zoning lot line# may be located within 40 feet of the shoreline.
In addition, for #zoning lots# adjoining #streets# containing bridge structures, the required connection of circulation paths to such a #street# may be waived by certification by the Department of Transportation, pursuant to Section 139-44 (Bridge Connection Requirements).

NOTICE

On Wednesday, July 28, 2021, a public hearing is being held by the City Planning Commission (CPC), accessible both in person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by The City of New York. The City of New York, acting through the Department of City Planning (DCP), together with the Department of Housing Preservation and Development, the Department of Parks and Recreation, and the Department of Citywide Administrative Services is proposing a series of land use actions—including zoning map amendments, zoning text amendments, City Map amendments, and disposition of City-owned property (collectively, the “Proposed Actions”)—to implement land use and zoning recommendations in the Gowanus Rezoning and Related Actions. The area subject to the Proposed Actions (the “Project Area”) is generally bounded by Bond, Hoyt, and Smith Streets to the west; 3rd and 4th Avenues to the east; Huntington, 3rd, 7th, and 15th Streets to the south; and Warren, Baltic, and Pacific Streets to the north. The Proposed Actions would affect an approximately 81-block area of the Gowanus neighborhood of Brooklyn, Community Districts 2 and 6. Overall, the Proposed Actions are expected to result in a net increase of approximately 8,500 dwelling units (DU), 735,000 square feet (sf) of commercial space, 251,000 sf of community facility space, and approximately six acres of new open space, including over an acre of newly mapped parkland. The Proposed Actions would result in net decreases of approximately 132,000 sf of warehouse space, 125,000 sf of self-storage space, and 60,000 sf of other industrial space. On privately owned sites, the Proposed Actions could result in a net increase of approximately 7,500 DUs, including approximately 2,000 permanently affordable DUs for lower-income New Yorkers in accordance with the Mandatory Inclusionary Housing Program (MIH). On City-owned sites, the Proposed Actions would result in approximately 1,000 affordable DUs, designated to serve a wide range of incomes.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through Monday, August 9, 2021.

before [date of adoption] and such application has been approved after January 1, 2018, provided that:

- (i) such #transient hotel# was considered in such application, as evidenced by its description or assessment at a specified location in a land use application or in environmental review documents; and
- (ii) in the event that a temporary or final certificate of occupancy has not been issued by [six years after date of adoption], the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit pursuant to the applicable provisions of Section 11-332 (Extension of period to complete construction); or

(3) where an application for a project containing a #transient hotel# has been certified by the City Planning Commission before [date of adoption] and has been approved by the Commission after January 1, 2018, provided that:

- (i) such #transient hotel# was considered in such application, as evidenced by its description or assessment at a specified location in a land use application or in environmental review documents; and
- (ii) in the event that a temporary or final certificate of occupancy has not been issued by [six years after date of adoption], the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit pursuant to the applicable provisions of Section 11-332. For such applications where a special permit for a #transient hotel# has been certified by the Commission pursuant to a #Special Purpose District#, such application may continue pursuant to the regulations and term of years proposed or in effect at the time such special permit was certified by the Commission.

(c) Existing hotels

- (1) Any #transient hotel# existing on [date of adoption] shall be considered a conforming #use# and may be continued, structurally altered, #extended# or #enlarged# subject to the limitations set forth in this Section and subject to the applicable #bulk# regulations. However, if for a continuous period of two years such #transient hotel# is discontinued, the space allocated to such #transient hotel# shall thereafter be used only for a conforming #use# other than a #transient hotel#, or may be utilized for a #transient hotel# only if the Commission grants a special permit for such #use# in accordance with the provisions of Section 74-802 or other applicable section of this Resolution.
- (2) The provisions of paragraph (c)(1) of this Section shall be modified up to [six years after date of adoption] to allow a #transient hotel# existing on [date of adoption] to be restored to such #use# regardless of more than two years of discontinuance of the #use#, and regardless of any change of #use# between [date of adoption] and [six years after date of adoption].
- (3) In the event a casualty damages or destroys a #transient hotel# that was in such #use# as of [date of adoption], such #building# may be reconstructed and used as a #transient hotel# without obtaining a special permit. A #non-complying building# may be reconstructed pursuant to Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS).

(d) Vesting regulations

The provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) regarding the right to continue construction shall apply. As an alternative, the following provisions shall apply.

- (1) If, on or before [date of referral], an application for a #development#, #enlargement# or #conversion# to a #transient hotel# has been filed with the Department of Buildings, and if, on or before [date of adoption], the Department of Buildings has approved an application for a foundation, a new #building# or an alteration based on a complete zoning analysis showing zoning compliance for such #transient hotel#, such application may be continued, and construction may be started or continued. The application may be revised and retain vested status, provided that the #floor area# for the #transient hotel# is not increased beyond the amount approved.
- (2) However, in the case of an application for a #development#, #enlargement# or #conversion# to a #transient hotel# that has been filed with the Department of Buildings prior to January 1, 2018 and has not received a permit contingent

on zoning approval on or before [date of adoption], the provisions of paragraph (d)(1) of this Section shall not apply. In lieu thereof, the provisions of this paragraph shall apply. For such applications, if, on or before [date of adoption] a permit contingent on zoning approval was lawfully issued by the Department of Buildings, such construction may be started or continued.

In the event that a temporary or final certificate of occupancy has not been issued by [six years after date of adoption], the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit pursuant to the applicable provisions of Section 11-332 (Extension of period to complete construction).

In M1 Districts, #transient hotels# shall be permitted only as set forth in this Section. The City Planning Commission may permit #transient hotels# in an M1 District pursuant to a special permit set forth in another Section of this Resolution, or pursuant to Section 74-803 (Transient hotels within M1 Districts), as applicable.

(a) Applicability

Such special permit for #transient hotels# pursuant to Section 74-803 shall be applicable to:

- (1) #development# of a #transient hotel#;
(2) a change of #use# or #conversion# to a #transient hotel#, or an #enlargement#, containing a #transient hotel#, of a #building# that, as of December 20, 2018, did not contain such #use#; or
(3) #enlargement# or #extension# of a #transient hotel# that existed prior to December 20, 2018, that increases the #floor area# of such #use# by 20 percent or more.

(b) Exclusions

The provisions of this Section shall not apply to the following:

- (1) A special permit shall not be required for a #transient hotel# operated exclusively for the public purpose of temporary housing assistance by the City or State of New York, or operated by a non-governmental entity pursuant to an active contract or other written agreement with an agency of the City or State specifying such public purpose.
(1+) In addition, a special permit pursuant to the provisions of Section 74-803 shall not be required for #developments#, #enlargements#, #extensions# or changes of #use# of #transient hotels# in:

(4)(2) A special permit pursuant to the provisions of Section 74-803 shall also not be required in an M1-2 District for a change of #use# to a #transient hotel# that occupies no more than 30 percent of the #floor area# on the #zoning lot# and where such #zoning lot# contains a minimum #lot area# of 100,000 square feet, comprises an entire #block#, and contains #buildings# with a minimum total of 500,000 square feet of #floor area# on December 20, 2018.

(c) Within M1-5A and M1-5B Districts

Within an M1-5A or M1-5B District, a special permit pursuant to Section 74-803 shall be required in conjunction with a special permit pursuant to Section 74-781 (Modifications by special

permit of the City Planning Commission of uses in M1-5A and M1-5B Districts) except that a permit pursuant to Section 74-781 shall not be required for a #transient hotel# located above the ground floor level, where the #floor area# used for such #use# on the ground floor does not exceed an amount minimally necessary to access and service such #transient hotel#.

(d) Existing hotels

However, if for a continuous period of two years such #transient hotel# is discontinued, or the active operation of substantially all the #uses# in the #building# or other structure# is discontinued, the space allocated to such #transient hotel# shall thereafter be used only for a conforming #use#, or may be utilized #used# for a #transient hotel# only if the Commission grants a special permit for such #use# in accordance with the provisions of Section 74-803 or other applicable section of this Resolution.
(2) The provisions of paragraph (d)(1) of this Section shall be modified up to [six years after date of adoption] to allow a #transient hotel# existing on [date of adoption] to be restored to such #use# regardless of more than two years of discontinuance of the #use#, and regardless of any change of #use# between [date of adoption] and [six years after date of adoption].
(3) In addition, in the event a casualty damages or destroys a #transient hotel# within an M1 District that was in such #use# as of December 20, 2018, such #building# may be reconstructed and used as a #transient hotel# without obtaining a special permit. A #non-complying building# may be reconstructed pursuant to Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS).

73-25 Boatels

In C-3 Districts, the Board of Standards and Appeals may permit boatels provided that the following findings are made:

- (a) that such use is so located as not to impair the essential character or the future use or development of the nearby residential neighborhood; and
(b) that any restaurant permitted in connection with such use satisfies the conditions for issuance of special permits to eating or drinking places, as set forth in Section 73-24.

The Board may modify the regulations relating to signs in C-3 Districts to permit a maximum total surface area of 50 square feet of non-illuminated or illuminated non-flashing signs on each of not more than three street or water frontages.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements with respect to the location of illuminated signs, the shielding of floodlights or adequate screening.

74-802 In M1-6D Districts

In M1-6D Districts, in areas that have not met the residential development goal set forth in paragraph (a) of Section 42-483 (Commercial uses), the City Planning Commission may permit developments or enlargements of transient hotels with greater than 100 sleeping units on zoning lots where residential use is permitted as of right, in accordance with Section 42-481 (Residential use), provided the Commission finds that:

- (a) a sufficient development site is available in the area to meet the residential development goal; or
(b) a harmonious mix of residential and non-residential uses has been established in the area, and such transient hotel resulting from a development or enlargement is consistent with such character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Transient hotels within Commercial Districts In C1 Districts, except C1-1, C1-2, C1-3 and C1-4 Districts, in C2 Districts, except C2-1, C2-2, C2-3 and C2-4 Districts where transient hotels are not permitted pursuant to Section 32-14 (Use Group 5), in C4, C5, C6 and C8 Districts, in M1 Districts paired with a Residence District, and in M1-6D Districts, transient hotels, as listed in Section 32-14 (Use Group 5), and motels, tourist cabins or boatels, as listed in Section 32-16 (Use Group 7A), shall be permitted only by special permit of the City Planning Commission. In order to grant such special permit, the Commission shall find that such use will not impair the future use or development of the surrounding area. The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-803 Transient hotels within M1 Districts

In M1 Districts, pursuant to Section 42-111 (Special provisions for hotels in M1 Districts), transient hotels, as listed in Section 32-14 (Use Group 5), and motels, tourist cabins or boatels, as listed in Section 32-16 (Use Group 7A), shall be permitted only by special permit of the City Planning Commission. In order to grant such special permit, the Commission shall find that:

- (a) the site plan incorporates elements that address any potential conflicts between the proposed use and adjacent uses, such as the location of the proposed access to the building and to service areas for refuse and laundry, and the building's orientation and landscaping;
(b) the site plan demonstrates that the proposed street wall location and the design and landscaping of any area of the zoning lot between the street line and all street walls of the building and their prolongations will result in a site design that does not impair the character of the existing streetscape;
(c) such use will not cause undue vehicular or pedestrian congestion on local streets or unduly inhibit vehicular or pedestrian movement or loading operations; and
(d) such use will not impair the essential character including, but not limited to, existing industrial businesses, or future use or development of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

ARTICLE VIII SPECIAL PURPOSE DISTRICTS

Chapter 1 Special Midtown District

* * *

81-60 SPECIAL REGULATIONS FOR THE EAST MIDTOWN SUBDISTRICT

* * *

81-62 Special Use Provisions

81-621 Special provisions for transient hotels

Within the East Midtown Subdistrict, as shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, the development of a building containing a transient hotel, as listed in Use Group 5, or the conversion or change of use within an existing building to a transient hotel, shall only be allowed by special permit of the City Planning Commission pursuant to the provisions of this Section. In addition, in Subareas other than the Vanderbilt Corridor, as shown on Map 2 (Special East Midtown District and Subareas), the enlargement of a building containing a transient hotel shall only be allowed by special permit of the City Planning Commission pursuant to the provisions of this Section.

However, in the event a casualty damages or destroys a building within the East Midtown Subdistrict that was used as a transient hotel as of May 27, 2015, in the Vanderbilt Corridor Subarea or on August 9, 2017, in other Subareas, such building may be

reconstructed and used as a #transient hotel# without obtaining a special permit, provided the #floor area# of such reconstructed #building#, less the #floor area# of any other #buildings# on the #zoning lot# does not exceed the applicable basic maximum #floor area ratio# for the #zoning lot# set forth in Section 81-60, inclusive. #Transient hotels# existing on May 27, 2015 within the Vanderbilt Corridor Subarea or on August 9, 2017, in other Subareas, shall be considered conforming #uses#.

To permit such a #transient hotel#, the Commission shall find that such #transient hotel# will:

- (a) be appropriate to the needs of businesses in the vicinity of the East Midtown area; and
- (b) provide on-site amenities and services that will support the area's role as an office district. Such business-oriented amenities and services shall be proportionate to the scale of the #transient hotel# being proposed, and shall include, but shall not be limited to, conference and meeting facilities, and telecommunication services.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area. However, after August 9, 2017, #development# of a #building# containing a #transient hotel# shall be permitted under the regulations which were in effect prior to August 9, 2017, if a new building application for such #development# was filed at the Department of Buildings after June 9, 2016, and a partial permit for such application was issued by the Department of Buildings on or prior to July 20, 2017, and a temporary certificate of occupancy for the entire #building# has been granted prior to January 31, 2020. In the event that such temporary certificate of occupancy has not been granted prior to such date, and an application is filed prior to such date, pursuant to this Section, with the Board of Standards and Appeals, the Board may permit the new building permit to be renewed for a term of one year upon the following findings:

- (1) that the applicant has been prevented from completing such construction by hardship or circumstances beyond the applicant's control;
- (2) that the applicant has not recovered all or substantially all of the financial expenditures incurred in construction, nor is the applicant able to recover substantially all of the financial expenditures incurred through development that conforms and complies with any applicable amendment to this Resolution; and
- (3) that there are no considerations of public safety, health and welfare that have become apparent since the issuance of the permit that indicate an overriding benefit to the public in enforcement of the special permit provisions of this Section. In the event that the Board permits the renewal, the temporary certificate of occupancy shall be obtained by no later than January 31, 2021.

On Wednesday, July 14, 2021, a public hearing is being held by the City Planning Commission (CPC), accessible both in person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of City Planning (DCP). The Proposed Action is a zoning text amendment to require a CPC special permit for new and enlarged transient hotels (Use Group 5) and motels, tourist cabins, and boatels (Use Group 7). The new CPC special permit would replace existing special permits for hotels in Special Purpose Districts. These include the Inwood, Jerome Avenue, East Harlem, Midtown, Garment Center, Hudson Square, 125th Street, Clinton, and Tribeca Special Purpose Districts. It would also require a CPC special permit citywide for new hotels and enlargements in C1 (except for C1-1, C1-2, C1-3 or C1-4 Districts), C2, C4, C5, C6, C8, Mixed Use (MX), and paired M1/R districts. This is the "Area of Applicability" for the Proposed Action. The proposed text amendment would retain existing findings and regulations for hotels in M1 districts where a special permit was adopted in December 2018. The Proposed Action would also retain provisions adopted in the 2018 text amendment to exempt hotels in M1 districts operated for a public purpose. The proposed zoning text amendment would affect every community district within the City, since all community districts contain zoning districts that currently permit as-of-right hotel development, either in the form of commercial (C) districts or mixed-use (MX) districts. In addition, since changes to discontinuance provisions described below may apply to existing commercial hotels that are closed on the date of enactment and could apply in all districts citywide, the action has the potential to affect all community districts.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through Monday, July 26, 2021.

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts, at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)

Department of Youth and Community Development (DYCD)
 Housing and Preservation Department (HPD)
 Human Resources Administration (HRA)
 Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator

By issuing this RFP, NYCHA invites qualified property owners of eligible project(s), as defined below, (the "Proposers") to submit written proposals ("Proposals") demonstrating their project eligibility, qualifications, and interest in securing project-based vouchers ("PBVs") to provide affordable housing, pursuant to Title 24 of the United States Code of Federal Regulations ("CFR") Part 983 [1]. Pursuant to this RFP, NYCHA will award PBVs only for existing housing units as defined in 24 CFR § 983.3 and 983.52. Proposers may submit multiple proposals for consideration under this RFP. Each proposal must include existing housing, and must only cover a single eligible project, which for the purposes of this RFP is defined as a single building, multiple contiguous buildings, or multiple buildings on contiguous parcels of land ("Project").

Pursuant to this RFP and as set forth in more detail in Section IV(4) of this RFP, and upon approval from HUD, NYCHA will select approximately 300 units to receive PBVs.

A non-mandatory virtual Proposers' conference ("Proposers' Conference") will be held on July 19, 2021, at 2:00 P.M. Although attendance is not mandatory at the Proposers' Conference, it is strongly recommended that all interested Proposers attend. Proposers interested in attending must RSVP to NYCHA's Coordinator via email, to RFP.procurement@nycha.nyc.gov, by no later than July 16, 2021, to receive TEAMS meeting information. Please be sure to include the RFP number in the subject line. NYCHA additionally recommends that Proposers submit, via email, written questions to NYCHA's Coordinator by no later than July 22, 2021, 12:00 P.M. Questions submitted in writing must include the firm name and the name, title, address, telephone number, fax number and email address of the individual to whom responses to the Proposer's questions should be given. Proposers will be permitted to ask additional questions at the Proposers' Conference. All questions and answers will be provided to all firms that received a copy of this RFP.

Proposals must be received by NYCHA no later than 2:00 P.M. on August 4, 2021 (the "Proposal Submission Deadline"). Proposers should refer to Section III (2) of this RFP for details on Proposal packaging and submission requirements.

Proposer shall electronically upload a single .pdf containing its Proposal, which may not exceed 4G, into iSupplier. Instructions for registering for iSupplier can be found, at http://www1.nyc.gov/site/nycha/business/isupplier-vendor-registration.page. After Proposer registers for iSupplier, it typically takes 24 to 72 hours for Proposer's iSupplier profile to be approved. It is Proposer's sole responsibility to leave ample time to complete iSupplier registration and submit its Proposal through iSupplier before the Proposal Submission Deadline. NYCHA is not responsible for delays caused by technical difficulty or caused by any other occurrence. NYCHA will not accept Proposals via

email or facsimile. The submission of attachments containing embedded documents or proprietary file extensions is prohibited. If a joint venture is submitting a Proposal, the original Proposal must be signed by a principal or officer of each member of the joint venture, and a detailed description of the form of the joint venture must be included. All Responses shall become the property of NYCHA. Further, NYCHA shall have the right to request any documents or instruments including, but not limited to, corporate resolutions, incumbency certificates, or other forms of verification for purposes of confirming that the signatory thereon is duly authorized to execute such Proposal on behalf of the Proposer, and the Proposer shall promptly furnish such documents or instruments to NYCHA if so requested.

TAXI AND LIMOUSINE COMMISSION

INTENT TO AWARD

Services (other than human services)

ADMINISTRATION OF THE NEW YORK CITY MEDALLION RELIEF PROGRAM - Negotiated Acquisition - Other - PIN#15622P00023 - Due 7-16-21 at 5:00 P.M.

The New York City Taxi and Limousine Commission ("TLC"), intends to enter into a Negotiated Acquisition agreement with the **New York Business Development Corporation** to manage the City's Medallion Relief Program. The immediate issuance of relief payments is necessary to stabilize the medallion taxi industry, mitigate serious danger to this essential transportation service, and stimulate the industry's recovery from the pandemic. Medallion owners are burdened with taxi medallion loans they are unable to pay. Market share and earnings are on a downward trend, which has given rise to an unsustainable imbalance between medallion loan payments and cash flow from the operation of a taxi medallion. Conditions have worsened during the pandemic and there was an unforeseen halt in trips in the Manhattan Central Business District and at airports, which is the core foundation of the taxicab industry. Relief is urgently needed to address the imbalance between outstanding medallion loan payments, and the actual earnings from the operation of a taxi medallion. The relief to medallion owners will help them address this imbalance by renegotiating the terms of medallion loan agreements with lenders. With financial support and free legal service from the TLC's Owner/Driver Resource Center, medallion owners will have the tools needed to bring their medallion debt burden to a sustainable level, which in turn will put more taxis on the road to serve the public with safe and essential transportation.

It is not practicable and/or advantageous to award a contract by competitive sealed bidding or competitive sealed proposals due to a compelling need for services that cannot be timely met through those procurement methods.

AGENCY RULES

BUILDINGS

NOTICE

NOTICE IS HEREBY GIVEN, pursuant to the authority vested in the Commissioner of Buildings by Section 643 of the New York City Charter and in accordance with Section 1043 of the Charter, that the Department of Buildings hereby adopts the amendments to Section 101-03 regarding the reinspection fee, and Section 102-01 of Chapter 100 of Title 1 of the Rules of the City of New York, regarding correction and cure period for violations, and the addition of Section 102-06 to Chapter 100, regarding a program to give owners of one- and two-family homes who have not received any prior violations at the property within the past five years, or are new owners, an opportunity to correct certain violating conditions prior to receiving a notice of violation and associated penalties.

This rule was first published on May 28, 2021 and a public hearing thereon was held on June 28, 2021.

Dated: 7/7/2021
New York, NY

/s/
Melanie E. La Rocca
Commissioner

Statement of Basis and Purpose of Rule

Section 28-208.1 of the Administrative Code provides that the commissioner may issue a request for corrective action as an alternative to the issuance of an order or notice of violation. This rule adds a new Section 102-06 to Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York relating to a new program to give owners of one- and two-family homes who have not received any prior violations at the property within the past five years, or are new owners, an opportunity to correct certain violating conditions prior to receiving a notice of violation and associated penalties. The rule sets out eligibility and requirements for this program.

Section 28-208.1.1 of the Administrative Code allows the imposition of a fee for any subsequent inspection that results in the issuance of a notice of violation for the condition. The rule amends the existing reinspection fee in section 101-03 from \$85 to \$225. This fee has not been increased since it was adopted in 2011. The increased fee will cover the current workload and staffing needed to ensure compliance with code requirements.

The rule also amends section 102-01 by adding a timeframe for correction of violations, extending the cure period for violations from 40 to 60 days for one- and two-family homes, clarifying that the time starts from the date of service of the notice and deleting a redundant provision.

The Department of Buildings' authority for these rules is found in sections 643 and 1043 of the New York City Charter and sections 28-208.1 and 28-208.1.1 of the New York City Administrative Code.

New material is underlined. [Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. The fee for reinspection in section 101-03 of Subchapter A of Chapter 100 of Title 1 of the Rules of the City of New York is amended to read as follows:

Reinspection made necessary by a failure to correct a condition or respond to a request to correct that results in issuance of a violation or other order	[\$85] <u>\$225</u> each inspection
---	-------------------------------------

§2. Paragraphs (2) through (9) of subdivision (c) of section 102-01 of Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York are renumbered (3) through (10), respectively, and a new paragraph (2) is added, to read as follows:

(2) Violations classified as major or lesser must be corrected within forty days from the date of service of the NOV, except that such violations issued to one- or two-family homes must be corrected within sixty days of service of the NOV.

§3. Paragraphs (3), (9) and (10) of subdivision (c) of section 102-01 of Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York, as renumbered by this rule, are amended to read as follows:

(3) [The following violation] A violation for filing a false certification cannot be certified as corrected prior to a hearing before ECB. The respondent must appear at the hearing prior to the submission of the certification to the Department[:].

[(i) A violation for filing a false certification;]

(9) For violations classified as Class 3 or for those Class 2 violations eligible for a cure, respondents may avoid a hearing by submitting a certification of correction acceptable to and received by the Department no later than forty days from the date of [the Commissioner's order to correct set forth in] service of the NOV. For such violations issued to one- or two-family homes, a certificate of correction acceptable to the Department must be submitted and received no later than sixty days from the date of service of the NOV. For violations classified as Class 1, a certification acceptable to the Department must be received by the Department forthwith.

(10) Failure to submit an acceptable certification for all violating conditions indicated on the NOV on a Department of Buildings form within the time period prescribed in paragraph [(8)] (9) of this subdivision shall require the respondent to appear at a hearing at ECB on the date indicated on the NOV. If no certificate of correction is received within the time period prescribed in paragraph [(8)] (9) of this subdivision, the respondent is also subject to issuance of a violation for failure to certify correction and the imposition of civil penalties as defined in [Title] section 28-202.1 of the Administrative Code.

§4. Paragraph (1) of subdivision (d) of section 102-01 of Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York is amended to read as follows (unamended footnote omitted):

(1) Cure.¹ An eligible violation may be cured by correction before the first scheduled hearing date at ECB. All violations that are designated as Class 3 violations are eligible for cure. Some, but not all, types of violations that are designated as Class 2 violations are eligible for cure. Those types of Class 2 violations that are eligible for cure will be indicated within the Buildings Penalty Schedule found below. In order to cure, a certificate of correction acceptable to the Department must be filed at the Department within forty days from the date of [the Commissioner's order to correct set forth in] service of the NOV. For violations issued to one- or two-family homes, a certificate of correction acceptable to the Department must be submitted and received no later than sixty days from the date of service of the NOV. A cure constitutes an admission of the violation; dispenses with the need for a hearing at ECB; constitutes a predicate violation for subsequent violations; and, consistent with the provisions of § 28-204.2, and with the provisions of the Buildings Penalty Schedule, results in a zero penalty. A violation that has been charged as an Aggravated I or Aggravated II violation is never eligible for a cure, even if there is a "Yes" in the "Cure" column in the Buildings Penalty Schedule for that violation description.

§5. Paragraph (3) of subdivision (e) of section 102-01 of Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York, relating to the deadline to receive a corrected certificate of correction, is REPEALED.

§6. Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York is amended by adding a new section 102-06 to read as follows:

§102-06 Homeowner resolution program. Owners of one- and two-family homes who have not received any prior violations at the property will have an opportunity to correct certain violating conditions prior to receiving a notice of violation and associated penalties.

(a) **Applicability.** The homeowner resolution program applies to owners of one- and two-family homes, whether or not they occupy those homes, to whom prior Department notices of violations have not been issued at the property within the past five years. The program shall also apply to new owners, where the violations on the property were issued within the past five years to a prior owner.

(b) **Eligible violations.** This program covers violations classified as Class 1, Class 2 or Class 3 in subdivision (k) of section 102-01 of these rules. Multiple violating conditions observed on the same date are considered as one violation for the purposes of this program.

Exceptions. This section does not apply to Class 1 violations for illegal conversions as described in section 28-210.1 of the Administrative Code and Class 1 violations that lead to death or serious injury.

(c) **Request for corrective action.** Where a violating condition is observed at a property that is part of this program, the commissioner will issue a request for corrective action, giving the owner 60 days to correct the condition.

(d) **Failure to correct condition.** If, upon reinspection at the expiration of the 60-day correction period, an inspection finds that the violating condition has not been corrected, a notice of violation will be issued to the owner.

(e) **Fee.** In addition to receiving a notice of violation, for Class 1 violations as described in subdivision (b), the owner will be charged a fee for the inspection that results in the issuance of such notice of violation, as provided in section 101-03 of these rules.

(f) **Removal from program.** An owner who receives a notice of violation after either failing to correct the violating condition within the provided timeframe or failing to provide access to an inspector to determine if the violating condition has been corrected is no longer eligible for this program and must comply with the requirements in section 102-01 of these rules. The violating condition must still be corrected and any applicable penalty associated with any such notice of violation issued must be paid.

EMERGENCY EXECUTIVE ORDER NO. 215
 July 1, 2021

WHEREAS, the COVID-19 pandemic has severely impacted New York City and its economy, and is addressed effectively only by joint action of the City, State, and Federal governments; and

WHEREAS, the state of emergency to address the threat and impacts of COVID-19 in the City of New York first declared in Emergency Executive Order No. 98, and extended most recently by Emergency Executive Order No. 212, remains in effect; and

WHEREAS, this Order is given because of the propensity of the virus to spread person-to-person, and also because the actions taken to prevent such spread have led to property loss and damage;

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

Section 1. I hereby direct that section 1 of Emergency Executive Order No. 214 is extended for five (5) days.

§ 2. I hereby suspend 34 RCNY 4-08(a)(1), beginning June 30, 2021, to the extent that street cleaning parking rules (also known as alternate side parking or ASP) in residential areas be limited to one day a week. Until further notice from the Department of Transportation, streets where alternate side parking is restricted on multiple days by a sign with the letter "P" with a broom through it will be cleaned, and such parking restrictions will only be in effect, on the last day of the week posted on such signs. However, parking restrictions for street sweeping on consecutive days (daily street sweepings) in metered parking spots will be enforced in accordance with the restrictions posted on the authorized signs for that street.

§ 3. I hereby direct the Fire and Police Departments, the Department of Buildings, the Sheriff, and other agencies as needed, to enforce the directives set forth in this Order in accordance with their lawful authorities, including Administrative Code sections 15-227(a), 28-105.10.1, and 28-201.1, and section 107.6 of the Fire Code.
