- *Win More Contracts at nyc.gov/competetowin*

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/>

roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)

PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION - NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR" AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND RECONSTRUCTION PROJECTS

DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualification and experience in advance, DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construction its parks, playgrounds, beaches, gardens and green-streets. DPR will select contractors from the General Construction PQL for non-complex general construction site work of up to \$3,000,000.00 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the opportunity to take management classes and receive on-the-job training provided by a construction management firm.

DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

■ NOTICE

NOTICE OF ADOPTION OF RULE

NOTICE IS HEREBY GIVEN, pursuant to the authority vested in the Commissioner of the Department of Buildings by Sections 643 and 1043 of the New York City Charter and Section 28-103.19 of the New York City Administrative Code, and in accordance with Section BC 3008 of the New York City Building Code, that the Department of

Buildings hereby adopts the following rule repealing Sections 3616-01, 3616-02, 3616-03 and 3616-05 of Title 1 of the Official Compilation of the Rules of the City of New York and amending Section 3616-04 of such title.

This rule was first published on July 17, 2015 and a public hearing thereon was held on August 19, 2015.

Dated: 8/28/15 /s/ Rick D. Chandler, P.E.
New York, NY Commissioner

Statement of Basis and Purpose of Rule

The rule:

- repeals rules setting forth National Fire Protection Association (“NFPA”) amendments relating to elevator hoistways and machine rooms, closets and pantries, hydrostatic tests, and exemption from Fire Department connection requirements in one- and two-family residential buildings, and
- amends the rule setting forth the NFPA amendment relating to the national fire alarm and signaling code to add language relating to occupant evacuation elevators. This updates the safety requirements to the latest national standard, which will enhance public safety.

Sections one through four of the rule repeal Sections 3616-01, 3616-02, 3616-03, and 3616-05 of Title 1 of the Rules of the City of New York (RCNY), because Sections 3616-02 and 3616-05 have been superseded by Appendix Q of the Building Code, and the amendments to the NFPA standards that had been set forth in 3616-01 and 3616-03 have been superseded by the most recent associated NFPA standards, as amended by Appendix Q.

Section five of the proposed rule amends Section 3616-04 of Title 1 of the RCNY to update provisions of Section 21.6 of NFPA 72 regarding occupant evacuation elevators to conform to the requirements of NFPA 72-2013.

The Department of Buildings’ authority for this rule is found in Sections 643 and 1043 of the New York City Charter, Section 28-103.19 of the New York City Administrative Code, and Section BC 3008 of the New York City Building Code (found in Chapter 7 of Title 28 of the New York City Administrative Code).

Note that an asterisk (*) found within this rule, following the number or letter designating a paragraph, indicates that explanatory material on the paragraph can be found in Annex A of NFPA 72.

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Statement of Basis and Purpose of Proposed Rule

Businesses in New York City are required to recycle in accordance with the Department of Sanitation's commercial recycling rules promulgated pursuant to Local Law No. 87 of 1992, which amended §16-306 of the Administrative Code. Private carters, which collect and dispose of putrescible and non-putrescible waste from commercial waste generators in New York City, must recycle designated recyclable materials, including paper, cardboard, metal, glass and plastic.

The proposed rules would revise the City's current commercial recycling rules to simplify the requirements, which would make them more understandable for businesses and easier to follow. Currently, certain types of businesses are required to recycle different materials than other types of businesses. Eliminating the distinction between businesses types and applying the same rules for all businesses will facilitate greater recycling participation and make recycling easier for businesses. In addition, allowing single stream collection and recycling (when all designated recyclable metal, glass, plastic and paper are placed in the same bags or bins by a business), and co-collection of recyclables (when all designated recyclable metal, glass and plastic is source separated from designated paper by the business, but a private carter places the source separated materials into the same compartment of a waste hauling truck), will help make commercial recycling easier to manage and can significantly increase diversion of recyclables from landfills.

The proposed rules:

- Amend §1-01 by adding, amending and removing relevant definitions;
- Make technical amendments to §1-02 (collection service), §1-08 (residential recycling) and §1-09 (agency and institutional recycling);
- Designate a number of recyclable materials, including, but not limited to, metal, glass, plastic, and paper, to the list of items that businesses that receive private-carter collection are required to recycle;
- Prohibit the commingling of any designated recyclable materials with solid waste;
- Allow private carters, in addition to separate pick-up of designated recyclable materials, to utilize single stream collection and recycling or the co-collection of recyclables;
- Require any generator of private carter collected waste to post a sign identifying: 1) its private carter(s); 2) by type, each designated recyclable material that will be collected by each private carter, and; 3) if such private carter will be utilizing single stream collection and recycling or co-collection of recyclables;
- Provide implementation and notice requirements for owners, net lessees, or persons-in-charge who arrange for private carter collection, and set forth recycling requirements for their tenants and occupants;
- Set forth responsibilities of operators of non-putrescible and putrescible solid waste transfer stations; and
- Provide for the enforcement of such rules in accordance with the New York City Administrative Code.

DSNY's authority for these rules is found in Sections 753 and 1043(a) of the New York City Charter and Section 16-306 of the New York City Administrative Code.

- (1) Pursuant to §16-306 of the administrative code of the city of New York, the following materials are designated as recyclable materials for purposes of this section:
 - (i) metal cans, metal items, aluminum foil, aluminum foil products, metal components of bulk waste, bulk metal, containers made of glass, beverage cartons, rigid plastics and bulk plastic (collectively referred to as designated

recyclable metal, glass and plastic);

- (ii) high grade office paper, newspaper, magazines, catalogs, phone books, mixed paper and corrugated cardboard (collectively referred to as designated recyclable paper);
- (iii) textiles generated by establishments whose solid waste during any monthly period is comprised of at least 10% textiles;
- (iv) yard waste generated by establishments whose solid waste during any monthly period is comprised of at least 10% yard waste;
- (v) construction and demolition waste generated by entities that exclusively engage in an activity that generates construction waste during the ordinary course of business, except that such construction waste shall exclude plaster, wall coverings, drywall, roofing shingles and glass window panes; and
- (vi) organic waste, if designated as a recyclable material pursuant to Section 16-306.1 of the administrative code of the City of New York;

- (2) Notwithstanding paragraph (1) of this subdivision, if there exists any amount of paint, solvents, or hazardous substances contained in a designated recyclable container, such container must not be deemed a designated recyclable material. Instead, such containers must be disposed of in accordance with applicable local, state or federal law.

(b) General source separation, set-out and collection requirements for private carter-collected waste.

- (1) Generators of private carter-collected waste must source separate the materials designated in subdivision (a) as follows:
 - (i) Designated recyclable paper must be tied and bundled securely, or placed out separately for collection in transparent or translucent bags, or labeled bins;
 - (ii) Designated recyclable metal, glass, and plastic must be placed out separately for collection in transparent or translucent bags or labeled bins, provided that bulk metal and bulk plastic items that do not fit in transparent or translucent bags or labeled bins may be placed out separately;
 - (iii) Yard waste must be placed out separately for collection from all other designated recyclable materials and solid waste, and must be disposed of in accordance with Section 16-308 of the administrative code of the City of New York;
 - (iv) Textiles must be placed out separately for collection from all other designated recyclable materials, solid waste and organic waste; and
 - (v) Generators of construction and demolition debris must ensure that such material is disposed of at a permitted construction and demolition solid waste transfer station.
- (2) Designated recyclable metal, glass and plastic, and designated recyclable paper, must not be placed in the same bags. The provisions of this paragraph will not apply if such materials are collected pursuant to single stream collection and recycling as allowed by paragraph (3) of subdivision (c) of this section.
- (3) Generators of private carter collected waste shall inform the private carter that:
 - (i) Designated recyclable metal, glass and plastic, and designated recyclable paper, must be collected by separate trucks or placed in separate compartments of the same truck, unless such materials are collected pursuant to single stream collection and recycling as allowed by paragraph (3) of subdivision (c).
 - (ii) No designated recyclables can be collected in the same compartment of a truck as solid waste or organic waste, if designated as a recyclable material pursuant to Section 16-306.1 of the administrative code of the City of New York.
- (4) Any materials that have special collection requirements pursuant to applicable local, state or federal law must be disposed of accordingly, and must not be commingled with solid waste, designated recyclable materials or organic waste.

(c) Commingling of solid waste with designated recyclable materials.

- (1) The commingling of any designated recyclable materials with solid waste is prohibited.
- (2) The commingling of organic waste that has been designated

- pursuant to Section 16-306.1 of the administrative code of the City of New York with solid waste or other designated recyclable materials is prohibited.
- (3) Notwithstanding the source separation provisions of subdivision (b) of this section, a generator of private-carter collected waste may commingle designated metal, glass, and plastic with designated recyclable paper if:
- (i) his or her private carter has furnished information to the business integrity commission of its ability to use either single stream collection and recycling, or co-collection of recyclables; or
 - (ii) a generator obtains a registration from the business integrity commission pursuant to paragraph (b) of Section 16-505 of the administrative code of the city of New York, to transport its own designated recyclable materials to a central holding location under the control of the generator, from which such designated recyclable materials will be collected by a private carter or delivered by the generator directly to a recycler.
- (d) **Generator requirements.** (1) All generators of private carter-collected waste must ensure that the separation of materials as set forth in subdivisions (b) and (c) of this section is maintained prior to the collection of such materials by a private carter or recycler. However, such requirements do not apply if single stream collection and recycling is used by a private carter or recycler pursuant to paragraph (3) of subdivision (c) of this section. All generators of private carter-collected waste must ensure that designated recyclable materials as set forth in subdivision (a) of this section are kept separate from solid waste and organic waste, if designated pursuant to Section 16-306.1 of the administrative code of the city of New York.
- (2) Generators must post a sign identifying each private carter approved to provide collection and/or recycling services for such generators. Such sign must use lettering of a conspicuous size and be prominently displayed by attaching it to a window near the principal or service entrance of the generator's premises so as to be easily visible from outside such premises. Such sign must also identify, by type, each designated recyclable material that will be collected by each private carter and, if applicable, whether the private carter will be using single stream collection and recycling or co-collection of recyclables.
- (e) **Implementation and notice requirements.**
- (1) *Owners, net lessees or persons-in-charge of a premises who arrange for the collection of solid waste.* The owner, net lessee or person-in-charge of a premises who arranges for the collection by a private carter or recycler of solid waste or designated recyclable materials generated by such premises must:
- (i) arrange with a private carter or recycler for the recycling, reuse or sale for reuse of designated recyclable materials in accordance with subdivisions (b) and (c) of this section, except where such materials are managed pursuant to the returnable container act, also known as the bottle bill, found in Title 10 of Article 27 of the environmental conservation law. This provision will not apply if an establishment obtains a registration issued by the business integrity commission pursuant to subdivision b of Section 16-505 of the administrative code of the city of New York.
 - (ii) Notify his or her tenants, occupants, and/or employees, at least annually, in writing, of applicable source separation requirements, including what materials are required to be source separated and how to source separate such materials. A copy of such notification shall be submitted to the Department upon request within five business days of such request either by postal mail or electronic mail to the Department.
 - (iii) Post and maintain one or more signs in maintenance areas where refuse and recycling are collected and/or stored, which describe what materials are required to be source separated and collection procedures for such materials; and
 - (iv) Post and maintain one or more such signs in public areas where designated recyclable materials that are required to be source separated are routinely generated, provide containers for, or otherwise provide for the separate collection of, such materials.
- (2) *Tenants or occupants.* Tenants or occupants of premises that generate private carter-collected waste must, at a minimum:
- (i) source separate materials in accordance with subdivisions (b) and (c) of this section;
 - (ii) notify their employees, customers, clients, or others lawfully on the premises of applicable source separation requirements by posting and maintaining one or more signs that set forth what materials are required to be source separated and how to source separate such materials.
- (3) Any sign posted pursuant to this paragraph must be posted in a common area or areas routinely visited by such employees, customers, clients, and/or others lawfully on the premises.
- (4) Containers for the collection of designated recyclable materials to be used by customers, clients, or others lawfully on the premises must be labeled to indicate what materials may be properly placed therein.
- (5) Nothing in this subdivision will preclude a tenant or occupant from instituting his or her own source separation program in accordance with the provisions of subdivision (c) or (d) of this section.
- (f) **Responsibilities of operators of non-putrescible and putrescible solid waste transfer stations.** Operators of non-putrescible and putrescible solid waste transfer stations must:
- (1) remove any translucent plastic bags containing source separated designated recyclable metal, glass and plastic that are intended for recycling, reuse, or sale for reuse, or transfer to a recycling processing facility; and
 - (2) maintain any separated designated recyclable paper materials apart from all other solid waste and other designated recyclable materials before their transfer to another location.
- (g) **Enforcement and compliance.** (1) The Commissioner reserves the right to conduct lawful inspections at reasonable times to ensure compliance with this section. Such inspections may include, but need not be limited to:
- (i) inspections of solid waste and/or designated recyclable materials placed out for collection by a generator to determine whether such materials have been placed out for collection in accordance with subdivisions (b), (c) and (d) of this section;
 - (ii) inspections of solid waste brought to Department solid waste disposal facilities;
 - (iii) inspections of non-putrescible and putrescible solid waste transfer stations; and
 - (iv) inspections of any other facilities required to be registered or licensed by the department.
- (2) Any person who violates any provision of this section will be liable for civil penalties as provided for under §16-324 of administrative code of the city of New York. In addition, operators of non-putrescible or putrescible solid waste transfer stations will be liable for civil penalties as provided for in §16-133(a)(2) of the administrative code of the city of New York and rules promulgated thereunder.
- (h) **Severability.** The provisions of these Rules shall be severable and if any word, phrase, clause, sentence, paragraph, subsection or section of these Rules, or the applicability thereof to any person or circumstance, shall be held invalid, the remainder of these Rules and the application thereof shall not be affected thereby.
- §9. This rule shall take effect on July 1, 2016 and the Department shall not issue any violations pursuant to this rule until July 1, 2017, provided however, Section 1 shall take effect thirty days after the final rule is published in the City Record.

MAYOR'S FUND TO ADVANCE NEW YORK CITY

NOTICE

The Mayor's Fund to Advance New York City, with the assistance of the New York City Department of Consumer Affairs Office of Financial Empowerment ("DCA/OFE"), seeks a Collaborative of Consultants to

partner with each other in creating a framework and strategy for defining and measurably improving neighborhood-level financial health. This initiative seeks to enable DCA/OFE to identify and harness local formal and informal systems and structures to magnify positive financial health outcomes for neighborhoods, and thereby for low-income New Yorkers, across New York City at an unprecedented scale. The total budget for the Collaborative is \$210,000 over approximately 12 months of engagement. Further details can be found at on.nyc.gov/finhealthrfp .

The Mayor’s Fund to Advance New York City (Mayor’s Fund) received funding to support a diversity initiative targeting the not for profit cultural community in New York City. The New York City Department of Cultural Affairs (DCLA) launched the Diversity Initiative in January 2015. The purpose of this major initiative is to promote diversity among the leadership, staffs, and audiences of cultural organizations in New York City. This includes a demographic survey of DCLA’s nearly 1,000 grantee organizations that will examine race, ethnicity, gender, disability, age, and other factors.

The Mayor’s Fund seeks a consultant to develop strategy and execution programming related to DCLA’s Diversity Initiative, as further described in the RFP at on.nyc.gov/DiversityInitiativeRFP. The anticipated term of engagement is October 24, 2015 - December 31, 2016.

The budget for this initiative is \$93,000.

YOUTH AND COMMUNITY DEVELOPMENT

NOTICE

In accordance with Section 3-03(b)(1) of the Procurement Policy Board Rules, the Department of Youth and Community Development (DYCD) will be issuing a Concept Paper for the In-School Youth (ISY) and Out of School Youth (OSY) Workforce Innovation and Opportunity Act (WIOA) Programs. Following release of this concept paper, DYCD will issue a request-for-proposals (RFP) for new programs. In July, 2014, WIOA replaced the Workforce Investment Act and reinforced the nation’s commitment to employment, training, adult education, and vocational rehabilitation programs. WIOA has significant implications for improving services for low-income and disconnected youth, and broadens key definitions of eligibility, skills deficiency, and barriers to employment, all of which expand access to essential workforce development programs for vulnerable youth. WIOA also encourages the development of career pathways that connect progressive levels of training, education, and credentials, and supports skills development that meets the demands of the labor market. DYCD recognizes these challenges as well as the importance of providing comprehensive supportive services to promote success for participating Out of School Youth and In School Youth and focuses on helping these youth build the skills and confidence to succeed. Through this RFP, DYCD is seeking appropriately qualified organizations to implement federally-funded WIOA OSY and ISY programs. DYCD aims to fund an integrated and holistic program model that will strengthen NYC’s workforce development system and help young people gain the support, educational credentials and skills needed to succeed in today’s economy.

Other types of procurements, such as sole source, require notice in The City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov, and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these

entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. PROMPT PAYMENT

The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards, and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
