

Dear Prospective Interns:

The City of New York's Summer Internship Program (SIP) welcomes both graduate and undergraduate students each spring. The summer 2021 program is accepting applications and is open to students who graduated within one year of the current spring semester.

The City's internship program is a 13-week program that provides students with an opportunity to gain valuable work experience and exposure to the daily challenges and rewards of public service. The internships offered reflect the richness and breadth of the work performed in New York City and cover almost all areas of municipal government.

As you review the internship postings on our website, look closely at the position descriptions, including remote or in-person options, and details on paid and academic credit positions. Application requirements and deadlines may vary across agencies and by position. Visit our [Summer Internship Program page](#) for more information and a list of available positions. Check back often as available positions will be posted for review through the end of June 2021.

We look forward to working with you.
