Special Insert: Guide for Completing the Online Examination
This online examination consists of the following sections:
Application, including the Notice of Examination and payment of fee
Licenses, Certificates, and/or Registrations
Employment/Work Experience
Selective Certification
Survey

There are detailed instructions online for each of these sections, so make sure that you read these instructions before you begin to fill out each section. In addition, the Overview and Frequently Asked Questions (FAQs), which are accessible throughout the examination process, contain valuable information about the online examination process and civil service procedures governing examinations. This guide is a brief summary of some of the items found in these instructions.

1. You must complete the application and examination by midnight, Eastern time, of the last day of the filing period. If you do not complete your application, which includes payment of the filing fee, there will be no record that you applied for the examination.
2. You must have a Certification as a Commercial Pesticide Applicator for Industrial, Institutional, Structural and Rodent Control (7A) issued by the New York State Department of Environmental Conservation in order to qualify for this examination. If you do not meet the certification requirement, you will be found Not Qualified and your application fee will not be returned.
3. Completing the Employment/Work Experience Section: For each job you must fill out the information requested. A maximum of one year of full-time experience will be credited for each 12-month period. Part-time experience will be pro-rated according to the following ranges:
   35 hours per week or more = 100%
   34 hours or less per week will be pro-rated as a percentage of a 35 hour work week.
   For each job you must select the tasks you performed from the tasks listed in the drop-down menu.
4. Completing the Licenses, Certificates, and/or Registrations section: From the drop-down menu under the Licenses, Certificates, and/or Registrations section, select the appropriate license, certificate, or registration. On the line labeled Original Date of Issue you must enter the date that your Certification as a Commercial Pesticide Applicator for Industrial, Institutional, Structural and Rodent Control (7A) was originally issued, not the date you last renewed your certification nor the expiration date. You must also list the expiration date of your Certification as a Commercial Pesticide Applicator for Industrial, Institutional, Structural and Rodent Control (7A). This expiration date must be at least through the last day of filing or later. Only experience gained after the original date of issue of your certification will be used to compute additional credit. Since the date of issue of your certification predates the renewal date of your certification, you would be potentially lowering your score if you entered the renewal or expiration date of your certification when asked to enter the original date of issuance of your certification.
5. Completing the Selective Certification section: This section is optional and will not affect your score.
