THE TEST:
The multiple-choice test may be given at a computer terminal or in a paper and pencil format. You will be informed of the format on your Admission Notice. A score of at least 70% is required to pass this test. Your score on this test will determine 85% of your final score. Your seniority will determine the remaining 15%. You must pass the multiple-choice test to have your seniority credited. Your seniority score will be 70 plus 1/2 point for each three months of completed, continuous service with an agency under the jurisdiction of the Commissioner, Department of Citywide Administrative Services, in permanent competitive or in Labor class titles. Your service will be credited through the date of the test, up to a maximum of 15 years.

The multiple-choice test is designed to assess the extent to which candidates have certain knowledge and abilities determined to be important to the performance of the tasks of a Plasterer. Task areas to be tested are as follows: work preparation and layout; plastering; tiling; reporting and record keeping; work site safety; and supervision of staff.

The test may include questions on standards of proper employee ethical conduct, including the provisions of Mayor’s Executive Order No. 16 of 1978 as amended; and other related areas. The test may also include questions requiring the use of any of the following abilities:

Written Comprehension: understanding written sentences and paragraphs. Example: A Plasterer might use this ability when reviewing written work orders.

Written Expression: using English words or sentences in writing so that others will understand. Example: A Plasterer might use this ability when describing work completed.

Number Facility: adding, subtracting, multiplying and dividing quickly and correctly. Example: A Plasterer might use this ability when determining the length and width of a wall in order to lay tiles.

Information Ordering: correctly following a rule or set of rules or actions in a certain order. The rule or set of rules must be given. The things or actions to be put in order can include numbers, letters, words,
pictures, procedures, sentences, and mathematical or logical operations. Example: A Plasterer might use this ability when following specific procedures when repairing or replacing a damaged wall.

**Problem Sensitivity:** being able to tell when something is wrong or likely to go wrong. Example: A Plasterer might use this ability when assigned to repair or replace part of a wall and sees that the entire wall must be replaced.

**Manual Dexterity:** being able to make skillful coordinated movements of one hand, a hand together with its arm, or two hands to grasp, place, move or assemble objects, such as hand tools or blocks. Example: A Plasterer might use this ability when assigned to mix plaster or apply plaster to a wall.

Certain questions may need to be answered on the basis of documents or other information supplied to the candidates on the date of the multiple-choice exam. There will also be a qualifying practical test that will assess the candidate's ability to prepare plastering materials and apply such materials to interior and exterior surfaces. Only those candidates who pass the multiple-choice test and meet the experience requirements will be scheduled to take the practical test. A score of at least 70% is required to pass the qualifying practical test.
