RECONSTRUCTION OF COLLEGE POINT AREA

PROJECT ID: SE-807

Borough: Queens

Community Meeting **Monday - January 28, 2019** **6:00 PM**

at

Queens Library at Poppenhusen
121-23 14th Ave, College Point, NY 11356

The New York City Department of Design and Construction (DDC) is upgrading the water mains, sanitary and storm sewers in your area. The contractor performing the work is EIC Associates, Inc. On behalf of DDC, AMC Engineering has prepared a Public Participation Plan to inform the public on upcoming construction that will require groundwater control and dewatering activities in your area, and on the State Pollution Discharge Elimination System (SPDES) permit application process.

At the meeting, an overview of the scope of work, schedules, impacts and the proposed mitigation measures as it pertains to the groundwater control and dewatering activities in the College Point area, adjacent to Flushing Bay, will be presented by a representative from EIC Associates, Inc. The first session is open to all residents in the College Point area near Flushing Bay.

If you have any questions regarding the meeting, please contact the Community Construction Liaison, Michelle Perez, by phone at (917) 563-5900, by email at collegetblvdcccl@gmail.com, or visit the DDC field office located at 14-34 110th Street, 3rd Floor, College Point, NY 11356.

Project documents can be accessed by visiting the DDC project website:
