On roadway construction projects, for non-city work performed outside of the original roadway reconstruction project limits is to be restored in accordance with the standard NYCDOT specifications and standards. The owner of the facilities installed is responsible for funding for the restoration work in these areas and payment will be made in accordance with the contract terms. If work is performed on behalf of multiple facility owners resulting in the need to fully reconstruct the disturbed area, funding for the roadway reconstruction will be proportioned based on the areas disturbed by each facility, and payment will be made in accordance with the contract terms.
