

Hunts Point Water Pollution Control Plant
Final Environmental Impact Statement
July 12, 2007

CEQR No.: 05DEP023X

ULURP No.: 070008PSX

Lead Agency: New York City Department of Environmental Protection

Lead Agency Contact: Angela Licata
Deputy Commissioner
New York City Department of Environmental Protection
Bureau of Environmental Planning and Analysis
59-17 Junction Boulevard
Flushing, NY 11373
(718) 595-4413

Prepared by: AKRF, Inc.
URS Corporation
Minnich and Scotto, Inc.

Table of Contents

Foreword.....	F-1
Executive Summary	S-1
1: Project Description	1-1
A. Project Identification.....	1-1
B. The Hunts Point WPCP	1-2
Service Area.....	1-2
Existing Plant Operations.....	1-2
C. Background and Planning Context	1-5
Introduction.....	1-5
Wet Weather Flow Requirements	1-5
Nitrogen Removal Requirements	1-6
Upgrade Schedule and Milestones Pertaining to the Hunts Point WPCP	1-7
Hunts Point WPCP Phase I Upgrade	1-8
Hunts Point WPCP Phase II Upgrade	1-8
D. Description of the Proposed Action.....	1-10
Purpose and Need.....	1-10
Project Approvals.....	1-10
Components of the Phase III Upgrade	1-11
Carbon Addition and Polymer Addition	1-14
Site Plan for the Proposed Action	1-14
E. Description of the Four-Digester Scenario	1-15
F. Construction.....	1-15
G. Public Participation.....	1-16
Hunts Point Monitoring Committee (HPMC).....	1-16
Other NYCDEP and City Outreach Efforts	1-17
Public Outreach for CEQR and ULURP.....	1-18
H. Content of the EIS and Analysis Framework	1-19
2: Land Use, Zoning, Neighborhood Character, and Open Space	2-1
A. Introduction.....	2-1
B. Existing Conditions.....	2-1
Land Use and Open Space	2-1
Zoning and Public Policy	2-3
Neighborhood Character	2-5
C. The Future Without the Proposed Action	2-5
Land Use and Open Space	2-5
Zoning and Public Policy	2-6
Neighborhood Character	2-6
D. Probable Impacts of the Proposed Action.....	2-6

Two-Digester Scenario.....	2-6
Four-Digester Scenario	2-9
3: Socioeconomic Conditions.....	3-1
4: Visual Character and Shadows	4-1
A. Introduction.....	4-1
B. Methodology	4-1
Visual Character.....	4-1
Shadows	4-2
C. Existing Conditions.....	4-4
Visual Character.....	4-4
Shadows	4-6
D. The Future Without the Proposed Action	4-7
Visual Character.....	4-7
Shadows	4-7
E. Probable Impacts of the Proposed Action.....	4-8
Visual Character.....	4-8
Shadows	4-10
Conclusions.....	4-12
5: Historic Resources	5-1
6: Waterfront Revitalization Program.....	6-1
A. Introduction.....	6-1
B. Consistency of the Proposed Action with the WRP Policies.....	6-2
7: Transportation	7-1
8: Criteria Air Pollutants	8-1
A. Introduction.....	8-1
Pollutants for Analysis	8-2
National and State Air Quality Standards	8-5
NAAQS Attainment Status and State Implementation Plans (SIP)	8-5
Determining the Significance of Air Quality Impacts.....	8-6
B. Methodology	8-9
Model Selection	8-9
Meteorological Data.....	8-10
Receptor Network	8-10
C. Existing Conditions.....	8-10
Ambient Air Monitoring Data.....	8-10
Background Concentrations	8-11
D. The Future Without the Proposed Action	8-12
Previous Phases I and II Criteria Pollutant Modeling	8-12
Short-Term Impacts Scenario for this EIS	8-13
Annual Impacts Scenario for this EIS	8-16
E. Probable Impacts of the Proposed Action.....	8-18
Two-Digester Scenario.....	8-18
Four-Digester Scenario	8-23
Conclusions.....	8-23

9: Non-Criteria Air Pollutants	9-1
A. Introduction.....	9-1
B. Pollutants For Analysis.....	9-1
Non-Criteria Air Pollutants.....	9-1
State Implementation Plan (SIP).....	9-2
C. Methodology.....	9-4
Model Selection.....	9-4
Meteorological Data.....	9-5
Receptor Network.....	9-5
Screening Analysis.....	9-5
Refined Analysis.....	9-5
D. Existing Background Concentrations.....	9-6
E. The Future Without the Proposed Action.....	9-9
Wastewater Process Sources.....	9-9
Best Available Control Technology (BACT) Analysis for Non-Criteria Pollutants.....	9-15
Combustion Sources.....	9-16
F. Probable Impacts of the Proposed Action.....	9-19
Wastewater Process Sources.....	9-19
Carbon Addition.....	9-19
Combustion Sources.....	9-25
Modeling Results.....	9-25
Total Wastewater Process Source and Combustion Source Impacts.....	9-30
Best Available Control Technology (BACT) Analysis for Non-Criteria Pollutants.....	9-34
Total VOC and HAP Emissions.....	9-35
Conclusions.....	9-35
10: Odors	10-1
A. Introduction.....	10-1
B. Methodology.....	10-1
Indicator Compound.....	10-1
Odor Criteria.....	10-2
Dispersion Modeling.....	10-2
C. Existing Conditions.....	10-3
Odor Complaints.....	10-4
D. The Future Without the Proposed Action.....	10-5
Controlled Sources.....	10-5
Uncontrolled (Area) Sources.....	10-7
E. Probable Impacts of the Proposed Action.....	10-9
Two-Digester Scenario.....	10-9
Four-Digester Scenario.....	10-12
Conclusions.....	10-12
11: Noise	11-1
A. Introduction.....	11-1
Noise Fundamentals.....	11-1
Noise Standards and Criteria.....	11-4
Analysis Year.....	11-7
Impact Definition.....	11-7
Noise Prediction Methodology.....	11-7

B. Existing Conditions.....	11-9
Site Description.....	11-9
Selection of Noise Receptor Locations	11-9
Noise Monitoring	11-10
Equipment Used.....	11-10
Results of Measurements	11-10
C. The Future Without the Proposed Action	11-11
D. Probable Impacts of the Proposed Action.....	11-11
Stationary Noise Sources	11-11
Conclusion	11-13
12: Infrastructure and Solid Waste.....	12-1
A. Introduction.....	12-1
B. Existing Conditions.....	12-1
Water Supply.....	12-1
Wastewater	12-2
Stormwater	12-2
Solid Waste	12-2
Sludge.....	12-3
C. The Future Without the Proposed Action	12-3
Water Supply.....	12-3
Wastewater	12-4
Stormwater	12-4
Solid Waste	12-4
Sludge.....	12-4
D. Probable Impacts of the Proposed Action.....	12-5
Water Supply.....	12-5
Wastewater	12-5
Stormwater	12-5
Solid Waste	12-6
Sludge.....	12-6
13: Energy.....	13-1
A. Introduction.....	13-1
B. Existing Conditions.....	13-1
C. The Future Without the Proposed Action	13-2
D. Probable Impacts of the Proposed Action.....	13-2
Two-Digester Scenario.....	13-2
Four-Digester Scenario	13-4
14: Hazardous Materials	14-1
A. Introduction.....	14-1
Contaminants of Concern.....	14-1
Regulatory Criteria.....	14-2
B. Existing Conditions.....	14-2
NYCDEP Subsurface Investigation of Existing Hunts Point WPCP (1998-1999).....	14-2
NYCEDC/NYCDEP Site Investigation of Barretto Point Site (1999-2002)	14-3
Results of the Site Investigations Conducted to Date	14-4
C. The Future Without the Proposed Action	14-8
D. Probable Impacts of the Proposed Action.....	14-9

Overview	14-9
Impacts During Construction	14-10
Chemical Storage and Handling at the Upgraded Plant	14-13
Conclusion	14-13
15: Water Quality	15-1
16: Natural Resources.....	16-1
17: Construction.....	17-1
A. Introduction.....	17-1
B. Construction Program and Schedule.....	17-2
C. Land Use, Open Space, Neighborhood Character, and Visual Character.....	17-3
D. Traffic and Parking	17-4
Analysis Approach and Study Area	17-6
Traffic Analysis Methodologies.....	17-7
Existing Conditions.....	17-9
The Future Without the Proposed Action (2011).....	17-15
Probable Impacts of the Proposed Action (2011)	17-19
E. Air Quality	17-23
Air Quality Analysis Methodologies	17-24
Existing Conditions.....	17-31
The Future Without the Proposed Action (2011).....	17-31
Probable Impacts of the Proposed Action (2011)	17-32
F. Odors.....	17-37
G. Noise	17-38
Construction Noise Impact Criteria	17-38
Noise Analysis Methodology	17-39
Vibration	17-46
H. Infrastructure and Solid Waste.....	17-48
Stormwater	17-48
Solid Waste	17-49
I. Energy	17-49
J. Hazardous Materials	17-49
K. Water Quality.....	17-49
J. Four-Digester Scenario	17-50
18: Irreversible and Irretrievable Commitment of Resources	18-1
19: Growth Inducing Aspects of the Proposed Action.....	19-1
20: Public Health.....	20-1
A. Introduction.....	20-1
B. Methodology	20-2
Air Quality	20-2
Noise	20-3
Hazardous Materials.....	20-3
C. Existing Conditions.....	20-3
Federal.....	20-4
State.....	20-4
Local.....	20-5

D. Benchmarks for Determining the Significance of Public Health Impacts	20-5
Air Quality	20-5
Noise	20-7
E. Air Quality Pollutants of Concern	20-7
Particulate Matter	20-8
F. Summary of Air and Noise Pollution Sources	20-9
Construction	20-9
Project Operations	20-9
G. Air Quality-Related Health Effects	20-10
Diesel Engine Exhaust	20-10
Microbial Aerosol Emissions	20-22
H. The Future Without the Proposed Action	20-27
I. Probable Impacts of the Proposed Action	20-28
Construction	20-28
Project Operations	20-30
Conclusions	20-32
21: Mitigation	21-1
A. Introduction	21-1
B. Traffic	21-1
C. Visual Character	21-2
22: Unavoidable Significant Adverse Impacts	22-1
23: Environmental Justice	23-1
A. Introduction	23-1
B. Methodology	23-1
C. Delineation of Study Area	23-2
D. Identification of Potential Environmental Justice Areas	23-3
E. Summary of Potential Significant Adverse Impacts in the Study Area	23-4
F. Environmental Burdens on the Hunts Point Peninsula	23-10
G. Analysis of Cumulative Environmental Burdens in the Study Area and the Potential for Disproportionate Effects	23-13
Potential for Cumulative Environmental and Health Impacts in the Study Area	23-13
Conclusions on Disproportionate Adverse Impacts	23-13
H. Public Participation	23-14
Hunts Point Monitoring Committee (HPMC)	23-15
Other NYCDEP and City Outreach Efforts	23-16
Public Outreach for CEQR and ULURP	23-17
24: Alternatives	24-1
A. Introduction	24-1
Purpose of Alternatives Analysis	24-1
Alternatives to be Analyzed	24-2
Summary Comparison of Alternatives	24-2
B. No Action Alternative	24-2
Introduction	24-2
Land Use, Zoning, Neighborhood Character, and Open Space	24-5
Socioeconomic Conditions	24-5
Visual Resources and Shadows	24-5

Historic Resources	24-5
Waterfront Revitalization Program	24-6
Transportation	24-6
Criteria Air Pollutants	24-6
Non-Criteria Air Pollutants	24-6
Odors	24-6
Noise	24-6
Infrastructure and Solid Waste	24-7
Energy	24-7
Hazardous Materials.....	24-7
Water Quality	24-8
Natural Resources	24-8
Construction	24-8
C. Site Plan Alternatives.....	24-9
Site Plan Alternative—Scenario 1	24-9
Site Plan Alternative—Scenario 2	24-11
D. Technological Alternative—Conventional Digester Construction	24-13
Open Space	24-14
Visual Character and Shadows.....	24-14
Natural Resources	24-14
Other.....	24-14
E. Technological Alternative—Digester Mixing Systems and Sludge Heating Alternatives	24-15
F. Carbon Addition Alternative.....	24-15
Hazardous Materials.....	24-15
Odors	24-16
G. Conclusions.....	24-16
25: Comments and Responses to the Draft Environmental Impact Statement.....	25-1

APPENDIX 8: Criteria Air Pollutants

APPENDIX 9: Non-Criteria Air Pollutants

APPENDIX 10: Odors

APPENDIX 11: Noise

APPENDIX 17.D: Construction Traffic

APPENDIX 17.E: Construction Air Quality

APPENDIX 17.G: Construction Noise

APPENDIX 25: Comments on the Draft Environmental Impact Statement

List of Tables

S-1	Maximum Predicted Total Concentrations	S-19
S-2	Maximum Predicted PM _{2.5} Concentrations at Barretto Point Park and Nearest Residential Receptor	S-19
4-1	Shadow Duration on Open Space Resources	4-10
8-1	Ambient Air Quality Standards	8-7
8-2	Most Recent Monitored Ambient Air Quality Data.....	8-11
8-3	Maximum Background Pollutant Concentrations.....	8-11
8-4	Future Without the Proposed Action Combustion Equipment for the Short-Term Impacts Analysis NO ₂ , CO, PM ₁₀ , and SO ₂	8-15
8-5	Future Without the Proposed Action Combustion Equipment for the Short-Term Impacts Analysis PM _{2.5}	8-15
8-6	Future Without the Proposed Action Short-Term Model Input Parameters	8-16
8-7	Future Without the Proposed Action Annual Model Input Parameters	8-17
8-8	Short-Term Model Input Parameters From the Proposed Action	8-18
8-9	Annual Model Input Parameters from the Proposed Action.....	8-19
8-10	Maximum Predicted Total Concentrations	8-20
8-11	Maximum Predicted PM _{2.5} Concentrations at Barretto Point Park and Nearest Residential Receptor	8-21
9-1	National-Scale Air Toxics Annual Average Background Concentration Estimates.....	9-7
9-2	Future Without the Proposed Action Wastewater Process Maximum Hourly Emissions.	9-11
9-3	Future Without the Proposed Action Wastewater Process Maximum Annual Emissions	9-12
9-4	Future Without the Proposed Action Odor Control Stack Parameters	9-13
9-5	Future Without the Proposed Action Total Predicted Facility Emissions (lb/day).....	9-14
9-6	Future Without the Proposed Action Maximum Short-Term and Annual Impacts From Process Sources.....	9-14
9-7	Future Without the Proposed Action Combustion Source Short-Term Model Input Parameters.....	9-17
9-8	Future Without the Proposed Action Combustion Source Annual Model Input Parameters	9-18
9-9	Future With the Proposed Action Wastewater Process Maximum Hourly Emissions	9-21

9-10	Future With the Proposed Action Wastewater Process Maximum Annual Emissions	9-22
9-11	Future With the Proposed Action Carbon Addition Emissions	9-24
9-12	Future With the Proposed Action Combustion Model Input Parameters	9-25
9-13	Future With the Proposed Action Maximum Short-Term and Annual Predicted Impacts from Process Sources	9-26
9-14	Future With the Proposed Action Maximum 1-Hour Predicted Impacts from Carbon Addition	9-26
9-15	Future With the Proposed Action Maximum Annual Predicted Impacts from Carbon Addition	9-27
9-16	Maximum 1-Hour Combustion Impacts	9-27
9-17	Maximum Annual Combustion Impacts	9-29
9-18	Total Maximum Hourly Impacts	9-31
9-19	Total Maximum Annual Impacts	9-33
10-1	Future Without the Proposed Action H ₂ S Controlled Emission Sources and Stack Parameters	10-6
10-2	Future Without the Proposed Action Hunts Point WPCP H ₂ S Uncontrolled Emission Sources	10-8
10-3	Future With the Proposed Action H ₂ S Stack Parameters and Emission Rates	10-10
10-4	Hunts Point WPCP Maximum 1-Hour Off-Site and Sensitive Receptor Odor Impacts (ppb)	10-11
11-1	Common Noise Levels	11-2
11-2	Average Ability to Perceive Changes in Noise Levels	11-3
11-3	Community Response to Increases in Noise Levels	11-3
11-4	City of New York Maximum Sound Pressure Levels (dB)	11-5
11-5	Noise Exposure Guidelines for Use in City Environmental Impact Review	11-6
11-6	City of New York Noise Performance Standards for M3 Manufacturing District	11-6
11-7	Existing Noise Levels (in dBA)	11-10
11-8	2014 Noise Levels Without the Proposed Action (in dBA)	11-11
11-9	2014 Noise Levels With the Proposed Action (in dBA)	11-12
11-10	Octave Band Sound Pressure Levels at Nearby Residential Receptor Locations (in dB)	11-13
11-11	Octave Band Sound Pressure Levels at Property Line (in dB)	11-13
17-1	Summary of Daily Construction Workers and Truck Traffic	17-5
17-2	LOS Criteria for Signalized Intersections	17-7
17-3	LOS Criteria for Unsignalized Intersections	17-8
17-4	2006 Existing Conditions Level of Service Analysis	17-12

Hunts Point WPCP

17-5	Accident Data	17-14
17-6	2006 Existing and 2011 Future Without the Proposed Action Level of Service Analysis	17-18
17-7	2011 No Build (Future Without Proposed Action) and 2011 Construction Conditions Level of Service Analysis	17-21
17-8	Example of Estimated Construction Equipment Data for Hunts Point Site.....	17-25
17-9	Background Air Quality Data for Analyses.....	17-28
17-10	Mobile Source Analysis Intersection Locations	17-31
17-11	Mobile Source Without the Proposed Action CO Concentrations (ppm).....	17-32
17-12	Mobile Source Future Without the Proposed Action PM ₁₀ Concentrations (µg/m ³) .	17-32
17-13	Maximum Predicted Total Concentrations for Construction Activities	17-33
17-14	Mobile Source Future with the Proposed Action CO Concentrations (ppm) for Construction Activities	17-35
17-15	Mobile Source 8-Hour CO Concentrations (ppm) and CEQR <i>De Minimis</i> Criteria..	17-35
17-16	Mobile Source Future With the Proposed Action PM ₁₀ Concentrations (µg/m ³) for Construction Activities	17-36
17-17	Hunts Point WPCP Proposed Action Mobile Source PM _{2.5} Incremental Concentrations (µg/m ³) for Construction Activities	17-36
17-18	Construction Equipment Noise Emission Levels.....	17-41
17-19	Existing Noise Levels for Construction Analysis (in dBA).....	17-42
17-20	Construction From On-Site Noise Sources Results (L _{eq(1)}).....	17-44
17-21	2011 Construction-Related Vehicle Noise Levels With the Proposed Action (L _{eq(1)} in dBA)	17-46
17-22	Vibration Source Levels for Construction Equipment.....	17-48
20-1	1997 and 2004 Hospitalization Rates Per 1,000 Persons (Aged 0-14 and 35+)	20-18
21-1	2011 No Build, Construction and Mitigated Conditions Level of Service Analysis ...	21-1
23-1	Study Area Population and Economic Characteristics	23-4
23-2	Results of Regulatory Database Search for the Study Area.....	23-12
23-3	Permitted Solid Waste Facilities in Study Area.....	23-12
24-1	Most Notable Significant or Temporary Adverse Impacts	24-3
25-1	Construction Schedule	25-46
25-2	Expected Construction Activities, Third Quarter 2011	25-49
25-3	Mayor's Office Population Projections for the Bronx	25-51
