

ONLY 1% OF THE WORLD'S WATER

is fresh and easily accessible. Fortunately, NYC has one of the world's best water systems. Make every drop count!

NEW YORK CITY WATER FACTS

POPULATION

9 million New Yorkers use about 1 billion gallons of water every day.

WATER TREATMENT

Using less water reduces greenhouse gas emissions from treating water and sewage.

CONSERVATION

Conserving water helps us prepare for climate change and drought.

TIPS TO HELP

Aim for a 5 minute shower

It can save about 10 gallons of water.

Report leaks

A leaking toilet could waste 200 gallons of water daily.

Wash full loads of laundry

A half load uses the same amount of water and energy.

OUR MISSION

Let's do our part to win the Water Challenge and help New York City prepare for climate change.

Every drop counts!

Help us conserve water. If you see or hear a leak, report it to facilities.
