September 16, 2019

CERTIFICATE 27207

RESOLVED That the Design Commission, having considered designs for the reconstruction of the coastline (East Side Coastal Resiliency) and East River Park, including the construction of three bridges, a comfort station, two recreation centers, and two gate houses, East River between Montgomery Street and East 25th Street, Manhattan, submitted by the Department of Design and Construction, the Department of Parks & Recreation, the Department of Environmental Protection, and the Department of Transportation, represented by exhibits 7368-J, K, L, M, N & O of record in this matter, hereby gives to the same unanimous preliminary approval with the understanding that the team will (1) re-study the alignment of the pedestrian bridge arches, noting that the previous angle was a more successful design and an integrated lighting solution would be warranted for three new bridges; (2) clarify the shade strategy for East River Park, including the caliper and projected growth of new trees; (3) incorporate more nuance into the wall pattern, in particular at the pedestrian scale; (4) include solatubes to bring natural light into the park buildings; (5) provide technical details on the glass brick gate house designs; (6) develop the closure gate design as part of the graphic designer's scope and from the public's perspective; and (7) provide a detailed design for the East River Park amphitheater, ensuring that it is accessible and functional. The Commission encouraged the team to continue to study the possibility of phasing the construction and thoughtfully consider any interim design solutions. Commissioner Nielsen recused herself.

Preliminary approval is conditioned upon submission of this project for final review and approval before September 16, 2021.
