Jackie Snyder  
Executive Director

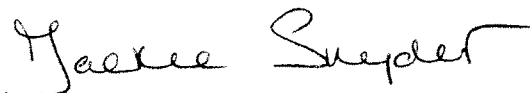

October 15, 2008

CERTIFICATE            23296

RESOLVED That the Design Commission, having considered designs for the construction of an addition and adjacent site work, Queens Borough Hall, 120-55 Queens Boulevard, Queens, submitted by the Department of Citywide Administrative Services, represented by exhibits 129-AK, AL, AM & AN of record in this matter, hereby gives to the same unanimous final approval with the understanding that (1) the Queens Borough President's Office is looking at the restoration of *Civic Virtue* (1922) by Frederick MacMonnies, which was relocated to Borough Hall in 1941, and (2) the adjacent site work, including benches and symmetrical plantings (trees, shrubs and groundcover), as reflected in the contract drawings, will be undertaken immediately upon completion of the addition using funds provided by the Queens Borough President's Office, if DCAS cannot secure funding. The Commission supports the larger site work proposal, as reflected in the schematic drawing entitled "Misc. Exterior Site Projects" approved conceptually on November 13, 2007, and encourages the Department of Citywide Administrative Services and the Queens Borough President's Office to identify additional funding to implement it and submit more developed drawings for preliminary review.

Final approval is conditioned upon commencement of work before October 15, 2010 and submission of a minimum of three (3) 8" x 10" color archival-quality photographs of the completed project.

October 15, 2008

CERTIFICATE            23297

RESOLVED That the Design Commission, having considered designs for the installation of streetscape improvements, including the construction of two triangles, northwest corner of East Houston Street and Avenue A and the northwest corner of East Houston Street and Avenue D, East Houston Street from Bowery to the FDR Drive, Manhattan, submitted by the Department of Design and Construction, the Department of Transportation and the Department of Parks & Recreation, represented by exhibits 6674-H, I, J & K of record in this matter, hereby tables the same with the understanding that Houston Street from Sixth Avenue to the FDR Drive is a major east-west thoroughfare and should be treated consistently. Consequently, the Commission recommends (1) extending the granite curb established in the West Houston Street project from Sixth Avenue to Bowery all the way east to the FDR Drive, and if the cost is prohibitive, providing the cost differential; (2) utilizing the same post-and-chain now being proposed for West Houston Street, as presented, but in black (rather than silver); (3) using Candela poles in the triangles to maintain the contemporary aesthetic of Houston Street, but relocating them from the planted areas into the cobble banding; (4) including bike racks, preferably the winning design from the CityRacks Competition; (5) maximizing the number of street trees and providing a sub-surface plan that includes all conflicts, such as the vaults; and (6) submitting a lighting plan and a plant list, which should be restudied to ensure that it enlivens the green areas. The Commission commends the clear and comprehensive presentation.
