

District 17 needs to be smaller. Currently this district represents Port Morris where the average rent for buildings is \$2100 a month. This district cannot understand and fund the needs of Hunts Point residents who are dealing with poverty, when it is trying to sustain Port Morris \$2100 a month building. Make this district smaller by excluding Port Morris. The community will be better understood and taken care financially if it is not in competition with Port Morris that has rentals starting at \$2100 a month.
