I. PURPOSE

To establish guidelines for ensuring the health, safety and welfare of diagnosed and potentially suicidal inmates in the custody of the New York City Department of Correction.

II. POLICY

A. All inmates who are at risk for suicide shall be placed on suicide watch by medical/mental health staff. In order to prevent suicide, constant supervision shall be implemented by the Department when an inmate is placed on suicide watch by medical/mental health staff.

B. Whenever possible, inmates in suicide watch status shall be housed in dormitory settings. Cell housing can be utilized for inmates as indicated by a mental health clinician based on clinical appropriateness (e.g., those in need of observation, and who are also assaultive).

III. DEFINITION

A. Constant Supervision - The uninterrupted personal visual observation of inmates (without the aid of any electrical or mechanical surveillance devices) and continuous and direct supervision by permanently occupying an established post in close proximity to the inmate under supervision. Staff shall be provided with:

1. A continuous clear view of all prisoners under supervision; and

2. The ability to immediately and directly intervene in response to situations or behavior observed which threaten the health or safety of prisoners or the good order of the facility.
IV. PROCEDURES

A. Identifying Inmates at Risk for Suicide

Staff shall perform routine tours of their assigned posts, observing the inmates in their custody for unusual incidents, behavior or conditions. During tours of inspection, staff must remain alert for any behavior displayed by an inmate that may indicate he/she is mentally ill or suicidal.

The following guidelines have been established in an effort to decrease the number of suicidal attempts. These guidelines cover environmental causes, pre-disposing factors, high risk suicidal periods, and warning signs and symptoms.

These characteristics include:

   c. The screening officer feels that notification is appropriate.

5. Indication of potential suicide will result in an immediate referral to mental health staff.

C. Suicide Prevention Procedures for Court Divisions

Correction Officers assigned to Court Divisions perform routine tours of their assigned posts, observing all inmates in their custody for unusual incidents, behavior or conditions at a minimum of every 15 minutes. During tour of inspection, staff must remain alert for any behavior displayed by an inmate that may indicate he/she is mentally ill or suicidal.
