<sup>1</sup>Rates are calculated using intercensal New York City population denominators updated December 2014. Rates are adjusted to 2000 US Standard population.

<sup>2</sup>Other race/ethnicity or missing race/ethnicity are collapsed into "Other", and are not included in the percent of total calculation.

<sup>3</sup>Age standardized rates are presented. Unknown age are not included in the percent of total calculation.

<sup>4</sup>Decedents with missing residence information or non-NYC residence on death certificate are collapsed into "Other" and are not included in the percent of total calculation.

<sup>5</sup>Neighborhood poverty (based on UHF) defined as percent of residents with incomes below 100% of the Federal Poverty Level per American Community Survey Census 2000.
