Tested Positive for COVID-19?

Treatment is available for New Yorkers. Treatment reduces the risk of getting very sick from COVID-19 and being hospitalized.

Early action is key. Treatment works best when you get it soon after you get sick, so it is important to get tested right away if you have COVID-19 symptoms or were recently exposed. Talk to your doctor or call 212-COVID19 (212-268-4319) to find out more.
