Get Your Child Vaccinated Against COVID-19!

Children ages 6 months to 4 years are now eligible.

NYC VACCINE FOR ALL: SAFE, FREE, EASY
Get Your Child Vaccinated Against COVID-19!

Children ages 6 months to 4 years can now get vaccinated. **Vaccines are safe, effective, free and the best way to protect your child from COVID-19, even if they have been sick with COVID-19 in the past.**

The Pfizer-BioNTech and Moderna COVID-19 vaccines were studied in children ages 6 months to 5 years. These studies were monitored closely by the U.S. Food and Drug Administration and independent experts. Similar to other routine children's vaccinations, side effects were mild to moderate.

To date, tens of millions of children ages 5 to 17 have been safely vaccinated against COVID-19 in the U.S. Children age 11 and younger receive smaller doses of the vaccines than teens and adults.

For more information, visit [nyc.gov/covidvaccine](http://nyc.gov/covidvaccine) or scan the QR code. To find a vaccination site, visit [nyc.gov/vaccinefinder](http://nyc.gov/vaccinefinder) or call 877-VAX-4NYC (877-829-4692). If you have any questions, talk to your child’s health care provider or call 212-COVID-19 (212-268-4319).

---

Has your child received their routine vaccinations against other dangerous diseases such as measles, mumps, whooping cough and chickenpox? Call your provider to set up an appointment, or call 311 or 844-NYC-4NYC (844-692-4692) for help finding a provider. Care is provided in New York City regardless of immigration status, insurance or ability to pay.
