

COVID-19 VACCINE BOOSTER SHOTS

Vaccine booster shots are now available to help people boost their protection from initial vaccination. Go to nyc.gov/covidvaccine or call 877-VAX-4-NYC to learn more.

If you got **Pfizer** or **Moderna**:

Boosters are now available for certain people who received two doses of the Pfizer or Moderna vaccine at **least six months ago**:

- Age **65** and older
- Age **18** to **64** who live in a nursing home or other long-term care facility
- Age **18** to **64** who have an *underlying medical condition* that increases their risk of severe COVID-19
- Age **18** to **64** who are at increased risk of exposure to COVID-19 at work (such as health care workers) or another institutional setting (such as homeless shelters)

You can choose to receive any of the three types of vaccine authorized in the U.S. (Pfizer, Moderna, Johnson & Johnson).

If you got **Johnson & Johnson**:

Anyone **18 or older** who received the single-dose Johnson & Johnson vaccine at **least two months ago** should get a booster shot.

You can choose any of the three types of vaccines authorized in the U.S. (Pfizer, Moderna, Johnson & Johnson).

Go to nyc.gov/vaccinefinder, visit nyc.gov/homevaccine or call 877-VAX-4-NYC (877-829-4692) to find the best way to get your boost today!
