Just In Case...

A condom breaks, or after unprotected sex, or after rape.

Emergency contraception can prevent unintended pregnancy.
Emergency Contraception ("Morning–After") Pills
Most effective when taken within 72 hours (3 days) of unprotected sex, and moderately effective when taken between 72 and 120 hours (5 days).

Ask your healthcare provider for a prescription...Just In Case. The sooner the better!

A Copper IUD (Intrauterine Device)
Can be inserted by a healthcare provider up to 5 days after unprotected sex.

For more information, talk to your healthcare provider or call the Women’s Healthline at 311.
