

HPV Educational Webinars and Online Trainings

The following webinars and online trainings can help you talk to your patients and their parents or caregivers about the importance of the HPV vaccine. Continuing Medical Education (CME) or Continuing Education (CE) credit is available for some webinars and trainings, as outlined below.

CME/CE - Centers for Disease Control and Prevention

- You Call the Shots - HPV E-learning Module
 - **Format:** Webinar
 - **Audience:** Immunization providers (physicians, nurses, nurse practitioners, pharmacists, physician’s assistants, medical students), health educators, administrators
 - **Goal:** To discuss vaccine-preventable diseases and explain the latest recommendations for vaccine use.
 - **Link:** <https://www2a.cdc.gov/nip/isd/ycts/mod1/courses/hpv/ce.asp>
 - **Credit:** 1 to 1.25 credit (CME, CNE, CHEC, CEU, CPE); Expires 1/28/2024
- How Nurses and Medical Assistants Can Foster a Culture of Immunization in the Practice
 - **Format:** Webinar
 - **Audience:** Nurse practitioners, registered nurses, licensed practical nurses, licensed vocational nurses, medical assistants, administrators, certified health education specialist educators, physicians, medical students, nurse technicians, other health educators, pharmacists, physician’s assistants, program managers
 - **Goal:** To guide health care professionals on how to deliver clear and concise vaccine recommendations and address parent and caregiver frequently asked questions before, during and after a patient’s visit.
 - **Link:** <https://www.cdc.gov/vaccines/ed/vaccine-communication/foster-culture-of-immunization.html>
 - **Credit:** 0.75 credit (CME); 0.5 credit (CNE). Expires 12/4/2023

CME/CE - National Foundation for Infectious Diseases

- Cancer Prevention Through Human Papillomavirus (HPV) Vaccination
 - **Format:** Webinar
 - **Audience:** Immunization providers (physicians, nurses, nurse practitioners, pharmacists, physician’s assistants, medical students)
 - **Goal:** To summarize current data on HPV vaccine safety and effectiveness and describe recommendations and strategies for increasing HPV vaccination rates.
 - **Link:** <https://nfid.app.neoncrm.com/np/clients/nfid/event.jsp?event=470&>
 - **Credit:** 1 credit (CME)

Videos and Webinars (Non-credit)

- St. Jude’s Children’s Research Hospital: “Improving Vaccination Coverage at Age 9.” Recorded March 1, 2022.
 - **Format:** Video
 - **Audience:** Immunization providers (physicians, nurses, nurse practitioners, physician’s assistants, medical students)
 - **Goal:** To discuss rationale and identify strategies for starting HPV vaccination at age 9 to increase on-time vaccination coverage.
 - **Link:** https://players.brightcove.net/1942203451001/rJ5hfo9P_default/index.html?videoid=6303353020001
 - **Credit:** Not applicable

Maintenance of Certification (MOC)

Improving Professional Practice (Part 4) of MOC requires pediatricians to demonstrate competence in systematic measurement and improvement in patient care in areas intended to advance child and adolescent health. As part of your process to increase HPV vaccination rates, you may be able to use your collected data and quality improvement (QI) strategies to fulfill your MOC Part 4 requirements. For more information, refer to the resources below.

American Board of Pediatrics

- Visit the link: <https://www.abp.org/content/improving-professional-practice-quality-improvement-part-4>
- On the left-hand side, click on “Your own QI project.”
- Review the checklist based on your project’s size for all the information you will need to complete the application.

American Board of Family Medicine (ABFM)

- Visit the link: <https://www.theabfm.org/continue-certification>
- Scroll down and click on “Performance Improvement.”
- Log on to your ABFM Physician Portfolio for more information.
