

## School Wellness Works Portal

The School Wellness Works Portal is an online system New York City (NYC) public schools can use to access reliable wellness resources and address the health and fitness needs of the school community in a comprehensive way.

Developed by the Office of School Wellness Programs at the NYC Department of Education, schools can use the portal to:

1. Form and manage a **School Wellness Council**
2. Rate the school's wellness policies and programs on the **Scorecard**
3. Search for reliable **resources** to address the school's wellness needs
4. Develop an **action plan** to improve wellness policies and programs
5. Create a **budget** that supports the action plan
6. **Connect** with other wellness councils to celebrate and share best practices

**Registering on the portal also helps schools meet NYC Excellence in School Wellness Award criteria.**

**Go to <https://www.nycenet.edu/wellness/wellnessportal> to access the Portal.**

- **New York City Department of Education (DOE) staff members:** Log in with your DOE alias and password to view your school's profile.
- **Non-DOE staff members:** Sign in as a guest to view basic functions. You must be added to a school's wellness council page to gain full access.

**For more information contact [wellness@schools.nyc.gov](mailto:wellness@schools.nyc.gov).**
