

HIV Prevention Services at Community Organizations During COVID-19

As COVID-19 continues to impact New York City, New Yorkers should follow the core four actions to prevent COVID-19 transmission: stay home if sick; practice physical distancing; wear a face covering; and keep your hands clean.

If you need immediate HIV services and/or supportive services, PlaySure Network and other community-based organizations (CBOs) are still working together to ensure that all New Yorkers have access to services such as: HIV-related navigation for HIV testing, HIV care and treatment, pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), and social services.

As the COVID-19 situation continues to evolve, PlaySure Network and other community-based organization sites might modify HIV prevention services. Please contact each agency prior to any travel for appointments, hours, and services.

For more information about COVID-19, visit nyc.gov/health/coronavirus.

A summary of NYC-supported sites is listed below (as of September 21, 2020). Please **call ahead** to confirm hours and services.

Note: Information confirmed as of date specified and limited to agencies directly funded and/or in partnership with the NYC Department of Health and Mental Hygiene.
