FY 2023 REGULATORY AGENDA**

DIVISION: Division of Disease Control  
BUREAU/PROGRAM: Bureau of Communicable Disease  
SUBJECT: AGS reporting

- 1. Provide a brief description of the subject area(s) of the proposed rule:**  
Amend New York City (NYC) Health Code §§11.03(a) and 13.03 to require clinical laboratories to report all positive test results for alpha-gal syndrome (AGS) to the Department.
- 2. State the reason(s) why action by the agency is being considered:**  
AGS is a serious, potentially life-threatening allergic reaction to galactose- $\alpha$ -1,3-galactose (alpha-gal), a sugar molecule found in most mammals and in red meats. In some people, the initial exposure triggers an immune system response that results in a food allergy to red meat and other products made from mammals. There has been an increase in AGS cases nationally likely due to an increase in bites from the lone star tick (*Amblyomma americanum*), which has been found in New York State and parts of NYC.
- 3. Provide a summary of the anticipated contents of the proposed rule (if known):**  
Require clinical laboratories to report positive AGS test results to the Department.
- 4. Provide a summary of the objectives of the proposed rule:**  
Understand the burden of AGS in NYC and monitor epidemiological trends to guide public health programming.
- 5. Provide the legal basis or enabling authority for the proposed rule:**  
NYC Charter §556(c)(2) and (4) provides the Department's jurisdiction to supervise the reporting and control of communicable diseases and to regulate clinical laboratories, respectively.
- 6. Provide a description of the types of individuals and/or entities likely to be subject to the proposed rule:**  
Clinical laboratories
- 7. Provide other relevant laws:**  
New York City Health Code, Articles 11 and 13  
Public Health Law § 580
- 8. Provide the approximate schedule (e.g., Spring 2023):**  
Fall 2022

DIVISION: Environmental Health

BUREAU/PROGRAM: Bureau of Environmental Disease and Injury Prevention

SUBJECT: Blood lead levels

**1. Provide a brief description of the subject area(s) of the proposed rule:**

Amend Articles 11 and 173 of the NYC Health Code to propose adoption of a lowered blood lead reference value (BLRV) which CDC lowered in October 2021 from 5 mcg/dL or greater to 3.5 mcg/dL or greater. The Department will also propose to repeal the definitions of “unsafe lead paint” and “unsafe lead paint hazard” from NYC Health Code § 173.14(b) and amend the definition of “lead-based paint” to reflect the current definition of “lead-based paint” found in NYC Administrative Code § 27-2056.2(7)(b), which was adopted in December 2021.

**2. State the reason(s) why action by the agency is being considered:**

To better align Health Code requirements to reflect the current practice of taking action at a lower BLRV and update definitions.

**3. Provide a summary of the anticipated contents of the proposed rule (if known):**

Amend Article 173 of the NYC Health Code to reflect the new BLRV and the current definition of lead-based paint.

**4. Provide a summary of the objectives of the proposed rule:**

To better align Health Code requirements to reflect the current practice of taking action at a lower BLRV and update definitions.

**5. Provide a summary of the legal basis or enabling authority for the proposed rule:**

Sections 558 and 1043 of the NYC Charter.

**6. List all relevant federal, state and local laws and rules, including those which may duplicate, overlap or conflict with the proposed rule:**

NYC Health Code §§ 11.09, 173.13 and 173.14

NYC Housing Maintenance Code § 27- 2056.2

**7. Provide a description of the types of individuals and/or entities likely to be subject to the proposed rule:**

Building owners, condominium owners, and cooperative boards of directors of dwellings where DOHMH has determined that a child less than 18 years of age with a blood lead level at or above the BLRV resides or spends at least 5 hours per week; health care providers and laboratories that collect and analyze blood lead specimens in order to determine lead levels; New York City children with elevated blood lead levels.

**8. Provide the intended approximate schedule for adopting the proposed rule (e.g., Spring 2023):**

SUBJECT: CRE reporting

**1. Provide a brief description of the subject area(s) of the proposed rule:**

Amend New York City (NYC) Health Code §11.25 to require reporting of animals infected with Carbapenem-resistant Enterobacterales (CRE) to the Department.

**2. State the reason(s) why action by the agency is being considered:**

CRE is a type of antibiotic-resistant bacteria and is a growing public health concern. Patients with CRE generally have poor clinical outcomes and there is a high mortality rate. Animals are susceptible to CRE infection and CRE can be transmitted between animals and between animals and humans.

**3. Provide a summary of the anticipated contents of the proposed rule (if known):**

Require veterinarians, facilities responsible for the care of animals, and laboratories to report all cases of CRE among animals to the Department.

**4. Provide a summary of the objectives of the proposed rule:**

Improve our understanding of the epidemiology of CRE in animals to implement data-informed interventions and outreach to reduce the risk of animal to animal and animal to human transmission.

**5. Provide the legal basis or enabling authority for the proposed rule:**

NYC Charter §556(c)(2) provides the Health Department's jurisdiction to supervise the reporting and control of communicable diseases.

**6. Provide a description of the types of individuals and/or entities likely to be subject to the proposed rule:**

Veterinarians and veterinary practices; persons in charge of an animal hospital, rehabilitation facility, animal shelter, zoological park, or facility responsible for animal care; and veterinary diagnostic laboratories.

**7. Provide other relevant laws:**

NYC Health Code, Article 11 and 13

SUBJECT: Hepatitis B reporting

- 1. Provide a brief description of the subject area(s) of the proposed rule:**  
Amend New York City (NYC) Health Code §§11.03(a) and 13.03(b) to require clinical laboratories to report all negative hepatitis B e antigen and surface antigen test results to the Department of Health and Mental Hygiene (Health Department).
- 2. State the reason(s) why action by the agency is being considered:**  
Hepatitis B is a serious and potentially deadly disease that can be treated. Improved surveillance will help guide public health programming and improve patient outcomes.
- 3. Provide a summary of the anticipated contents of the proposed rule (if known):**  
Require clinical laboratories to report all negative hepatitis B e antigen and surface antigen test results to the Health Department.
- 4. Provide a summary of the objectives of the proposed rule:**  
Help identify eligible people with hepatitis B for treatment and enable patient and provider outreach.
- 5. Provide the legal basis or enabling authority for the proposed rule:**  
NYC Charter §556(c)(2) and (4) provides the Health Department's jurisdiction to supervise the reporting and control of communicable diseases and to regulate clinical laboratories, respectively.

Amend New York City (NYC) Health Code §§11.03(a) and 13.03(b) to require clinical laboratories to report all negative syphilis test results to the Department.
- 2. State the reason(s) why action by the agency is being considered:**  
Syphilis cases continue to rise in NYC and nationally. A better understanding of the epidemiology of syphilis in NYC and syphilis testing practices will help inform public health programming and improve patient outcomes.
- 3. Provide a summary of the anticipated contents of the proposed rule (if known):**  
Require clinical laboratories to report all negative syphilis test results to the Health Department.
- 4. Provide a summary of the objectives of the proposed rule:**  
Identify disparities in syphilis testing to target outreach and other public health interventions; and better estimate date of infection and disease stage to inform treatment decisions.
- 5. Provide the legal basis or enabling authority for the proposed rule:**  
NYC Charter §556(c)(2) and (4) provides the Health Department's jurisdiction to supervise the reporting and control of communicable diseases and to regulate clinical laboratories, respectively.

SUBJECT: Groceries to Go

- 1. Provide a brief description of the subject area(s) of the proposed rule:**  
The Mayor’s Office of Food Policy (MOFP) launched Groceries to Go (G2G) in December 2021. G2G provides participants credits to purchase groceries for pick-up or delivery with local grocers using an online platform. The proposed rule will establish program eligibility.
- 2. State the reason(s) why action by the agency is being considered:**  
The COVID-19 pandemic exacerbated food insecurity in NYC through historically high unemployment rates, creating financial instability and the closure of institutions such as senior centers and public schools, where people reliably accessed meals prior to the pandemic.
- 3. Provide a summary of the anticipated contents of the proposed rule (if known):**  
Contents of the proposed rule are still being determined. Minimally, eligibility criteria will be based on the need for food assistance and ability to use an online platform for ordering groceries.
- 4. Provide a summary of the objectives of the proposed rule:**  
To clearly define eligibility criteria for beneficiaries of the G2G program.
- 5. Provide the legal basis or enabling authority for the proposed rule:**  
New York City Charter, Chapter 22
- 6. Provide a description of the types of individuals and/or entities likely to be subject to the proposed rule:**  
New Yorker City residents who are eligible and wish to enroll in the G2G program
- 7. Provide other relevant laws:**
