

New York City Healthy Food Donation Partnership

My company will join the New York City Healthy Food Donation Partnership to help emergency food providers increase the amount and types of healthy foods they distribute through food pantries and soup kitchens to New Yorkers in need. Through this voluntary effort,

- We will **start** donating healthy foods
OR
 We will **continue** donating healthy foods and, when possible, increase our donations
- AND
- We will limit donations of sugary drinks, candy, and other foods high in fat, sodium, sugar and/or calories.

Become a partner and ensure that your company will be:

- Listed on the Mayor’s Office of Food Policy website: nyc.gov/NYCFood
- Listed on the New York City Health Department’s website: nyc.gov/health
- Recognized by emergency food provider partners on their websites, through social media, and other printed and electronic materials
