▶ Module 3

- ▶ Identify hormonal and non-hormonal contraceptive options for teens.

▶ Module 4

- ▶ Describe ways to communicate effectively with teens about sexual and reproductive health.
- ▶ Describe how pharmacists can foster a youth-friendly environment in their pharmacies.

Instructions for the Learner

To receive three continuing education units (CEUs) for this home-study activity, participants must access <http://www.pssny.org/event/NYCDOHMHReproductiveHealthHomeStudy> to complete the home-study activity, assessment, evaluation and then claim credit. Participants must complete the assessment with a grade of 70% or better. PSSNY continuing pharmacy education policy provides two opportunities to successfully complete this CPE assessment. Please note that questions may not appear in the same order as printed and submissions are not allowed a third time. The current policy of the PSSNY CPE Department is not to release the correct answers to any of our CPE tests. The policy is intended to maintain the integrity of the CPE activity and the assessment.

This activity is offered in cooperation with the Pharmacists Society of the State of New York (PSSNY). The content of this educational activity was developed in its entirety by the New York City Department of Health and Mental Hygiene.
