Kew Gardens Hills, Laurelton, Maspeth, Middle Village, Pomonok, Queensboro Hill, Rochdale, Somerville, South Jamaica, South Ozone Park**

Now is the time for New Yorkers – especially people over 50 or with weakened immune systems – to take
personal precautions to prevent mosquito bites:

- **Use repellents that contain 2-undecanone, DEET, Oil of Lemon Eucalyptus, IR3535, or Picaridin and ALWAYS follow label instructions.**
 - **If outside from dusk to dawn, wear protective clothing** if possible, such as loose-fitting pants, long-sleeved shirts, and socks.
 - **Make sure that your doors and windows have tight-fitting screens.**
Fix or replace screens that have tears or holes.
-

Reduce mosquito exposure around your home:

- Eliminate any standing water that collects on your property.
- Remind or help neighbors to eliminate standing water on their properties.
- Call **311** to report standing water.

For more information about West Nile virus, call 311, or go to www.nyc.gov/health.
