West Nile Virus activity* detected recently in the following
Staten Island zip codes: 10301, 10305, 10306, 10309, 10310, 10312

**Neighborhoods:** Bay Terrace, Dongan Hills, Eltingville, Grant City, Grasmere, Grymes Hill, Huguenot, Midland Beach, New Dorp Beach, Old Town, Pleasant Plains, Prince’s Bay, South Beach, West Brighton

Now is the time for New Yorkers – especially people over 50 or with weakened immune systems – to take personal precautions to prevent mosquito bites:

- Use repellents that contain 2-undecanone, DEET, Oil of Lemon Eucalyptus, IR3535, or Picaridin and ALWAYS follow label instructions.
- If outside from dusk to dawn, wear protective clothing if possible, such as loose-fitting pants, long-sleeved shirts, and socks.
- Make sure that your doors and windows have tight-fitting screens.
  Fix or replace screens that have tears or holes.

**Reduce mosquito exposure around your home:**

- Eliminate any standing water that collects on your property.
- Remind or help neighbors to eliminate standing water on their properties.
- Call 311 to report standing water.

For more information about West Nile virus, call 311, or go to [www.nyc.gov/health](http://www.nyc.gov/health).
