EMERGENCY REGULATION

(a) Reporting of abuse, neglect and significant incidents as defined in Social Services Law Section 488 and Part 433 of Title 18 of the New York Codes, Rules and Regulations. Each director of a residential program shall ensure that all employees, consultants, and volunteers are provided with written information regarding the statutory requirements for reporting suspected incidents of abuse, neglect and significant incidents.

(b) Abuse and neglect prevention plan. Each residential program shall develop written procedures, available onsite, for the protection of youth when there is reason to believe an incident has occurred which would render a youth abused or neglected, as defined in the Social Services Law Section 488. Such procedures shall include, but not be limited to, the following:

(1) Notification. Immediate notification of any reportable incident shall be made to:

(i) the Vulnerable Persons' Central Register;

(ii) local law enforcement officials, if it appears likely that a crime has been committed against a child, or confirm that such notification has already been made; and

(iii) the Office of Children and Family Services and the program's administrative agency.

(2) Investigation procedures shall be in accordance with Part 433 of 18 NYCRR and any regulations, policy, or guidance issued by the Justice Center for the Protection of People with Special Needs (“Justice Center” or the Office. Immediately upon notification that a report of abuse or neglect has been made to the Vulnerable Persons' Central Register, the director of the program or his or her designee shall:

(i) preserve any relevant audio or visual recording;

(ii) preserve any other potential evidence;

(iv) provide necessary assistance to the Justice Center, the Office and, if applicable, local law enforcement officials in their investigation thereof.

(3) Safety procedures. Upon notification that a report of abuse or neglect has been made to the Vulnerable Persons' Central Register with respect to a youth in the residential program, the director or his or her designee shall evaluate the situation and immediately take appropriate action to protect the health and safety of the youth involved in the report and of any other youth similarly situated in the program. Additional action shall be taken whenever necessary to prevent future incidents of abuse and neglect. Any action taken should cause as little disruption as possible to the daily routines of the youth in program. The following alternatives shall be considered in determining the course of action that will be taken with regard to a specific incident of alleged abuse or neglect:

(i) removal or transfer of the subject of the report, consistent with the policy of the agency's board of directors, appropriate collective bargaining agreement(s) and applicable provisions of the Civil Service Law;

(vii) provision of counseling to the youth involved in the report and any other youth, as appropriate.

(4) Plans of prevention and remediation. Upon receipt of notification by the Justice Center for the Protection of Persons with Special Needs (Justice Center) of the Office of the need for preventive or remedial action with any reportable incident reported to the Vulnerable Persons' Central Register, the director of the program, with consideration of any appropriate recommendations received from the Justice Center or the Office for preventative and remedial action, including legal action, and shall:

(i) within 10 calendar days of receipt of a substantiated report of abuse or neglect, develop and implement a written plan of action to be taken with respect to an individual employee or volunteer to protect the continued health and
safety of the youth in program and to provide for the prevention of future acts of abuse or neglect, which plan shall include, at a minimum, those actions taken pursuant to paragraph (3) of this subdivision. Such plan will also describe the actions taken to address the investigation's findings. The plan shall be subject to approval by the Office; and

(ii) in the event an investigation of such a report indicates that the abuse or neglect may be attributed in whole or in part to noncompliance by the program with article 7, article 11, or title 6 of article 6 of the Social Services Law, article 19-H of the Executive Law or the regulations of the office, develop and implement a plan of prevention and remediation which, at a minimum, shall address each area of noncompliance and indicate how the program will come into compliance with article 7, article 11 or title 6 of article 6 of the Social Services Law, article 19-H of the Executive Law and the applicable regulations. Such plan will also describe the actions taken to address the investigation's findings. Such plan shall be developed in conjunction with and subject to approval by the Office.
