

GPO: Group Purchasing Organization

It is critical for all health care facilities in NYC to have surge staffing plans, including surge staffing contracts, in preparation for future waves of COVID-19. In order to facilitate this, New York City Emergency Management has set up a Medical Surge Staffing GPO to assist healthcare facilities with their surge staffing plans.

- This GPO enables the NYC healthcare entities facing staffing shortages as a result of COVID-19 access to staff.
- NYC Emergency Management serves as the vendor manager for the GPO and retains records of the master agreement. The master agreement is **not** a binding contract between healthcare facilities and staffing vendors and thus can not be used as such.
- **Each Healthcare Facility is responsible for creating their own contract with appropriate staffing vendors using the baseline terms and conditions outlined in the GPO.**

Benefits of the GPO include:

- Assist NYC healthcare facilities in establishing surge staffing contracts in preparation for COVID resurgence
- Create and maintain competitive pay scales to prevent rate inflation during times of crisis/staffing shortages
- Ensure staffing contract terms have appropriate flexibilities for healthcare facilities given unpredictable crisis circumstances
- Ensure a broad array of healthcare facilities can work directly with staffing agencies to secure staff meeting their requirements and preferences

GPO: Group Purchasing Organization

Staffing vendors are able to provide clinical staff to the following categories of health care facilities **located within the five boroughs of New York City:**

- General hospitals licensed by the New York State Department of Health (“NYS DOH”) under Article 28 of the New York State Public Health Law (the “PHL”)
- Residential health care, nursing homes, and adult day health care programs licensed by NYS DOH under Article 28 of the PHL
- Adult care facilities licensed by NYS DOH under Article 7 of the New York State Social Service Law (the “SSL”)
- Home care providers licensed by NYS DOH under Article 36 of the PHL
- Residential treatment programs licensed by the New York State Office of Mental Health (“NYS OMH”) under Article 31 of the New York State Mental Hygiene Law (“MHL”)
- Outpatient mental health clinics licensed or granted an operating certificate by NYS OMH under Article 31 of the MHL
- Diagnostic and treatment centers and clinics licensed by NYS DOH under Article 28 of the PHL, including Chronic Renal Dialysis Services
