Public Records Unit (overview):

The mission of the Public Records Unit is to provide the best possible Customer Service. The general public when in pursuit of a Fire Incident, Violation or Ambulance Report need to feel comfortable when acquiring personnel information as in the case of an ePCR/ACR. Criminal Court information or an ECB Notice of Violation require the same type of discretion. Actual copies may not be available due to age but a printout will be provided so the customer is informed as to what corrections need to be made to “cure” outstanding violations. The Fire Incident Report will cover Building, Automobile, Trash/Rubbish, Falling Tree Limbs, Fumes, Smoke and Water Damage and Floods as well as Elevator Extractions. In the event you require more information, please feel free and contact us.
