PURPOSE OF FORM
Form NYC-222 will enable corporations to determine if they paid the correct amount of estimated tax by the proper due date. If the minimum amount was not paid timely, an underpayment penalty may be imposed for the period underpaid. This form helps you to determine whether or not you are subject to this penalty.

ESTIMATED TAX
Every S corporation subject to the New York City General Corporation Tax must pay with its return (Form NYC-3L, NYC-3A, Form NYC-4S or NYC-4S-EZ), or with its Application for Automatic Extension (Form NYC-EXT), an amount equal to 25% of its preceding year's tax if the preceding year's tax computed after all allowable credits is more than $1,000.

Every C corporation subject to the Business Corporation Tax must file Form NYC-300 and pay the Mandatory First Installment (“MFI”) if its tax for the second preceding year computed after all allowable credits is more than $1,000. The MFI is equal to 25 percent of the tax for the second preceding tax year.

In addition, both S and C corporations must file a Declaration of Estimated Tax (Form NYC-400) if the estimated tax for the current taxable year after all allowable credits can reasonably be expected to exceed $1,000. The due date for the declaration and the dates for paying the installments of estimated tax depend upon when the requirements for making a declaration are first met. (Refer to Form NYC-400 for details.)

NOTE
If any date falls on a Saturday, Sunday or legal holiday, substitute the next regular workday.

NOTE
An S corporation is not excused from filing a declaration and paying estimated taxes for the current year merely because its tax liability for the preceding year was $1,000 or less or it did not file a return for the preceding year. However, if the preceding year’s tax was less than $1,000, the taxpayer was not required to make the 25% prepayment based on the preceding year’s tax at the time it filed its return (or its application for extension of time for the filing of the return) for that year.

Similarly, a C corporation must file a Declaration of Estimated Tax (Form NYC-400) if the estimated tax for the current taxable year exceeds $1,000 even if the second preceding year’s tax is $1,000 of less.

EXCEPTIONS THAT AVOID THE UNDERPAYMENT PENALTY
You will not have to pay a penalty if you made all tax payments on time and they equal or exceed the amount that would have been required to be paid by each installment date if the estimated tax were an amount determined under any of the exceptions listed below.

A different exception may be applied to each underpayment. If no exception applies, complete lines 14 through 36 to determine the amount of the penalty.

NOTE
Large corporations (corporations that had allocated taxable income or entire net income of $1 million or more in any of the three years preceding the current year) may not use exceptions 1 or 2. Such corporations may only use the exception for annualized income, or the exception for recurring seasonal income (exceptions 3 or 4, respectively).

Exception 1
Prior Year’s Tax
This exception applies if a corporation paid estimated taxes equal to the tax reported on its prior year’s return. To qualify for this exception, the corporation must have filed an income tax return showing a tax liability for the prior taxable year, and that taxable year consisted of 12 months.

Exception 2
Tax Based On Prior Year’s Facts and Law Using Current Year’s Rates
This exception applies if a corporation paid an amount of estimated tax equal to a tax computed by applying the current year’s rates to the facts shown on the return for, and under the law applicable to, the prior taxable year. The term “current year’s rate” is any of the four methods of calculating the General Corporation Tax, including the minimum tax or any method of calculating the Business Corporation Tax.

Exception 3
Tax On Annualized Income
This exception applies if a corpora-
tion made an estimated tax payment of at least 90% of the amount it would owe if its estimated tax were a tax computed on annualized taxable income for the months preceding an installment date.

A corporation may annualize its income:

a) for the first 3 months, or for the first 5 months if the installment was required to be paid in the 6th month;

b) for the first 6 months, or for the first 8 months if the installment was required to be paid in the 9th month; and

c) for the first 9 months, or for the first 11 months if the install-ment was required to be paid in the 12th month.

To annualize, multiply taxable income for the period by 12 and divide the resulting amount by the number of months in the period (3, 5, 6, 8, 9 or 11 as the case may be). *(Refer to Section 11-676.4(c).*

**Exception 4**

**Additional Exception for Recurring Seasonal Income**

This exception applies to a corporation with recurring seasonal income. Under this exception, income may be annualized by assuming that income earned in the current year is earned in the same seasonal pattern as in the 3 preceding tax years. *(For information about computing this exception, refer to Section 11-676.4(d) of the NYC Administrative Code. Attach your computation to this form.)*

**LINE 8**

**AMOUNT OF INSTALLMENTS DUE**

Divide the amount on line 7 by the number of remaining installments required for the year. Enter the result in the appropriate columns, 2 through 4.

**LINE 9**

C corporations should enter any amounts paid with Form NYC-300 (Mandatory First Installment by Business C Corporations). S corporations enter any amount paid with Forms NYC-3L, NYC-3A or NYC-EXT.

**LINE 10**

**OVERPAYMENT OF PREVIOUS INSTALLMENT**

An overpayment on line 12 in excess of prior underpayments is to be applied as a credit against the next installment. A payment of estimated tax on any installment date is considered a payment of any previous underpayment only to the extent of the excess of the payment over the amount of the installment as computed on line 12.

**LINE 35**

**PENALTY FOR UNDERPAYMENT OF ESTIMATED TAX**

In columns 1 through 4 of line 35, for those installment payments (line 11) that equal 80% or more of line 3 divided by 4, multiply the penalty shown on line 34 in each applicable column by 75%. Enter this result in the applicable column on line 35. Combine these revised amounts with the remaining amounts on line 34 for any quarter for which no amount appears on line 35 and enter the total on line 36.
