Note: According to the federal Tax Cuts and Jobs Act of 2017, net operating losses (NOL) generated during or after 2018 generally may no longer be carried back. These losses may be carried forward indefinitely; however each year's NOL deduction will be limited to 80% of taxable income (without regard to the deduction).

The schedule allows for up to five (5) loss years. If the current year's net operating loss deduction is derived from more years, please complete and attach separate schedule(s).

The net operating loss deduction allowable on Form NYC-202 and NYC-202-EIN is computed in the same manner for unincorporated business tax purposes as it would be for federal income tax purposes, but taking into account only unincorporated business gross income and unincorporated business deductions allocated to New York City of the unincorporated business.

If the unincorporated business was carried on both inside and outside New York City during the year in which the net operating loss was sustained, the allowable current year's net operating loss deduction is to be determined by reference to the allocation basis or method used in the year the loss was sustained, regardless of whether the unincorporated busi-

ness was carried on both inside and outside New York City during the current year
