Introduction

Applicability

The New York City mortgage recording tax (MRT) is an excise tax imposed on the recording of a mortgage on real property located in New York City, and is payable when the mortgage is recorded at the City Register's Office or, for properties located in Staten Island, the Richmond County Clerk's Office. In most cases, the refinancing of an existing mortgage is also subject to the tax. Mortgages on individual cooperative apartments do not incur liability under the mortgage recording tax.

The tax is authorized by the New York Tax Law, Section 253-a, and is imposed by Title 11, Chapter 26, of the NYC Administrative Code. The City tax is in addition to the statewide mortgage recording tax imposed by New York State.

The tax law provides credits or exemptions from the mortgage recording tax in certain cases:

- Exemptions for non-profits and ambulance and fire companies;
- Credit line mortgages,¹ i.e., mortgages that secure indebtedness under a financing agreement that allows the borrower to receive a series of advances or readvances up to a stated amount; and
- Credit for individual condominium unit mortgage. The credit, which applies in connection with the first sale of a condominium unit, is for part of the tax that was paid on recording a construction mortgage or another form of blanket mortgage on the property. In order to qualify, the proceeds of the mortgage must have been used for either construction of the condominium, for capital expenses for the development or operation of the condominium, or for the purchase of the land or buildings, provided that the purchase occurred no more than two years prior to the recording of the Declaration. In addition, to obtain the credit, a unit must be sold within two years following recording of the construction or blanket mortgage.

Tax Base and Rates

New York City Tax

The NYC mortgage recording tax is based on the principal debt or obligation that is secured at the date of its execution or at any time thereafter by a mortgage on real property located in the city. Residential and commercial mortgages are taxed differently.

Residential mortgages are mortgages on one-, two-, or three-family homes and individual residential condominiums.

- The tax rate is 1.0 percent for residential mortgages of less than \$500,000.
- The tax rate is 1.125 percent for residential mortgages of \$500,000 or more.

All other mortgages, including those on apartment buildings, are considered commercial mortgages.

- The tax rate is 1.0 percent for commercial mortgages of less than \$500,000.
- The tax rate is 1.750 percent for commercial mortgages of \$500,000 or more. The 1.750 percent rate consists of the following components:

¹ Further details on credit line mortgages are available in the Department of Finance's Annual Report of Tax Expenditures at <http://www1.nyc.gov/site/finance/taxes/annual-report-on-tax-expenditures.page>.

- 1.125 percent is payable into the City’s general fund.
- 0.625 percent is payable to the New York City Transit Authority and to certain paratransit and franchised bus operators.

New York State Tax

In addition to the City tax, New York State imposes a statewide mortgage recording tax, which consists of the following components:

- A basic tax rate of 0.500 percent for all mortgages. Revenues from the basic tax are payable to the county in which the real property is located, or, in New York City, into the City’s general fund.
- An additional tax rate of 0.300 percent for all mortgages within the Metropolitan Commuter Transportation District (which includes New York City), or 0.250 percent elsewhere in the State. Revenues from the additional tax collected in the Metropolitan Commuter Transportation District are payable to the Metropolitan Transportation Authority (MTA); in other parts of the State the revenues are earmarked for regional transportation and certain other purposes. For one- and two-family homes, the first \$10,000 of the mortgage is not subject to the MTA tax.
- A special additional tax rate of 0.250 percent. Revenues from the special additional tax are payable to the State of New York Mortgage Agency (SONYMA) or, in certain cases, to the Metropolitan Transportation Authority or an upstate transportation authority.

The table below summarizes the rates of City and State tax levies on mortgages covering real property located in the City and shows how the levies are distributed.

	All Mortgages	Mortgages of \$500,000 or More	
	Under \$500,000	Residential	Commercial
State-Levied Taxes	1.050%	1.050%	1.050%
NYC General Fund	0.500%	0.500%	0.500%

2017 Summary

Total 2017 liability was \$1,698.7 million, including \$1,077.1 million dedicated to the NYC general fund and \$621.7 million dedicated to the MTA, SONYMA, and the NYC Transit Authority.²

This report includes mortgages recorded between January 1 and December 31, 2017. MRT liability throughout this report reflects the total tax imposed by the State and the City. Due to data limitations for mortgages recorded in Staten Island, only Tables 1 through 4 include Staten Island.

History

The New York City mortgage recording tax was first imposed in 1971 at the rate of 0.5 percent. The tax was increased in 1982 in two steps, with part of the increase earmarked for the New York City Transit Authority. In 1985, certain advances and readvances under qualifying credit line mortgages were exempted from additional mortgage recording taxes; certain additional credit line mortgages were made eligible for this benefit in 1996. In 1990, the City mortgage recording tax rates were increased to their current levels. The tax was extended to certain transactions involving wraparound mortgages and spreader agreements in 2005.

² Dedicated to New York City Transit Authority and certain paratransit and franchised bus operators.

TOTAL	1,168	9%	\$2,313.4	24%	\$947,500	\$46.4	\$18,458

(Continued)

1. Most residential mortgages recorded involve individuals but a significant number involve legal entities. This table includes only transactions where the mortgagor (borrower) was identified as an entity, such as a trust, limited liability company, limited liability partnership or corporation.
2. Percent of all transactions and all mortgages are calculated based on all transactions and their related taxable mortgage amounts, excluding Staten Island.

Note: Total may not add due to rounding.
