ACKNOWLEDGMENTS

This visioning summary would not have been possible without the participation from residents of Morris I and Morris II ("Morris Houses"). We would like to thank all attendees for taking the time to share their ideas and concerns regarding the new senior housing development in Morrisania. We would also like to thank the Morris Resident Association, the New York City Department of Housing Preservation and Development ("HPD"), and the New York City Housing Development Corporation ("HDC") staff for their continued collaboration with the New York City Housing Authority.
Introduction

The New York City Housing Authority ("NYCHA") plays a key role in achieving the goals set forth in the Mayor’s Housing New York Plan. As part of the de Blasio Administration’s commitment to ensure safe and affordable housing for the City’s increasing senior population, HPD launched Seniors First, a three-pronged strategy including developing new senior housing on NYCHA land. NYCHA will continue to manage and operate its existing developments while selected development teams will build and operate the new affordable buildings.

One of the sites selected for development is located at Morris Houses in Morrisania, Bronx. NYCHA staff met with residents and resident leaders of Morris Houses in the summer of 2019. The goals of the sessions were to inform residents of the planned development and create a summary document of residents’ preferences and concerns.

Some of the key preferences from the Community Visioning sessions include a new development that:

- ensures housing is affordable and accessible for neighborhood’s senior population;
- improves the safety, security, and pedestrian experience of the immediate surroundings;
- provides shaded outdoor amenity spaces for activities;
- provides personalized support and healthcare services designed to maximize the independence for seniors;
- increases the availability of nutrition services and affordable food access for seniors;
- includes amenities that serve seniors;
• partners with existing neighborhood service providers and/or community-based organizations to provide support services and senior programs.
• respects the area context and adjacent buildings by using similar materials, textures, colors, and proportions; Incorporate environmental design principles to promote water, energy, and material conservation.
• limits the environmental impacts experienced during construction;
• develops a resident hiring plan for the construction, maintenance, and management of the new building;
• procures services and supplies from local minority and women-owned business enterprises;
• continues community engagement with Morris residents to ensure the project’s design and implementation meet the community’s needs and priorities.

DEVELOPMENT QUICK FACTS

The proposed development will include:
• a 99-year ground lease;
• approximately 150 -200 affordable senior units;
• on-site tenant services; and
• potential for ground floor community use.
Background

MORRIS II
AT A GLANCE*

buildings: 7
heights: 16 and 20
apartments: 802
residents: 1989
density: 241 people/acre
avg gross income: $24,435
avg gross rent: $507
5-yr capital needs: $127 million
community district: Bronx 3
NYC council district: 16

MORRIS HOUSES
Morris I and II are home to approximately 4,900 residents — about a quarter of the public housing population in the Morrisania neighborhood in the Bronx. The Morris developments were among several tower-in-the-park complexes constructed in the early 1960s in the neighborhood and remain some of the tallest buildings in Morrisania.¹

Located between the Claremont and Crotona Parks, Morris Houses is surrounded by recreational and open space amenities on a somewhat hilly terrain. There are commercial corridors running along Third and Webster Avenues to the east and west sides of the developments. The Houses are located south of the Cross Bronx Expressway in a subway desert more than a 20-minute walk to the nearest station.

*The neighboring development, Morris I, is comprised of ten buildings with 2,889 residents living in 1,085 apartments. The average gross rent is $499 per month.
Engagement Process

The Seniors First engagement process at the Morris Houses took place in the summer of 2019. Outreach efforts included door-knocking and flyer distribution to encourage the participation of residents in the Community Visioning sessions. During the meetings, staff led a range of activities to help NYCHA residents and other community members identify solutions that would both strengthen existing assets and address current challenges of the neighborhood. Participants raised concerns, asked important questions, and suggested solutions to be included in this visioning document for the Seniors First development at Morris II.

ENGAGEMENT PROCESS
Over the course of three meetings, NYCHA used various activities to provide program information, document common concerns, and determine participants’ preferences for the forthcoming development at Morris II. The activities were developed using social, economic, and health data about Bronx Community District 3 (“BX3”).

Meeting 1 - Introduction
The first meeting included a presentation to the Resident Association of Morris Houses, informing attendees about the Seniors First initiative and the planned development of the open space at Morris II. A discussion followed the presentation to help clarify the goals and timeline, and address any concerns about the new development.
Goals
- Provide an overview of the Seniors First program.
- Inform Resident Association about the planned development and resident engagement process.
- Gather feedback about the needs and challenges of the neighborhood.

Event Details
- Date: May 2, 2019
- Venue: Claremont Community Center

Activities
- Q&A: This activity let the resident leaders ask questions about the program, engagement process, and project schedule.

Meetings 2 & 3 - Visioning Workshops
The second and third meetings included an overview of the Seniors First program and the planned development at Morris II. The activities of the workshops were developed in response to the priorities and concerns raised with the Resident Association. NYCHA’s Community Development staff led small group activities and residents gave feedback on their preferred ground floor use and site improvements.

Goals
- Identify assets and challenges in the immediate area to better understand how the development can strengthen the conditions of the neighborhood.
- Determine clear preferences for ground floor space.
- Gather feedback about site improvements.

Event Details
- Date: July 25 & 26, 2019
- Venue: Intermediate School 219 - New Venture School
- Participants: 37 NYCHA residents and 4 other
- Languages: English and Spanish
Activities

- Questionnaire: Participants answered questions about their concerns and needs related to the new development.
- Neighborhood Asset Mapping: Participants reviewed an asset map to discuss the challenges and opportunities of existing neighborhood assets.
- Ground Floor Space Preference: Participants selected their preference for how the ground floor space could be used at the new development.
- Site Improvements: Residents evaluated the existing sites based upon three criteria - accessibility, safety, and outdoor amenities. Participants reflected upon personal experience with the site, studied provided materials to better understand the site conditions, and provided recommendations of site improvements.

What is affordable housing?
It is housing where the occupant(s) pay no more than 30% of their income for housing expenses.

Who will own the land?
NYCHA will maintain ownership of the land and continue to manage and operate Morris Houses. The selected development team will build and operate the new building.

What type of housing will be developed?
The project will develop low-income apartments for seniors and provide residents with assisted living services.

Who can apply for the new units?
During construction, the selected development team will begin the marketing of the units and publicize the application requirements. The building will include a 25% NYCHA preference for the new affordable units.
Findings

Throughout the engagement process, NYCHA discussed a range of issues with Morris Houses residents. The resident feedback collected from the sessions has been organized into four categories: Housing, Urban Design, Community Resources, and Human Capital. Data from Bronx Community District 3 (“BX3”) is included in each category to contextualize the resident feedback.

**HOUSING**

*According to Bronx Community Board 3, the district is facing significant housing challenges. The shortage of deeply affordable, accessible, and adequately maintained rental units continues to impact the community.*

**Resident Preferences**

- Ensure the rents for affordable units align with the income levels of the Morrisania senior population.
- Develop opportunity for seniors living in underoccupied public housing units to move to new development.
- Ensure housing is accessible for people with mobility and visual impairments.

**Supporting Data (All Furman)**

- More than 35% of residents aged 65 or older residing in BX3 are living below the federal poverty level.
- Nearly 36% of the residents in BX3 are severely rent-burdened, spending more than 50% of their income for housing-related expenses.
- About 27% of renters in BX3 live in a NYCHA development.
• The rental vacancy rate in BX3 is 1.8% compared to the citywide rate of 3.5%.^2
• The median rent for studios and 1-bedroom units in BX3 is $883 compared to the average rent of $507 for residents living in Morris II.^2
• In BX3, approximately 20% of the adult population have disabilities compared to the citywide rate of 7.9%.^2
• About 8% of rental units in BX3 have serious housing code violations.^2

**BUILDING & URBAN DESIGN**

*According to residents, the new development should strengthen neighborhood character and increase health and safety for its residents.*

**Resident Preferences**

• Improve the safety and security of the immediate surroundings through lighting improvements; video intercom and security cameras; natural surveillance measures; and ground floor activation.
• Improve the pedestrian experience by revisiting circulation paths and providing clear wayfinding features and signage.
• Improve accessibility by providing exterior rest areas, mobility aids, tactile walking surface indicators, and a passenger drop-off for the building.
• Provide shaded outdoor amenity spaces for activities such as walking, chess, gardening, etc.
• Respect the area context and the adjacent buildings by using similar materials, textures, colors, and proportions from the immediate surroundings.
• Incorporate environmental design principles to promote water, energy, and material conservation.
• Limit the environmental impacts experienced during construction, including noise, vibration, dust, and other pollution effects.

**Supporting Data**

• BX3 is a densely-populated district of the Bronx with approximately 43,000 residents per square mile.^2
• BX3 residents have a higher pedestrian injury
hospitalization rate than NYC overall.\textsuperscript{3}

- Nearly 100% of BX3 residents live within a quarter mile of a park;\textsuperscript{2} however, about a third of adults in BX3 report getting no physical activity in the past 30 days.\textsuperscript{4}

**COMMUNITY RESOURCES**

*According to residents, the community resources and amenities in the Morrisania neighborhood do not adequately serve seniors’ mobility and safely needs.*

**Resident Preferences**

- Provide personalized support and healthcare services designed to maximize the independence for each senior resident at the new building. Services and facilities may include memory care services, medication management, emergency call systems, and laundry services, all with a focus on creating and bolstering the sense of community at Morris Houses.

- Increase the availability of nutrition services and affordable food access for seniors.

- Include amenities that serve the diverse interests of seniors. Residents suggested game tables, reading room, performance space, dining area, exercise equipment, and guest rooms.

- Partner with existing neighborhood service providers and/or community-based organizations to provide support services and senior programs.

**Supporting Data**

- The percentage of adults in BX3 who report eating at least one serving of fruits or vegetables in the past day is lower than the citywide average.\textsuperscript{4}

- The rate of avoidable hospitalizations among adults in BX3 is nearly triple the citywide rate\textsuperscript{3} and approximately 15% of adults within the district report going without needed medical care in the past year.\textsuperscript{4}

- In BX3, the adult rate of obesity and diabetes is significantly higher than the citywide average\textsuperscript{4} and the psychiatric hospitalization rate is nearly double the citywide rate.\textsuperscript{3}

- BX3 has nearly three times the citywide rate of assault-related hospitalizations.\textsuperscript{3}
HUMAN CAPITAL

According to residents, the lack of job opportunities in the neighborhood remains a significant challenge.

Resident Preferences

- Develop a resident hiring plan for the construction, maintenance, and management of the new building in coordination with the Resident Association.
- Procure services and supplies from local minority and women-owned business enterprises.
- Continue community engagement with Morris residents to ensure the project’s design and implementation meet the community’s needs and priorities.

Supporting Data

- The unemployment rate for BX3 is significantly higher than the citywide rate.²
- About 8% of residents aged 16 to 19 in BX3 are neither enrolled in school nor participating in the labor force.²
- More than one third of the BX3 population aged 25 or older do not have a high school diploma.²
Conclusion

The Community Visioning sessions are part of a multi-year engagement process at NYCHA to inform residents of planned developments and to incorporate resident preferences and concerns. This report includes ideas for implementation that require a cooperative effort among residents, community partners, and development teams.

NYCHA has included this visioning document as part of its Request For Proposals to solicit development plans that align with resident preferences and address their concerns. The selected development team will continue the public engagement process and present their proposed plans to Morris residents. The development team will also work with NYCHA’s Office of Resident Economic Empowerment and Sustainability to connect NYCHA residents to job opportunities. NYCHA, alongside HPD and HDC, will monitor project progress from pre-development to construction finish.

We would like to thank all who have participated and encourage others to join as the process moves forward. NYCHA will continue to update residents throughout the development process at Morris Houses.

Questionnaire

NYCHA is conducting a community assessment of Morris Houses to understand your priorities and concerns about the new building. We greatly appreciate your input!

(1) What makes Morris Houses special?  [Choose top 2 with “X”]

- Feeling of community
- Neighborhood character
- Access to education/job opportunities
- Housing affordability
- Access to transportation
- Access to social services
- Neighborhood history
- Access to recreation facilities
- Other:________________________

(2) What are the most pressing issues in your neighborhood?  [Choose top 2 with “X”]

- Shortage of affordable housing
- Lack of education facilities
- Lack of social/health services
- Displacement of residents
- Lack of recreation opportunities
- Lack of healthy food
- Other:________________________

(3) What is your biggest concern about the new building at Morris?  [Choose top 2 with “X”]

- Loss of cultural diversity
- Overcrowding
- Loss of neighborhood character
- Loss of parking lot
- Rising cost of housing
- Other:________________________

(4) There is a trade off between the height of the new building and the number of affordable units. What is your preference for the number of units in the new building?  [Choose 1 with “X”]

- I prefer to maximize the number of units even if that would make the new building taller.
- I prefer not to maximize the number of units to make the building shorter.

(5) The new building will create economic opportunities for residents. What types of opportunities do you think are the most important?  [Choose top 2 with “X”]

- Construction activities
- Vocational training
- Maintenance or janitorial jobs
- Job readiness services
- Other jobs:________________________

(6) We are at the beginning of a multi-year engagement process. What topics would you like more information on?  [Choose top 2 with “X”]

- Income affordability levels
- Construction activities
- Environmental review process
- Section 3 requirements
- Other:________________________

(7) Do you have additional ideas or comments you would like to share about the new building?

ABOUT NYCHA
The New York City Housing Authority’s mission is to increase opportunities for low- and moderate-income New Yorkers by providing safe, affordable housing and facilitating access to social and community services. Nearly 400,000 New Yorkers reside in NYCHA’s 316 public housing developments across the City’s five boroughs. Another 195,000 residents receive subsidized rental assistance in private homes through the NYCHA-administered Section 8 Housing Choice Voucher Program.

To fulfill this mission and better serve residents while facing dramatic reductions in traditional government funding, NYCHA is developing new financing options and building innovative partnerships across the public, private, and non-profit sectors. These strategies help NYCHA address many key challenges, from preserving aging housing stock through timely maintenance and modernization of buildings to increasing resident access to a multitude of community, educational and recreational programs, and job readiness and training initiatives.

SENIORS FIRST
The population of city residents who are senior citizens is projected to increase by 40 percent between now and 2040. New York City seniors are more likely to be low income, to be rent-burdened, and to live on a fixed income than other city residents. To reach more of the growing senior population, the de Blasio administration has committed to create or preserve senior homes and apartments through Senior’s First. The three-pronged strategy includes an initiative to make more homes accessible to seniors and people with disabilities; developing new senior housing on NYCHA and other land; and preserving more of the senior housing originally developed through federal housing plans.
