RE: Heat Sensor Program Request for Discharge

Property: _____

Reg ID: _____

Dear Mr. Ferrigno:

I am the owner/agent for the referenced property. I am requesting dismissal from the Department of Housing Preservation and Development's (HPD) Heat Sensor Program as provided for in Administrative Code section 27-2033.1b (7).

The property meets the following requirements for discharge from the HPD Heat Sensor Program because:

- The property has not received any violations of Administrative Code sections 27-2028, 27-2029(a), or 27-2033.1 in the immediately preceding heat season, or;
- I have taken permanent action to address providing heat for the next heat season. Enclosed are the necessary documents to validate the work that was performed. I understand that submitting false documents may result in further violations and Housing Court litigation and I am available to provide access for HPD to verify the work that was performed.

If you have any questions, or need further information, please feel free to contact me at

_____.

Thank you.
