**Program Description:**

In 1989 a grant application developed by the Human Resources Administration (HRA), Customized Assistance Services, Office of Health and Mental Health Services (CAS/OHMHS) was successfully funded by the National Institute of Mental Health under the Steward B. McKinney Community Mental Health Services Demonstration Project for Homeless Individuals who are Chronically Mentally Ill. These funds enabled the Visiting Psychiatric Service (VPS) to provide psychiatric evaluation and case management services to homeless women in municipal shelters. Continuation funding for this program has been provided by the N.Y.C. Department of Health and Mental Hygiene (DOHMH) (formerly Department of Mental Health, Mental Retardation and Alcoholism Services (DMH)) utilizing Community Support Services (CSS) funds.

The program, known as A Project to Link Up Services (A-PLUS), had as its objective the linking of homeless mentally ill women to a comprehensive package of services that will lead to their placement in transitional or permanent housing. There were two components to the program: 1) psychiatric assessment services provided by CAS/OHMHS and 2) case management services provided by Project Renewal. Homeless women referred to CAS/OHMHS are evaluated by a VPS clinician in the shelter where they reside. Those women who suffer from a serious and persistent mental illness were assigned to a case manager from Project Renewal's case management unit. The case management services are no longer provided by Project Renewal. The psychiatric assessment component, however, continues to be provided by CAS/OHMHS. In addition, in order to accommodate the changing needs of the Department of Homeless Services (DHS), CAS/OHMHS also provides psychiatric evaluation services to other designated men's and women's shelters beyond those originally part of the A+ program.

In addition to providing diagnostic information to the referring agency, VPS clinicians offers a series of recommendations for service planning and provide ongoing consultation to the shelter staff who refer clients for assessments. This includes emergency evaluations for clients who are thought by shelter staff to be an acute danger to themselves or others. Clients who are in need of immediate hospitalization are transported to the nearest hospital by the clinician. VPS physicians have been designated under N.Y.S. Mental Hygiene Law Section 9.37 to order the involuntary transport of individuals determined to be dangerous to themselves or others due to psychiatric impairment.

**Program Description:**

New York State and New York City has entered into three agreements to provide supportive housing. The New York/New York I & II Supportive Housing Agreements provide supportive housing for individuals with a serious mental illness and a history of homelessness. The latest New York/New York III agreement calls for development of 9,000 housing units over the ten year term of the agreement from 2005 through 2016. It provides housing for nine targeted populations who have a serious mental illness, disabling medical condition, substance abuse disorder or have been in foster care and who are homeless or at risk of homelessness. (The nine populations are outlined in attachment, "Full Descriptions of NY/NY III Populations").

The agreement designated Customized Assistance Services, Office of Health and Mental Health Services as the entity responsible for establishing a system through which eligible individuals (as specified in the attachment) would be placed into those housing options being developed. Access to the housing is through a central application process operated by OHMHS, which reviews client eligibility and housing readiness. In addition, the Office is responsible for tracking the placement outcomes of NY/NY eligible clients into housing developed under the terms of the Agreement.

Under the terms of the Agreement, OHMHS determines client eligibility for housing applications submitted from hospitals, shelters, transitional programs, outreach teams and community based agencies on behalf of homeless mentally ill individuals. OHMHS is also responsible for: a) monitoring housing/bed development by not-for-profit sponsors, b) tracking monthly placement data for each site, c) tracking longevity of placements d) monitoring housing census levels e) reviewing vacancy trends, f) developing and monitoring corrective action plans for problematic programs, and g) issuing analytic reports on both client and housing model outcomes.
