Notes from Frances Pardus-Abbadessa, Executive Deputy Commissioner HRA/OCSE:

OCSE collected \$59,673,347 in the month of January 2016 (a five-week month). Support Establishment Percentage (SEP) remained at its new high of 77%, and Paternity Establishment Percentage also remained high at 81% an increase of 11% since 2010. Cases with an order (actively charging and arrears only cases) receiving a payment, remained stable at 42%. There were 1,439 new orders established this month, an increase of 8% over January 2015.

*= 5 week month

⁽¹⁾ This measure includes actively charging and arrears only cases. However, if we consider only actively charging cases (cases with an ongoing obligation) the Total Cases with a Collection percentage remains stable at 58% this month.

⁽²⁾ We continue to observe the effects of ongoing cleanup projects aiming at closing account level cases that are appropriate for closure. This contributes to the large decrease in Current Support Due and in the percentage of "Current Distributed – Former."

⁽³⁾ The State carried out a one-time clean up project in 2012 with the Department of Health to identify cases that received Medicaid at any time and moved the collection data from Never to Former, leaving the cases in place.
