

2013 Estimation Methodology for NYC SNAP Participation Rate
(Data Sources: 2013 American Community Survey, HRA Monthly Fact Sheet)

	Individuals
NYC Population (excluding group quarters)	8,226,741
Minus undocumented immigrants (estimate based on 33.6% reduction in total non-citizen count)	479,332
New dataset total:	7,747,409
Identify individuals in households in which all individuals are receiving SSI and subtract from new dataset total	117,567
Subtract total legal immigrants who have been in the country less than five years	143,891
New dataset total:	7,485,951
Of this remaining dataset, number of individuals in a household with at least one SSI recipient or individual age 60 or older	2,560,725
Of this group, number of individuals meeting gross income test of 200% FPL	979,669
Of this group, number of individuals not meeting gross income test but meeting net test and asset test	36,238
Individuals in a household with no SSI recipient and no individual age 60 or older	4,827,594
Of this group, number meeting gross income test of 130% FPL	1,284,577
Sum of four bold print categories above = Number eligible for SNAP	2,418,051
Number of individuals receiving SNAP benefits in 2013 (average across all months)	1,862,043
Estimated NYC Participation Rate	77.0%
