

Too close for comfort?

Use your phone to find out if you've been exposed to COVID-19, and help NYC stay open!

Now that you're spending quality time with strangers again, why not get COVID-19 Exposure Notifications on your phone?

- » **Exposure Notifications** give you a simple added layer of protection to help stop any new spread of COVID in its tracks.
- » Download the **COVID Alert NY** app or turn on **Exposure Notifications** in your iPhone settings and you'll be alerted if you've spent time near someone who has COVID-19.
- » It's completely **anonymous**. Your name, phone number and location are not tracked.

Protect yourself and those around you. Get back out there and get Exposure Notifications today!

Ways to get notified

- » App store: **COVID Alert NY**
- » iPhones: **Settings > Exposure Notifications**
 - > Turn on **Exposure Notifications**
- » QR code: **Scan here** →
