VII. ARCH UPLIGHT

**MP Lighting L150 Window Sill LED uplight fixture**
- custom color to match stone

**NOTE:**
- Remote transformer type “VA-X” to be located nearby in a well-ventilated and accessible location to be approved by architect.
- General contractor to provide small penetration for exterior rated low voltage wires. Penetration to be as close to windowsill as possible. General contractor to follow all appropriate waterproofing and fire stopping methods.
- General contractor to neatly run low voltage wires across window ledge and through existing window frame.

**ARCH UPLIGHT**
- Type “VA” surface mounted low voltage LED accent to highlight white stone window arch.

**WINDOW ARCH UPLIGHT SECTION**
- See typical penetration detail 3 on sheet 10003 for additional information.
- Exact mounting locations to be onsite pickup.
- Remote transformer type “VA-X” to be located nearby in a well-ventilated and accessible location to be approved by architect.

**WINDOW ARCH UPLIGHT PLAN**
- LED uplight fixture
