## Rezoning

### **REZONING RATIONALE**

#### Rezone C6-1 DB District to C6-4 DB and C6-6 DB to facilitate:

- Infill of vacant site completing the block (nothing can be built as-of-right due to One Hanson overbuild)
- Density at a transit rich location
- Provide affordable homeownership through MIH
- 20k SF expansion of Brooklyn Music School will:
  - more than double instructional space
  - provide accessibility to seniors and the disabled
  - enable upgrade / renovation of existing facility once new space is available
  - ensure the continued growth and vitality of an institution that has been operating at this location for over 100 years

NOTE: Where no dimensions for zoning district boundaries appear on the zoning maps, such dimensions are determined in Article VII, Chapter 6 (Location of District Boundaries) of the Zoning Resolution.

**CURRENT ZONING MAP 16C** 

#### AREA SUMMARY:

One Hanson Existing ZSF:

Brooklyn Music School Existing ZSF:

Brooklyn Music School Expansion ZSF:

12,150

Brooklyn Music School Expansion ZSF:

18,036

130 St. Felix Residential ZSF:

132,144

Total New ZSF:

150,911

Total New GSF:

167,291

PROPOSED ZONING MAP 16C - Area being rezoned is outlined with dotted lines

Rezoning from a C6-1 DB to a C6-4 DB & C6-6 DB

### Design Proposal

### **DESIGN PRINCIPLES**

- Create an ensemble with One Hanson + Central United Church
  - Scale transition between 2 existing buildings
  - Reference Deco Neo Romanesque
  - Relate in Color + Materials
- Establish appropriate scale and treatment of Saint Felix street wall
  - Create relationship to Brooklyn Music School Building
  - Extend Civic / Cultural use and scale
- Articulate north lot line facade

#### 1. Infill Development

- Completes the block and maintains streetwall continuity
- Continues institutional use at grade along St. Felix

**Building Massing Diagrams** 

#### 2. 15' setback above the base

- Establishes townhouse scale at the street and direct relationship with BMS
- Setback relates to church setback above the base

**Building Massing Diagrams** 

#### 3. Shaping the middle of the tower

- 20.6' setback at south facade preserves One Hanson view easement
- 5' setback at east facade aligned with height of Church roof
- 48' setback at west facade to preserve One Hanson lot line windows

Looking Northwest

Looking Southeast

#### 4. Additional setbacks as the tower rises to the top

- Multiple setbacks towards the top slenderize the tower form and reduce bulk as it rises
- These setbacks create separation from the shoulder of One Hanson at the top of the building allowing each to have its own identity

Looking Northwest

Looking Southeast

Terra Cotta Spandrel Detail

## **Ashland Base**

Option 1 (preferred)
2-Story Infill with Rooftop Amenity

- Masonry piers with glazing infill and perforated, segmented loading doors
- Preserves existing One Hanson Easements for Loading, Ingress/Egress etc. as recorded against the Property.
- Requires relocation of One Hanson generator as permissible by recorded ZLDA
- Provides through-block access at street level for BMS
- Provides 2nd Floor identity to BMS
- 2-story height similar to BAM Fisher

Option 2
No Infill: Decorative fence to complete streetwall

- Masonry piers with perforated, segmented loading doors
- Preserves existing One Hanson Easements for Loading, Ingress/Egress etc. as recorded against the Property.
- No through-block access at street level for BMS
- 1-story height aligns with base articulation of One Hanson
